Great Democratic year.

Judge Thomas J. Keating, of the Circuit Court for Queen Anne's county, who has been ill for the past several months, was sufficiently improved to return to his home in Centreville Monday night, and Tuesday morning cast his vote in the election. He was accompanied home by Mrs. Keating, and Miss Parker Keating, and by his brother. Dr. Frank W. Keating, with whom he has been spending sometime in Baltimore county, in the hope of regaining his health.

DEVELOPING WATER

Chestertown hopes to have plenty of water. The town has been fortunate in having such a splendid supply during the drought and the superintendent has managed the affair wisely.

An 30-foot artesian well being completed by the Kelley Well Company of Nebraska for the Water Board was put through a 48-hour test and at present is showing a capacity of 800 gallons of water per minute.

It is hoped that this will be increased to 500 gallons as the well clears. The well is located within a few years of the pump house and is to be equipped with a 10-inch cement encasement. When the well is put into service with the 12 wells now in use the town it is hoped to have a daily water supply of more than 700 gallons per minute, which will be ample in any emergency.

What Voters Did In Tuesday's Election

Upset Republican control of House of Representatives, probably giving Democrats one marjority.

Wiped out Republican majority of sixteen in Senate, bringing political complexion of that body to tie.

Approved in three states, Massachusetts, Rhode Island and Illinois, referenda calling for repeal of Eighteenth Amendment and State Volstead acts.

Elected Democratic Senator and Governor in Massachusetts.

Close Democartic Governor in Connecticut for first time in decade.

Returned Franklin D. Roosevelt, Democrat, to Governorship of New York by unprecedented majority of 725,000.

Sent Dwight W. Morrow, Republican, repealist, to Senate.

Elected Gifford D. Pinchot, Republican, dry, Governor of Pennsylvania, despite wet opposition and bolt in own party.

Gave Albert C. Ritchic record-breaking majority as fourth term Governor of Maryland.

Broke last hold of Anti-Smith Democrats in South by electing Bailey, Democrat, to Senate in North Carolina and defeating Heflin for Senate in Alabama.

Elected Democratic Senate and Governoo in Ohio.

Swept James Hamilton Lewis,Democratic wet, into Senate by more than 600,000 plurality over Mrs. Ruth Hanna McCormick.

Elected Democratic Senator in Minnesota for first time in history.

Named Democratic Senate in South Dakota and Democratic Governor in Idaho.

Returned Thomas J. Walsh, dry Democrat, to Senate from Montana.

Reelected George W. Norris, Insurgent Republican, to Senate from Nebraska.

Defeated Henry J. Allen, Hoover spokesman, for Senate in Kansas.

Sent the blind Thomas P. Gore, Democrat, back to Senate after absence of ten years.

Defeated Reese, Republican, only Representative for whom Hoover personally appealed, for Congress in Tennesse.

Cut majority of Speaker Nicholas Longworth, Ohio, to mere 3,101 votes.

Returns Representative Hawley, cahirman of Ways and Means Committee, to House from Oregon by narrow margin.

More than one hundred requests to close the hunting season because of the fire hazard in the tinder-dry woodlands have been received in the last thirty days by E. LeCompte, State game warden.

Explaining the Maryland laws did not empower him to close the season, the game warden said he had written Governor Ritchie, suggesting that the Executive issue a proclamation urging hunters to be extremely cautious with matches and cigarettes.

By a vote of 27 to 10 the qualified voters of the town of Crumpton voted to incorporate the town, which will be done by an act of the Legislature at the session beginning next January.

China is a funny country. Over there the ones who are not on the government pay rolls are called

Lewis' Victory Notable

Most notable of all the victories Tuesday was that of David J. Lewis, Democrat, who repeated his past three performances of obtaining a majority in the strongly intrenched Republican Western Maryland Sixth Congressional district. Mr. Lewis was elected by a safe majority.

The Democratic candidates for Congress in the five other Maryland districts also were elected. When these successful candidates assume their seats in Congress next March 4 it will be the first time in a generation that the Maryland delegation in the House of Representatives has been wholly Democratic.

The same counties, etc., gave other State candidates these votes: Gordy, Dem., 250,803; Jackson, Rep., 174,110; Lane, Dem., 255,250; Robb, Rep., 172,396; Young, Dem., 248,783; Warner, Rep., 170,566.

Governor Ritchie did better in Baltimore city than anyone had anticipated. At the same time his failure to attract greater support in the counties also caused surprise. In 588 out of 636 county precincts the Governor's majority was only 479.

Saturday marked the opening of the season for duck shooting in Maryland, and in many blinds along the shores of Chesapeake Bay, Eastern Bay, Chester and Wye Rivers, in Queen Anne's county, sportsmen took advantage of the first day. On Kent Island a number of well-to-do sportsmen were there for the first day's shoot. One of the finest ducking grounds is at Turkey Point on Kent Island, owned by the Turkey Point Ducking Club, composed of Dr. Merritt Brice, of Millington, Dr. C. H. Metcalfe and State Senator Dudley G. Roe, of Sudlersville; Paul Comegys, of Millington, C. Browne Metcalfe and James B. Metcalfe, of Chestertown. No large bags were reported from the first day's shooting.

James Adams Floating Theatre, which each year draws a large crowd as it goes on its annual trip down the bay and Chester River, stopping at a landing place near the larger towns has just completed an engagement of one week at Chestertown. The James Adams Company has been coming to the Chester River with its shows for the past 20 years. It left here for an 8 weeks engagement in Washington, D. C.

As if it weren't enough to have the city air soiled with soot and grime, one of the European police radio stations is broadcasting fingerprints.

Michael is rather a good looking kid, and after examining the pictures of King Carol, it becomes evident that he inherited wholly from his mother.

OCTOBER RECORD OF HOG CHOLERA

The disease was reported to exist on thirty-three premises during the month of October against fifty a year ago, and an eleven year average of one hundred thirty-five for October. Seventeen were classed as backyard outbreaks, while sixteen occurred on farms where hogs are bred and raised. All thirty-three were classed as primary, or new outbreaks.

Somerset county, with less than 2 per cent of the hogs in the State, was again in the band wagon at the head of the procession, for the third successive month. This time with ten outbreaks. Prince Georges county had a sufficient number of garbage feeding plants in action to get second place with four cases of the disease. Worcester county was in third place with three outbreaks. Baltimore, Calvert, Dorchester, Frederick, St. Marys and Wicomico counties were in a huddle with two apiece, while Anne Arundel, Carroll, Montgomery and Queen Anne's each got in the limelight with one marker.

All thirty-three of the outbreaks were apparently due to feeding bones, rinds or scraps of infected pork in garbage, table scraps, kitchen swill, etc., etc.

On the premises were hog cholera was reported to exist during the month, there were six hundred thirty-seven hogs when the disease appeared. One hundred one were dead, and ninety-five visibly sick before the cases were reported. Three hundred ninety-one, or 61 per cent of the hogs involved, were in garbage feeding plants.

Thirty-three outbreaks are the smallest number reported in Maryland for the month of October since the records were started in 1919.

One hundred seventy-two outbreaks have been reported in Maryland since January 1st, against two hundred sixty-six for the same period in 1929, and an eleven year average of four hundred forty-seven for the first nine months of the calendar year.

Reports have been received to the effect that hog cholera is appearing in several Western States in a more virulent form than last year, and the infection is being spread rapidly. This will mean that an increased amount of infected pork will enter the channels of trade this fall. Better be careful what the hogs are fed, or ours may be missing when the time comes to manufacture them into hams, bacon, sausage and other good eats.
