Farmal Prices REDUCED!

We have just received a big piece of power farming news—the McCormick-Deering FARMALL price has been cut $50, and we are at once passing the information on to our customers. The Harvester Company's announcement says:

"We are glad to be able to make a reduction in the FARMALL tractor price at this time because right now the farmer is seriously in need of anything that will help him to cut down his costs of crop production.

"Due to manufacturing economies and anticipated reductions in material costs, we were able to reduce prices on the McCormick-Deering implement lines, effective for the present season.

"Recently, by the same process, we lowered the price on the 10-20 McCormick-Deering tractor $40, and cut the 15-30 tractor price $75.

"Now, to complete our program of reductions, we announce a $50 cut in the price of the FARMALL.

"These price reductions, made during recent months, mean a saving to farmers of millions of dollars.

"As the original all-purpose tractor the McCormick-Deering FARMALL has won tremendous popularity. More than 100,000 FARMALLS have been built. Already this tractor has created a real revolution in farming. It is the best investment a farmer can make.

"The new price, $825 f. o. b. Chicago, is the lowest ever placed on the FARMALL."

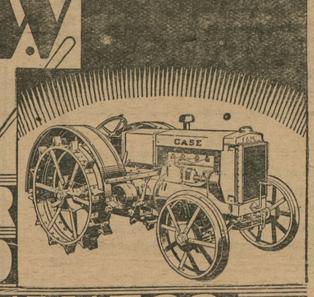

You have probably seen the FARMALL Tractor at work. If not we will demonstrate it at any time, on any job. The FARMALL replaces 6 to 10 horses and 2 to 3 men It plows 7 to 9 acres a day—double disks 18 to 25 acres—drills up to 45 acres—plants 24 to 46 acres—cultivates 33 to 50 acres and, in later cultivatings, 50 to 65 acre. It handles every farm power job, including row-crop operations. Put the best tractor power to work now—at the new FARMALL price!

If it isn't a McCORMICK-DEERING, it isn't a FARMALL

NEW

POWER
SPEED
USEFULNESS

WE have seen many tractors in our experience, but never before anything that comes even close to approaching the new Case Model "C" Tractor.

Here you have every advantage to make tractor farming still more profitable. You have power to pull 2-3 plow bottoms, a small to medium size thresher with all attachments, or other machines of like capacity. You have compactness and light weight. The tractor stands only 48 inches high, weighs but a trifle more than two draft horses. You have three forward speeds, 2⅓, 3⅓ and 4½ miles an hour.

Because of these advantages, there is practically no limit to the versatility of the Model "C". You can use it for more different kinds of work—more days in the year. You can take it into the field when a heavier machine would be useless. You can speed up every farm operation. Not least in importance, you can get into corners and tight places, because the tractor turns short and with far more ease than is customary.

Est. 1842 CASE

Never before have you been able to get a tractor with this combination of power, light weight, size, speed and ease of handling. By all means, come in and look it over.

Plows, Harrows and many other tillage tools.

THE OLD CHESTER RIVER BRIDGE LOOKING TOWARD TOWN

Telephone Company Winner In Truck Driving Contest

Walter R. Hough, general chairman, Baltimore Safety Council, presents winner's plaque to J. W. Talbot.

Safe driving pays. The Chesapeake and Potomac Telephone Company of Baltimore City has just been awarded a bronze plaque by the Baltimore Safety Council for its high standing in safe driving. Walter R. Hough, general chairman of the Safety Council, presented the winner's plaque to J. W. Talbot, general plant manager of the telephone company, at a meeting held in the Emerson Hotel. Awards were also made to other winners—the O'Brien Laundry Company and the John A. Geis Company—who had the highest records in the next two divisions respectively.

The telephone company listed in the class for 31 vehicles or more, operated its trucks on an average frequency rate of .073 accidents per 100 truck days, as against .102 to .716 for the other 12 companies operating vehicles in this division. During the contest the 75 companies participating operated 1,232 motor vehicles 31,698 truck days.

TRADESMEN AT THE TALKIES

Fruit Dealer—Peach of a play!
Fisherman—Whale of a show!
Printer—Just the type I like!
Plumber—A piping good attraction!
Dentist—It's a wow!
Wild animal Trainer—A howling entertainment!
Street Car Conductor—Fair!
Ford Mechanic—A rattling good presentation!

Italian Death Notices

Death notices in Italy are not always printed by newspapers, but relatives or friends pay for advertisements similar to them on outdoor boards. A prominent man may have a dozen of these with glaring black type.

Eggs Made to Bounce

Eggs are bounced about recklessly at the Empire marketing board's "Parasite Zoo" near Slough, England. Here an egg-bouncing machine, used to detect insect parasites, has been installed. Insect eggs are rolled down a wooden chute and bounced off a tin plate at the bottom. Eggs which have become parasitized have not the bouncing capacity of healthy ones.

Won Fame for Engineers

P. P. Baker and R. C. Dickinson are the engineers who developed the Delon circuit breaker, that opens any high-voltage power circuit in a fraction of a second. Their paper describing the device won first prize at a meeting of the American Institute of Electrical Engineers.

THE BRIDGE BUILDER

An old man, traveling a lone highway,
Came at the evening, cold and gray,
To a chasm deep and wide.
The old man crossed in the twilight dim,
For the sullen stream held no fears for him;
But he turned when he reached the other side,
And builded a bridge to span the tide.
"Old man," cried a fellow pilgrim near,
"You are wasting your strength with building here;
Your journey will end with the ending day
And you never again will pass this way;
You have crossed the chasm deep and wide,
Why build you a bridge at eventide"
And the builder raised his old, gray head—
"Good friend, on the path I have come," he said,
"There followeth after me today
A youth whose feet will pass this way.
This stream which has been as naught to me,
To that fair-haired boy may a pitfall be;
He too, must cross in the twilight dim—
Good friend, I am building this bridge for him"
—Will Allen Dromgoole.

THIRD ANNUAL SAVE A LIFE CAMPAIGN OPENS

November 1st to 30th Dates Announced by Commissioner Baughman

GOV. RITCHIE ISSUES PROCLAMATION

"In an effort to reduce automobile accidents and eliminate loss of life, caused by motor vehicles in Maryland, the third annual SAVE-A-LIFE CAMPAIGN will be conducted from November 1st to November 30th, 1930, inclusive," it was announced by Commissioner of Motor Vehicles E. Austin Baughman.

Many requests all over the State have been received by the department asking this department to stage another "SAVE-A-LIFE" Campaign, in an effort to make for safer driving upon the Maryland highways. During this period the provisions of Chapter 259, of the Acts of the General Assembly of 1929, authorizes the Commissioner of Motor Vehicles to require an inspection of the safety factors of all automobiles. This provision will be put into effect during the month of November.

The campaign is made official for the State by the issuance of a proclamation by Governor Albert C. Ritchie. This proclamation calls upon all municipal authorities, the press, schools, motor organizations, civic and commercial bodies to co-operate in the "SAVE-A-LIFE" Campaign.

The purpose of the Campaign is not only directed against the faulty mechanism of automobiles, but also takes into consideration the human element which after all, is responible for a great number of the automobile accidents. It is felt that these campaigns go a long way to awaken the consciousness of the public for safety, and the Campaign in reality is also an educational one.

Commissioner Baughman stated that it is felt that if ten or fifteen minutes of time can be obtained from the average motorist as his contribution towards this worthy SAVE-A-LIFE Campaign, it will go a long way towards reaching that human element. We get ten or fifteen minutes of the motorists time that he takes to go into one of the official inspection stations to have his car inspected, and after his car is found to be safe, or put in a safe condition, and as long as the little sticker is on the windshield after that few minutes of time, it is a constant reminder to him to be careful and considerate of other people's rights.

Service stations and garages in every community of the State will be appointed to serve as Official Inspection Stations from November 1st to November 30th, inclusive. During this period every motor vehicle owner in Maryland is requested to drive or send his car or truck to one of these official stations to be examined regarding its safety factors.
