Epworth League Dist. Conference

The Fortieth Annual Convention of the Middletown District Epworth League of the Wilmington Conference of the Methodist Episcopal Church closed a two-day session at Cheswold, Del., last Friday night which was a historical land mark in the history of the League in this district. In spite of almost incessant downpour of rain the attendance was better than average and the interest was greater than ever before manifested. Rev. C. W. Clark, of Sudlersville, the District President, presided and was most efficiently assisted by Dr. J. L. Johnson, the District Superintendent of Middletown District, who conducted the devotional exercises and gave valuable aid in the discussions. The reports of the several departments showed increased interest and progress in the work of the League.

The inspirational address which was to have given by Rev. E. P. Thomas, of Smyrna, Del., was, on account of his illness, given by Dr. Wimbrow, of Grace Church, Wilmington, and was a most masterly presentation of work among yiung people.

The report of the committee on Temperance, Sabbath Observance and literature was received with applause and unanimously adopted.

The committee presenting this report was Mrs. Archie Crew, E. D. C. Hegeman, Mabel Morris, Ellen Taylor, Evelyn Crew, Wilmina Garrison.

The officers elected for the ensuing year were: President, Rev. C. Y. Clark, Sudlersville, Md.; First Vice-President, Gertha Truitt, Sudlersville, Md.; Second Vice President, Mrs. Mary Sullivan, Denton, Md.; Third Vice President, Mrs. Harvey Moore, Betterton, Md.; Fourth Vice President, Mrs. Lillian Crouch, Rock Hall, Md.; Secretary, Miss Isabel Rowlenson, Sherwood, Md.; Treasurer, Rev. W. L. McClintock, Wye Mills, Md.; Junior League Superintendent, Miss Lena A. Lewis, Greensboro, Md. The next meeting of the convention will be held at Greensboro, Md.

Why Explosives Differ in Results Produced

The bureau of mines says that the idea that black powder works upward and dynamite works downward is only an apparent effect. Repeated experiments have shown that in case of all explosives the tendency is for the explosive effect to be exerted in all directions about the center of the explosive. When explosives are exploded in the open and apparently unconfined, such differences seem to occur, because when dynamite is exploded upon the rock, the rock is shattered; which black powder is exploded upon the rock apparently no effect is produced upon the rock. The fact is that both of these explosives are confined at the time of explosion by the invisible atmosphere about them. When they are exploded, however, the dynamite explodes at a rate enormously greater than that of the black powder. The gases which are produced upon its explosion are therefore given off so fast that they become confined by the air about them and therefore they exert pressure upon the rock sufficient to break the rock. In the case of the black powder the gases are given off so slowly that, like the gases from a chimney fire, they mingle with the atmosphere and therefore the pressure exterted by the exploding powder upon the rock is too little to produce any breaking effect.

Patent Rights' Disposition

When a company goes bankrupt and owns patent rights to an invention, such patent rights are an asset of the firm or corporation and would be sold or assigned with other assets.—Washington Star.

Sudlersville Group Of Churches

The regularly monthly social of the Sudlersville Group will be held in the form of "stunt night" at Sudlersville Community Hall. Various churches and organizations are contributing stunts, readings, musical numbers, pantomines or short sketches of one kind or another to make up a program of fun.

This is Tag Week in the Sudlersville Group of Churches: The one week in the year when all the churches in the group unite in a call on everyone in their community to give financial support to their program of religious education. The territory covered by the group extends roughly from the Sassafras river to Goldboro and from the Eastern borders of Chestertown thru Hartley.

Its program of religious education appeals to and is warmly supported by three classes of people: the warm-hearted folks who love children and young folks for whose good the work is chiefly planned; the public-spirited folks who are anxious that their community shall be the best possible place to live in; and the Godly folks who have not forgotten Christ's commission to "teach all nations" of the "Kingdom of God."

The religious education program of this Group of Churches so enthusiastically endorsed is a part of a nation wide movement that our boys and girls thru more and better schools may come to know Christ and live as He would have them live. More and more people are becoming convinced that one hour of work on Sunday is not adequate time for giving our boys and girls that knowledge that is the essential background of all education plus those attitudes and ideals which are a vital part of Christian education plus opportunity to carry out these Christian ideals in practice. Hence has grown up greater emphasis on Week-Day instruction. The state and public school officials in many states realize pupils from public schools for one or two hours a week for religious education carried on by the churches of the community. There are over 2400 such schools now, of which three are held in this Group of Churches at Galena, Millington and Sudlersville. A second method of securing more time for religious training for our children is the Vacation Church School conducted on consecutive days for from two to three hours for several weeks in the summer. Eight such schools were held last summer.

But in religious education as in all things it is the quality and not quantity that is most essential and so an important part of the program is devoted to better schools; better administration; better organization; better teaching, and better worship. The latter received the most emphasis last year.

This year we are thinking especially in terms of "reaching every child in the community." Hence the churches welcome to their week day schools childrens not attending Sunday school and offer to give in the homes week-day instruction to groups of children whose parents wish it. This offer has been accepted by the parents of the Felton and Stevens schools and week-day classes in these neighborhoods have been organized. Associate membership is Sunday school with supervised home study is also arranged for those who cannot reach the church on Sunday.

To those various ends, teachers and officers of many of our church schools are cooperating loyally, giving freely of their time and energy in discussions at conferences and training classes of the best way to achieve these purposes in their local situation.

When we compare the accomplishments of the past to the possibilities of the future, we see we are only started in our task; a task so big that it challenges the best in all of us.

Harsh counsels have no effect; they are like hammers which are always repulsed by the anvil.—Helvetius.

Calabash was seated in his office when the phone rang. "Hello, is this Mr. Calabash?" came the voice over the wire.

"Yes," replied Calabash. "Who is this?"

"This is Johnson, Johnson, Johnson and Johnson lawyers."

"Oh, good morning, good morning, good morning, good morning."

Noted Evangelists To Be In Kent

Mr. and Mrs. Paul White, of Highland Park, Illinois, are to assist Rev. W. L. Hess, of Olivet M. E. Church, Galena, in an evangelistic campaign from November 24th to December 7th. The Whites are experienced singers, musicians, and workers with children and youth. Visiting pastors will do the preaching during this campaign. The public is invited to attend the meetings.
