MORE BELIEVERS THAN HAVE PEWS

If everybody who believes in Christianity went to church there would not be half enough churches.

If those who practice it attend Sunday's services they would be compelled to go early to get a seat and there would be "standing room only" signs at every church door.

Because of our early training the principle of the Golden Rule has been bred unto us. Therefore we consider it a natural condition, pay little attention to it, and as a result imagine church attendance has nothing to do with the blessings we enjoy. As a result, many pews are empty.

We must practice what we say we believe. Belonging to a political party and not voting is the same as believing in Christianity and never going to church. The country can not run itself. Neither can the church. Good citizens must do their share for both.

Sunday is a good time to begin doing what we have so long neglected to do. We believe in Christiainty. Why not show others by our acts that we hold that belief —Reading (Pa.) "Eagle."

OUR INVISIBLE RULER

Lest we become too proud of ourselves, let us reflect just a moment and consider how puny we really are.

Man has made many advances. He has flown the oceans, built instruments that will carry the human voice around the world, probed the mysteries of the stars, made machines that will do the work of a million slaves and accomplished many other things.

But we are still powerless in the face of a far greater power.

Italy's great earthquake, dealing widespread death and destruction, demonstrates that in the hands of the forces of nature we are as helpless as children, despite all the glorious advances that science and education have made. Something utterly beyond our control may rule our fates and our destinies, and possibly our lives.

In the pattern of the universe, our world is a mere speck. When the forces that lie behind it all express themselves we realize then how weak and helpless we really are.

The Important Reason

FATS and oils are not digested like starches or proteins, they must first be emulsified in the body before they can be utilized as nourishment.

SCOTT'S EMULSION

is pure cod-liver oil scientifically *emulsified*—prepared for easy and rapid digestion, just as Nature provides emulsified fat in milk.

This is the important reason why the cod-liver oil you take—should be emulsified—should be Scott's Emulsion.
