LAST FILING DAY FOR PRIMARY

There are several candidates for entry into the Democratic primaries which occur on Monday September 8. To date there are 22 candidates who have announced so far for offices. The last day on which candidates may file their nomination papers and pay the fee is August 19th.

Papers properly made out, accompanied by the fee, must be filed with president of the Board of Election Supervisors, on or before that day. Those who do not comply with the law will not be allowed to have their names printed on the ballot.

There are six candidates for County Commissioner, and as there are to be three nominated, three of the candidates must necessarily be disappointed.

For County Treasurer there are three candidates and only one to be nominated. For Sheriff there arefive.

There will be a preliminary day of registration before the primary. The ballots will have to be printed some days before the primary and all the arrangements just the same as in a general election will have to be made.

HEAT WAVE KILLING THOUSANDS OF FISH

Any envy which may be felt by sweltering humans for the fish who spend the long days of heat and drought in cool-looking streams and lakes is misplaced, for the finny ones are dying by thousands.

Low water levels and rising temperatures have decimated game fish in n---bers approaching a national disaste- and the United States Bureau of Fisheries fears the brood it is raising at many hatcheries will be doomed to extinguish unless relief occurs soon.

Lewis Radclyffe, deputy commissioner of the bureau, said that the situation is so acute at one hatchery in West Virginia that transfer of the fish to a cooler spot is planned in order to save some of them.

The total damage is uncountable, he said, but it will show up for years to come all over the country. Trout have been the worst sufferers, as they must have cold water to live and drying springs have sent up the temperatures of their streams.

Many other species have suffered as lake levels fell. Fish of the coastal rivers have been affected by sea water which has hade its way inland for record distances. Crabs, Radclyffe pointed out, now are being caught in commercial quantities on the Potomac River 20 miles from Washington. The river virtually has turned into an arm of the sea.

He who laughs last is probably trying to be polite to the person who told the story.

Fresh Air Children Returns Home

On Tuesday, August 5th, the Fresh Air Children from the Tribune Fresh Air Organization of New York bade farewell to their hosts and hostesses in Kent County and took the 2.23 P. M. train for New York under the care of an escort who arrived the night before.

Eleven children out of the thirteen who came, completed the two weeks vacation. Had time permitted, many of the families who entertained the little people would have been willing to have kept them for a longer period.

The Kent countians who took the youngsters not only opened their homes but also their hearts. The children belonging to the families made the little visitors one of themselves and between water sports, motoring an everyday farm life the city children enjoyed every minute.

The active members of the committee which was appointed to find homes and carry out instructions for placing and returning the children in Kent were Mrs. Thomas Massey, chairman; Mrs. Nell C. Westcott, secretary, and Mrs. Owen Selby, Rock Hall, through the efforts of Mrs. Selby, took a greater number of the children than any other section of the county.

Kent has begun its Fresh Air work in a small way but with such excellent results that the committee believes the work will grow from year to year.

Delmonte—My wife is prolonging her visit. I need her at home, but it seems useless to write suggesting that she return.

Melachrino—Get one of the neighbors to suggest it, my boy.

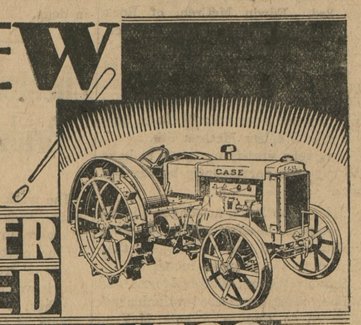

Ten nights in a barroom were as nothing compared with a few hours in a speakeasy.

They are slaves who dare not be in the right with two o rthree—James Russell Lowell.

Worry is the interest we pay on trouble before it is due.

Opportunity might be more easily recognized if it didn't so often come disguised as hard work.

NEW

POWER SPEED USEFULNESS

WE have seen many tractors in our experience, but never before anything that comes even close to approaching the new Case Model "C" Tractor.

Here you have every advantage to make tractor farming still more profitable. You have power to pull 2-3 plow bottoms, a small to medium size thresher with all attachments, or other machines of like capacity. You have compactness and light weight. The tractor stands only 48 inches high, weighs but a trifle more than two draft horses. You have three forward speeds, 2⅛, 3⅛ and 4½ miles an hour.

Because of these advantages, there is practically no limit to the versatility of the Model "C". You can use it for more different kinds of work—more days in the year. You can take it into the field when a heavier machine would be useless. You can speed up every farm operation. Not least in importance, you can get into corners and tight places, because the tractor turns short and with far more ease than is customary.

Est. 1842 J. I. CASE

Never before have you been able to get a tractor with this combination of power, light weight, size, speed and ease of handling. By all means, come in and look it over.

Plows, Harrows and many other tillage tools.

NOTICE

To the Citizens of Kent County

The Board of Election Supervisors wish to announce to all citizens of Kent County two (2) important changes in the Election Laws:

(1) The Declaration of Intention Act having been amended so that it is not necessary for prospective voters to go before either the Clerk of the Circuit Court at Chestertown or the Registrars of the different Districts to make known their intentions but may make application to the Board of Election Supervisors for the proper blanks which, when properly filled out and presented to the Registrars of the District and Precinct in which they reside their names will be placed on the Registration Books of that District or Precinct.

(2) The Certificate of Removal which heretofore was necessary to procure from the Registrars of the different Counties and District on Registration Days, must now be procured from the Board of Election Supervisors by mail, before Registration Days. The necessary blanks and instructions will be mailed promptly to all applicants.

C. FRANK CROW,
J. HYDIE THOMPSON,
THOMAS W. TREW,
Supervisors of Elections.

R. HYNSON ROGERS, Counsel.

WM. O. B. KNIGHT, Clerk.

CHEVROLET ANNOUNCES

DE LUXE WIRE WHEELS

at no extra cost

Chevrolet again adds extra value to the Chevrolet Six! Those who prefer may now have any passenger model equipped with beautiful de luxe wire wheels—*at no additional cost!*

Designed especially for Chevrolet, these wheels incorporate many important features that have won favor on cars much higher in price.

The ornamental hub caps are unusually large, and are finished in sparkling chromium plate. The bolts that hold the wheel in place are located *inside* the hub—thus assuring a smarter, more clean-cut appearance. The spokes are short and sturdy—the wheel construction is extremely rugged. Moreover, there is an unusually *large number of spokes*—for extra strength and durability!

A variety of attractive new colors

In addition to this de luxe wire wheel equipment, Chevrolet now makes available a wide choice of new color combinations on all models—colors that are rich and distinctive.

You are invited to come in—NOW—and attend the first showing of six-cylinder Chevrolet models with these striking new colors and wire wheels.
