CHESTERTOWN, - - - MARYLAND

STATE ROAD NOW COMPLETED

Virginia's two million dollar highway from the Maryland line to the southern terminal of Cape Charles was thrown open Tuesday, completing a direct hard surface highway from New England to the southern end of the Del-Mar-Va peninsula.

According to Henry C. Shirley, the State Highway Commissioner of Virginia, the Old Dominion has spent $2,074,493 on the highway from the Maryland border to the capes. This includes a two mile section from the main route into Parksley and a similar strip from Tasley to Onancock.

Virginia has been eight years in building the 54 mile highway, starting the project with a short section out of Cape Charles in 1921. Yet the State has spent far more upon that highway through Accomac and Northampton and in the remainder of the State when comparing the average expenditure per county.

If other counties of the State had gotten proportionate allotments with the two shore counties the State would have expended $3,104,000,000.

Cape Charles is now about two hours drive from Snow Hill, where formerly it required at least five hours over rough dirt roads.

Already Accomac County is preparing to beautify the highway with the planting of crepe myrtle trees. The county supervisors this week appropriated funds sufficient to plant two miles.

The State Highway Commission also announced Friday morning that $200,000 of the $1,000,000 available for the Suffolk District, had been allocated for use in Accomac County.

Of this amount $75,000 for building the road from Wachapreague to to Harb.S. H1f

Harborton, and $125,000 to taking over the Chincoteague Toll Road and the bridges and building that section of road.

Taking Money from the Air

Can it be said that garage men live off "flat" of the land?

Timothy Hay—How did you like Venice, Uncle Eli?

Eli—I don't know. I only stayed there over night. The whole place was flooded.

STATE MATCH U. S. FOR ROAD

The State Roads Commission provide $631,911 to match M land's share of the $73,125,000 thorized by Congress as Feder for road construction in the year beginning June 1, 1930, G. C ton Uhl, chairman of the comm sion, said Monday.

The announcement of the Fed appropriations was made Sund the Department of Agricultu order to give ample time to St thorities to prepare their plans road construction in line with Pre dent Hoover's general call for th speeding of public works projects.

"I understood that there is available $28,000,000 of Federal funds previously apportioned," Uhl said. "This means that som the States did not take advantag the previous appropriation.

"If this balance is available Maryland commission will be gla make application for any portion its share of that balance in addi to the $631,911 that is available

"We have not submitted to Bureau of Public Works a sche of all projects to be constructe 1930 on which we expect to ask gureau for Federal aid. And for reason the commission gets rec mendations from the county offi who have charge of the roads in county.

"Notices as to how much mone available for post and lateral funds have just been sent out therefore we will not be able to the projects for which this mon to be spent until about January

"This sum allotted to Maryla disgursed to the commission time to time during the year the presentation of authenti vouchers showing quantities costs applicable to each project viously approved by the Federa thorities."

The Federal-aid fund for roa struction is distributed among States and Hawaii in prop their respective areas, popul and post road mileage. Auth of each State, however, must the sum apportioned to them w equal amount before they can their share.

Under this increased a ment Kent may get anot miles of concrete road or of present road.
