After midnight, when the appointments were still unavoidably delayed, Dr. Smith announced that the appointments would not be read until Tuesday morning.

SANITATION SAVES PIGS

One troublesome parasite which "Stunts" and retards pigs is "round worm." It causes great loss in pig raising. Treatment will relieve infested animals but the best cure is "prevention." This may be done with sanitation measures worked out and tested with much success. The sanitation plan is known as "The McLean County System," since its merit was demonstrated in this Illinois Cornbelt County where worm troubles were excessive. Ask the Extension Service for details. It is fortunate that this efficient system goes hand in hand with the most economical method of hog raising, namely, on green grazing crops.

Success in this sanitation plan was the source of the similar plan used so effectively and so commonly by modern turkey and chick raisers.

Milktoast—I thought you told me that MacDonald had gallstones. He was out yesterday all dressed up and flashing several large diamonds.

Butterscotch — Well, if he didn't get the stones through his gall, I don't know MacDonald.

New Schedule For Church Masses

Following is the schedule of masses in the Catholic Churches of the Diocese of Wilmington, outside of the city of Wilmington for the summer:

Chestertown or Rock Hall, 8 A. M.

Betterton, 11.00 A. M.

Galena, 7 and 9.30 P. M.

Middletown, 9 A. M.

Church Hill, fourth Sunday, 9.30 A. M.

The time is standard except where indicated.

Dr. S. S. Hepbron occupied the pulpit in Emmanuel Church, Chestertown, in the absence of Rev. C. L. Atwater. He preached a practical sermon on life dividing his theme into three divisions, vis., From whence came you, What are you and where are you going. He referred in a most delightful manner to the holy men who had served the people of this church among them being Rev. Mr. Wilmer, Rev. Dr. Roberts and others.

"Janitor, you could cool our apartment nicely if you would run ice water through the radiators."

"Can't be done, ma'am."

"What did you have in them last winter?"

The Modern Funeral

The methods and systems in vogue a few years ago, and still adhered to by many, are no longer applicable. In this age and generation a better understanding of the duties of the funeral director has changed the old order. One of the most difficult problems confronting the modern funeral director will be solved when the public realizes that SERVICE is the principal, and in fact, only commodity which we have to offer.

The casket and funeral appurtenances are negligible, or practically so, requiring little or no expense and, in the matter of expense, consist only with the costs of production.

Service is the main consideration—the care and disposition of the body of the one that has passed on. Knowledge and ability and a readiness to relieve the burden of those who are left to mourn.
