TRIPS FOR SUMMER

Announcement of increased passenger service from Baltimore, for the summer months, has been made by the Mercnants and Miners Transportation Co. Sailings to Boston will be made Tuesday, Friday and Sunday instead of twice a week as in past, and two of the company's new, large ships will maintain the service. These increases are made necessary by the growing popularity of the summer ocean trips offered by this Company.

The Merchants and Miners Line has made considerable reduction in fares to Jacksonville and Miami in order to encourage southbound travel for the summer months. Officials of the company point out that the southbound sea trips are cool and invigorating throughout the summer. With these reduced fares, it is now possible to take twenty-one hundred mile round trip, from Baltimore touching at Miami, for $70, incluidng meals and stateroom accommodations.

The all expense tour feature of the summer service of the Merchants and Miners Transportation Co. has been much elaborated on for the coming summer. Many new tours have been added to the standard list, and so great has been the demand for tour accommodations on the Company's ships in the past couple of seasons, that the Merchants and Miners Line has decided to place an additional steamer in the Norfolk-Boston service this season. There will also be increased facilities on the line from Philadelphia to Boston, the new "S. S. Berkshire" having been added to the facilities of the new Allegany, with sailings every Tuesday, Thursday and Saturday. The all-expense tours this season from Baltimore will include visits to Cape Cod, White Mountains, Quebeck, Montreal, Lake Champlain, Lake George, Niagara Falls, Florida and Havana.

All of the Merchants and Miners tours include a sea trip, and some of the tours return via New York City.
