GO TO COLLEGE YOUNG FOLKS

By PRESIDENT A. N. WARD,
Western Maryland College.

High school graduates are confronted with a serious situation as they now look towards college. Financial conditions throughout the country are not good, and many a worthy boy or girl hesitates in making a decision concerning going to college this fall.

There are about a million students in the colleges of this country. Suppose there should be a decrease of twenty-five per cent in the enrollment of American colleges for the coming year, caused by the financial depression. This would mean that two hundred and fifty thousand men and women would be added to the great host of people seeking employment, thereby making the unemployment situation all the worse.

Boys and girls of college capacity ought not to let the financial situation keep them out of college. There is plenty of money in the country, and students can borrow at fairly cheap rates. The next few years should be spent in getting an education; and then with the return of good times, which will surely come, these students will be ready to take advantage of the opportunities which will be open to the best equipped and best qualified young men and young women. My advice to young people, who may be tempted to cut out college, is that they should seriously consider this matter before coming to a final decision. A college education will open doors of usefulness and opportunity for men and women which will be shut against those who do not have it.

A college education is becoming more and more necessary as life becomes more and more complex. High school graduates of the class of 1930 cannot spend the next four years to better advantage than by spending them in college. My advice to young people of ability and ambition is—"Go to College." Spend the next four years in preparation for the vast opportunities which will be presented to the young men and young women of the generation coming on. Don't let the hard times, which will last only temporarily, keep you out of that preparation for life which can be best secured in a liberal arts college.

UPLAND GAME SEASON OPENS

The season for upland game will open September 1, E. Lee LeCompete State Game Warden, said Thursday.

Rail birds may be hunted until November 30th, but there is no open season at any time for reed birds, Mr. LeCompte. says, squirrels and dove may be hunted until September 30, inclusive. The season for this game is closed, however, from October 1 to November 9, inclusive, but opens again November 10 to December 31, inclusive.

Federal regulations provide open season for dove, September 1 to December 15, Mr. LeCompte explained, but the State law supersedes Federal regulations between October 1st and November 9, inclusive, and the Federal regulations supersede the State law between December 15 and 31, inculsive.

The law covering upland game season, according to Mr. LeCompete, is State wide in effect.

The open season for woodcock, English ringnecked peasant, ruffed grouse, wild turkey and partridge (quail) is November 10 to December 31, inclusive, the warden said.

It is unlawful to set any traps (except box traps for rabbits) net or snare of an description for the purpose of taking game, except fur-bearing animals. It is unlawful to hunt, pursue, catch, kill, trap or shoot or attempt to do so during any closed season as provided by law. No game except wild fowl may be hunted when the ground is covered with snow.

Night Coughing Quickly Relieved

This Doctor's Prescription Gives Quicker, Better Relief.

Don't suffer the pain and discomfort of sore throat. Use a doctor's prescription called Thoxine guaranteed to relieve with the very first swallow. Gargles and salves are too slow and if they do relieve, it is usually only temporary.

Thoxine has a double action—it relieves the soreness and goes direct to the internal cause. It contains no harmful drugs and is safe and pleasant for the whole family. There is nothing better to stop coughing due to irritated throats. Just ask for Thoxine, put up ready for use in 35c., 60c. and $1.00 bottles. Money back if not relieved. Sold by Toulson's and all other good drug stores. advt.

INEXPERIENCE AND IN COMPETENCY CAUSE ACCIDENTS

The campaign to reduce automobile accidents, started by President Hoover, and supported by the casualty insurance industry and other pirvate and public organizations, can achieve its object only with the aid of two things—public interest and co-operation and modernization of our traffic laws.

So long as the inexperienced or incompetent are allowed to drive automobiles, accidents will continue to rise. So long as our traffic regulations are inadequate and unenforced, we will be powerless to cope with the problem. Too many drivers regard traffic laws as something to be evaded. Not enough of them are interested in having their officials change outmoded law in favor of codes that are adequate to deal with our modern congested, high-speed traffic.

In the words of President Hoover, "There has been much effort to better traffic conditions but the accident rate, nevertheless, continues to rise because the increasing volume of traffic outruns our efforts." In the past ten years millions of new cars, capable of great speeds, have appeared on the highways, while our regulatory machinery has remained practically unchanged.

If the present trend continues, automobile accidents will soon cost us a billion dollars a year and will take 35,000 or more lives annually. That is a terrible price to pay for our laxity or ignorance in handling traffic. A united, active public consciousness is necessary to reduce the increasing toll of death and injuries.

Trust men and they will be true to you; treat them gently, and they will show themselves great.—Emerson.

"You say that you made $10,000 out of the stock market?"

"Yes, by taking expert advice and staying out!"

Cop—What do you mean by loitering near a jeweler's window, and with a brick in your pocket?

Sap—I promised to meet a friend here and go to his home to help drown a cat.

Kenneth—Clare claims that she has "It" but confesses that it "don't do her no good."

Jack—No—the kind of "it" she has is hal-it-osis.

Mrs. Sweet—My husband bought me a new car today.

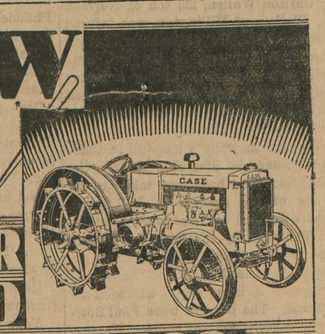

Mrs. Bleat—For crying out loud-

Mrs. Sweet—No, for sobbing silently and reproachfully.

With time and patience the mulberry leaf becomes satin.—Chinese Proverb.

NEW

POWER
SPEED
USEFULNESS

WE have seen many tractors in our experience, but never before anything that comes even close to approaching the new Case Model "C" Tractor.

Here you have every advantage to make tractor farming still more profitable. You have power to pull 2-3 plow bottoms, a small to medium size thresher with all attachments, or other machines of like capacity. You have compactness and light weight. The tractor stands only 48 inches high, weighs but a trifle more than two draft horses. You have three forward speeds, 2⅛, 3⅛ and 4½ miles an hour.

Because of these advantages, there is practically no limit to the versatility of the Model "C". You can use it for more different kinds of work—more days in the year. You can take it into the field when a heavier machine would be useless. You can speed up every farm operation. Not least in importance, you can get into corners and tight places, because the tractor turns short and with far more ease than is customary.

Est. 1842

Never before have you been able to get a tractor with this combination of power, light weight, size, speed and ease of handling. By all means, come in and look it over.

Plows, Harrows and many other tillage tools.

2 CENTS A POUND

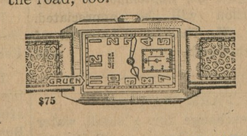

FAIR VERDICT

Judge: And explain, if you can, how you happened to crash into a telephone pole!

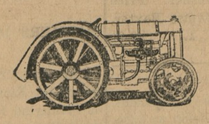

Motorist: Well, your honor, I was trying to see what time it was . . .

Judge: That's no excuse! If you'd had a Gruen strap watch on your wrist, you could have kept your eyes on the time and the road, too.

Let a Fordson be your farm-hand this Fall

DEPENDABLE farm-hands getting scarcer and scarcer every year. Better and better farming necessary in order to make the early markets and higher prices. Cope with these changes in farming conditions with a Fordson Agricultural Tractor.

Its engine has ample power. A high-tension magneto makes starting easy. Still other features insure efficiency, economy and ease of control.

With a new Fordson, you yourself can do the work that formerly required the help of at least one and often two farm hands. You can do it quicker and better Let a Fordson be your helper this Fall. Come in and see the Fordson Agricultural Tractor.

Flexible Capacity
Ten to thirty tons in 60 minutes

THAT'S the wide range of work output you get with this Case Silo Filler.

You can run it with whatever power you have available, whether it is a ten horse power engine or a large tractor. In either case, the machine makes efficient use of all the power.

You can put on enough teams to keep three men busy throwing on the corn, and finish the job in a hurry, or you can cut down the number of wagons and men to suit your needs.

Here's how the cutting mechanism works:

1. Two notched and grooved feed rolls and a ribbed shear plate firmly hold the material for the cutting knives. The plate has a specially chilled cutting edge.
2. The Case has four knives, mounted on an unbreakable steel disk at the most efficient cutting angle. Cutting is uniform—at a minimum of power.
3. It is easy to grind Case knives accurately because they have a straight cutting edge.
4. No experience is necessary to set and adjust the knives. Anyone can do the job.

We recommend the Case Silo Filler—let us tell you more about it.
