OF the nine Eastern Shore counties Queen Anne's is the only one not to report outbreaks of hog cholera during November, according to Mark Welsh, inspector in charge of hog cholera work for the Maryland State Board of Agriculture.

Four outbreaks were discovered in Kent county in this vicinity it is revealed while Dorchester and Worcester reported eight each. In Caroline there were seven; Cecil, five; Talbot, three; Wicomico, two and Somerset one.

W. C. T. U. HOLD FINE MEETINGS

Report of the First of Twenty-five Regional Conferences to be held before April next by the National W. C. T. U. These conferences are being substituted for the National Convention for 1932.

Officers and delegates of the Woman's Christian Temperance Union have returned to their homes after attending the four-day regional conference of the National Woman's Christian Temperance Union at Washington, D. C., and after having presented to President Hoover the signatures of a million twelve hundred thousand young people between the ages of 14 and 30, affirming their loyalty to the 19th amendment and their decision to abstain from intoxicating liquors. The conference, the first of a series of twenty-five to be held throughout the country, was attended by prominent W. C. T. U. women from thirty-six States. As a result of the deliberations the organization adopted a plan to organize the dry vote at the coming elections and declared for dry planks and dry candidates in State and National elections.

On the subject of resubmission of the 18th amendment, the organization agreed on complete opposition to the proposal, and agreed with Sen. Morris Sheppard, of Texas, "father of the 18th amendment" that prohibition has not had a fair trial. Mrs. Ella A. Goole, President of the Nationa W. C. T. U., pointed out that resubmission would open the way for repeal; and listed some of the benefits of national prohibition even imperfectly enforced. These were repeated in the findings of the conference, which declared that the chief benefit of the 18th amendment was to make liquor illegal:

"It has lessened the consumption of liquor; it has lessened drunkenness; it has lessened poverty from drink; it has lessened crime from drink; it has lessened the turnover in employment due to drink."

Discussing the situation at present, the Vice-President of the National W. C. T. U., Mrs. Ida B. Wise, of Des Moines, Iowa, said:

"The prohibition fight is a political contest between city and country. We could give the city the liquor traffic and win out, even with that handicap but we will not concede one inch of territory."

Mrs. Smith advised the conference that neither party should take its advice from the political organizations of New York and Chicago and that "It is high time the American voter choose his political leadership from the average American home."

Another prominent W. C. T. U. leader, Mrs. D. Leigh Colvin, President of the New York W. C. T. U., explained that in the legislatures of forty-four States which met this year, not a single line of prohibition law was repealed despite the efforts of wet legislators; and that wherever the drys asked for further legislation it was enacted.

John A. McSparran, secretary of agriculture for the State of Pennsylvania, ridicuted the idea that the farm situation would be aided by the re-legalization of beer. Mrs. Nelle Burger, of Springfield, Mo., assistnat recording secretary gave a detailed explanation of "why we should nominate dry candidates for president and vice president" on both party platforms. Her chief reasons were that prohibition is the law of the land; and that no party administration has the right to hamper enforcement.

At a banquet Saturday evening, at least a hundred members of congress and their wives were present. Secretary Wilbur of the Department of Interior and Joy Elmer Morgan, Editor of the National Education Association's magazine delivered the principal addresses; and the conference closed Monday with the placing of a wreath at the foot of the statute of Frances Willard at the Capitol.

10,000 ACRES REFUGE

In Dorchester county, in that squashy, marshy section known as the blackwater zone 10,000 acres will be set aside as a wild fowl refuge.

The blackwater land is the most important breeding area for migratory wild fowl south of Labrador, according to Dr. Oliver L. Austin, Jr., who is ornithologist for the Nova Scotian Biological Survey. The acreage will be purchased with funds made available by Congress two years ago, E. Lee LeCompte, State Game Warden, said.

5,355 PAPERS ADVERTISE AUTO

Featuring the most comprehensive announcement program ever used by the Chevrolet Motor Company, 5,355 leading daily and weekly newspapers in the United States introduced the new 1932 Chevrolet Six last week.

In addition to newspapers, the program provided for the use of radio, poster panels, phonograph records, canvas banners, dealer window displays, and several other media.

First news of the new Chevrolet was flashed in teaser manner by 25,000posters in towns of 15,000 population and over. The posters, with a total length of 118 miles, comprised a showing 50 per cent larger than any manufacturer in any business has ever staged. The posters were paneled on November 28, and for one week their message was "Keep Your Ey on Chevrolet."

The next news of the new Chevrolet came over the air. On the night of November 29, the company began a week of spot broadcasting over 168 stations. "Keep Your Eye on Chevrolet" was the theme of the radio program.

On November 29, also, Chevrolet dealers decorated their windows with teaser displays. The material for these displays was a part of 76 tons of promotional matter mailed by the Chevrolet Motor Company. Included in this tonnage were eight square miles of silhouette cardboard, 30 linear miles of canvas banners, and 1,100,000 lapel buttons.

On the morning of December 2nd, teaser phonograph records, bearing nothing more than an address and a date, were delivered by Uncle Sam to 1,280,000 Chevrolet owners in all parts of the country. The message on the record informed them that a new Chevrolet was on the way.

Furthermore radio announcements, of one minute duration, were made over 151 stations on the nights of December 2,3 and 4.

Then, on December 5 the 5,355 newspapers printed the announcement of the new 1932 Chevrolet Six, the 25,000 posters were changed accordinly, and the public was thronging its way to dealers' showrooms.

Of five arrests made on the Eastern Shore during the week for violations of motor laws, two drivers were found guilty of violations in Delaware and their licenses revoked. Two others were convicted of drunken driving with consequent revocations of licenses and one had his license suspended for reckless driving, officer Claude Cubbage said.

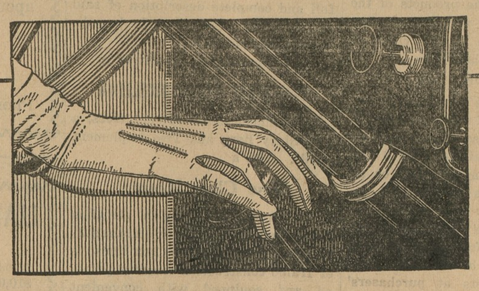

John H. Cohee, of Chester, and Charles W. Coulbourn, of Berlin, violated Delaware motor laws while William Thomas Keetley, of Colora, and Howard Marshall, of Churchville, were shown to be drunken drivers. Percy H. Henry, of Easton, had his license suspended for reckless driving and failure to appear when directed.

KENT NEWS is $1.50 per year.

CHEVROLET

The first and only low-priced car with

Syncro-Mesh Shift and Free Wheeling

ONE of the biggest driving thrills in modern motoring is now available at one of the lowest prices in the automobile market. *Syncro-Mesh is combined with Free Wheeling in the new Chevrolet Six!*

This is the first time that these two outstanding inventions have been brought together in a low-priced automobile. Syncro-Mesh is the most advanced type of transmission ever developed. *Free Wheeling* is that new sensation which adds so much to the zest of driving. The two make a matchless combination! They bring about an entirely new kind of driving ease and car control, far beyond anything you have ever enjoyed. They give you quick, quiet shifting and complete mastery of the car under all driving conditions. They enable you to do things in driving that are impossible without both these features.

If you prefer to drive in "standard" gear, Syncro-Mesh enables you to shift back and forth with uncanny speed, silence and precision. This is particularly desirable when descending steep hills or traveling slippery streets. For it enables you to use the engine as a brake, *instantly*, without slowing down the car.

Then, suppose you want Free Wheeling. Simply press a button on the dash. Thereafter, and until you pull the button out again, you Free Wheel. You coast along with a delightful gliding sensation. And you shift with never-to-be-forgotten ease.

The Free Wheeling mechanism of the new Chevrolet Six is a highly simplified type. Instead of a complicated mechanism with many moving parts, it is a simple, sturdy unit, with only three moving parts.

Then, along with Syncro-Mesh and Free Wheeling, Chevrolet offers you 60-horsepower six-cylinder performance, higher speed, faster acceleration, greater smoothness, smarter Fisher bodies, matchless economy, and a *first cost* that is among the lowest in the market. Certainly it's the great American value for 1932.

The new Chevrolet Six combines the advantages of two inventions . . . Syncro-Mesh and Free Wheeling . . . to assure quick, quiet, easy gear-shifting and positive control of the car under every driving condition
