SATURDAY, APRIL 12, 1930

The Kent County Department of Home Economics, of which Miss Helen L. Schellinger is director, has elected the following officers:

President, Mrs. Walter T. Morris; vice-presidents, Mrs. Linwood A.Sutton, Chestertown, and Mrs. William Medders, Still Pond; secretary, Mrs. Elmer Thomas, Rock Hall; treasurer, Mrs. Geo. Cooper; delegates-at-large to State Convention, Mrs. Hugh H. Hartman, Mrs. John White and Mrs. Harold M. Baker.

The sale of seeds this spring is beating all records. Evidently the Wall Street crash is driving people back to the land.

About the only thing left to do with Chicago is to give it back to the Indians and apologize to them—for the condition it is in.

Announcement has been made of the appointment of Robert J. Nicholson as executive secretary of the Radio Trade Association. His appointment becomes effective immediately with offices in the North Avenue Market Building.

Mr. Nicholson has been identified with the radio business for four years and in 1927 was president of the then-existing Radio Board of Trade. In March, 1929, the Radio Association was formed and Mr. Nicholson headed that organization.

The appointment of a full-time executive secretary is in line with the association's plans to improve broadcast conditions for Baltimore. The organization is now sponsoring a campaign to have an outlet in the city for the red chain programs of the National Broadcasting Company.

Mr. Nicholson is a son of Bert Nicholson and a grandson of Robert G. Nicholson, of near Chestertown.

Kent Hospital To Close June 30th

The small four-room hospital which has been in operation since September 1928 will be closed when the lease expires on June 30. The Kent County Public Health Association started the small plant for the purpose of taking care of the great number of children with diseased tonsils. Now that the larger general hospital will shortly be under construction the Association feels that the small plant has served its purpose and may therefore be closed in order that the Association may turn its time and attention to other pressing projects in health work. Over 200 operations were performed by Baltimore and Kent surgeons during the short life of the hospital. Many charity cases were cared for and in all cases a minimum charge was made which enabled the family of average means to take advantage of the service.

The Health Association is planning a Bake to be held at the Health Center on Saturday, April 19.

The annual election of officers will be held on May 13 at the Health Center.

Work on the new and larger quarters for the local and State health work is progressing rapidly.

Incredible -- But True

One person in a hundred won't know what this girl is holding. It's a section of underground telephone cable, and there are 3,636 wires in it. Sounds incredible? The telephone company says it's correct and the girl in the picture is Miss Grace Sahm, an employee of the company's information department in Washington.

This is the largest cable made. It is capable of providing for telephone conversations between 3,636 people at one time. The circuits in such a cable are equivalent to 72 pole lines, each carrying 50 wires.

Measuring the Great

It is not by his faults but by his excellences that we must measure a great man.—George Henry Lewes.

Piety and Enjoyment

Piety, wrote Carlyle, does not mean that a man should make a sour face about things, and refuse to enjoy in moderation what the Maker has given.
