Registration Notice

AFFECTING CITIZENS MOVING INTO THE COUNTY FROM ANOTHER STATE.

Citizens moving into Kent County from another State and desiring to vote in the elections of 1932 must comply with the Acts of Assembly of 1902, which require that such persons must declare their intention of becoming citizens of the State of Maryland before the Clerk of the Circuit Court one year before the next general election in order to be eligible to register and vote in such election.

The General Assembly of 1929 attempted to repeal this law and enacted a substitute which the Court of Appeals has ruled unconstitutional. The Attorney General of Maryland, by whose opinions this Board is guided, has ruled that the decision of the Court of Appeals has made the Act of 1929 imperative and that it will be necessary for all persons moving into the State to declare his or her intention of becoming a citizen of Maryland before he or she is eligible for registration.

The opinion of the Attorney General in part, is as follows:

In 1902 the Legislature enacted a law requiring every non-resident moving into the State, wishing to vote, to register his intention of becoming a resident before a Clerk of Court one year before an election, in order to register to vote at said election. The Legislature, by Act of 1929, Chapter 578, attempted to repeal said provision ond to provide that a non-resident need not go before the Clerk, but might register upon his own affidavit and that of two voters, before the registration officers, that he had actually resided in the State a year. This new law, however, excepted two counties from its operation and on that account the Court of Appeals declared it unconstitutional (on October 31, 1930, in Bangs vs. Fey, in Md., 548), as the Constitution says that the General Assembly shall provide for a uniform registration of the names of all voters in this State, and the Court of Appeals further declared that the said law of 1902 is therefore still in force.

"It is therefore, clear, under the law as it now stands, that no person who has moved into Maryland from another State is now entitled to registration unless he or she has complied with the above requirements of the law."

Persons who were able to get on the books under the act which was declared unconstitutional must appear before a clerk of the court in Chestertown before November 3 to declare their intentions. Otherwise, they may be placed on the suspect list and their names erased from the books. It would then be too late to file their intention and their right to participate in the Presidential election would be lost.

If we persist in thinking life is futile we're not going to get much out of it except disappointments.—Toledo Blade.

Saving the "Bacon"

The origin of the expression, "to save one's bacon" is probably the care taken in early days to save from the dogs the bacon which was laid up for winter.

"COLUMBUS" by the Chestertown Parent-Teachers organization, Oct. 21, at 3.15 P. M. at the New Lyceum Theatre. It is of interest to know that one of the motives which inspired the creating of these unique films was the desire to promote good citizenship. It is the belief of the Yale University Press, producers of the Chronicles of America Photoplays, that good citizenship is immensely stimulated by a vivid and intelligent interest in the greatness of one's country's past. The Chronicles of America Photoplays embody the high spots, so to speak, in the story of America's achievements, from the Discovery of the New World down to the close of the Civil War.

OF INTEREST TO DOG OWNERS

Persons trailing dogs must have in possession a hunter's license and tag displayed on outer garment between shoulders. Paragraph F of Section 20 of Article 99 provides an owner of a dog or dogs between September 10th and November 9th, inclusive, may be permitted to run or train such dog or dogs on woodcock, pheasant, ruffed grouse, rabbit and partridge (bob-white), provided an attendant accompanies it or them but in doing so, no person shall be allowed or permitted to carry a gun or firearms of any description.

Paragraph B of Section 99 of the Acts of 1931 provides an owner of a dog or dogs between October 1st and October 20th, inclusive, may be permitted to run or train such dog or dogs on raccoon, oppossum, provided an attendant accompanies it or them but in doing so no person shall be allowed or permitted to carry a gun or firearms of any description, climbers or ax; also prohibits shaking or throwing out of any tree or hollow any raccoon or oppossum during said period.

Section 14 of Article 99, Acts of 1927, provides no person or persons shall at any time hunt in any manner any game birds or animals on which there is an open and closed season without first having procured license so to hunt and then only during the respective periods of the year when it shall be lawful to hunt said birds and animals.

The last three paragraphs of Section 2 of Article 99 define the terms "open season," "closed season," and "hunt." Therefore, it is necessary that every person accompanying dogs for the purpose of training them as provided by the acts herein quoted are required to have in possession at the time of said hurting or training, a hunter's license for the fiscal year and the tag displayed on outer garment in compliance with the law. License is required of every person, whether he be the owner of the dogs or not.

Our Deputy Game Wardens have been notified to arrest any person found hunting or training dogs during the period as provided by law, if they do not have hunter's license in possession and tag displayed in compliance with the law.

E. LEE LECOMPTE.
State Game Warden.

Destruction by Hail

The average annual damage done by hail is three or four times that done by tornadoes. The hail losses on ten leading agricultural crops amount to $47,500,000 in an average year.

Named for Originator

The word "Fletcherizing" is derived from the name of Horace Fletcher, who advocated a continued chewing or masticating of food.

"More genuine satisfaction than any car I ever owned"

THE FORD is good-looking. It is safe. Comfortable. Speedy. Reliable. Long-lived. Economical. Everything a good car should be.

There is, too, an added something about it that brings enthusiastic comments from every one who has ever driven a Ford . . . the joy it puts in motoring.

"I have been a car owner continuously for nearly 20 years," writes a motorist connected with a leading university. "During this period I have bought eleven new automobiles. Eight of the eleven were in the middle-price field, one cost three thousand dollars, and the last is a Ford I purchased thirteen months ago.

"In the light of this experience I can say in all sincerity that I have derived more genuine satisfaction from the Ford than any car I ever owned. In saying this, I am thinking in terms of comfort, safety, driving pleasure, ease of control and economy. My next car will also be a Ford because it will give me what I want at a price I can afford to pay."

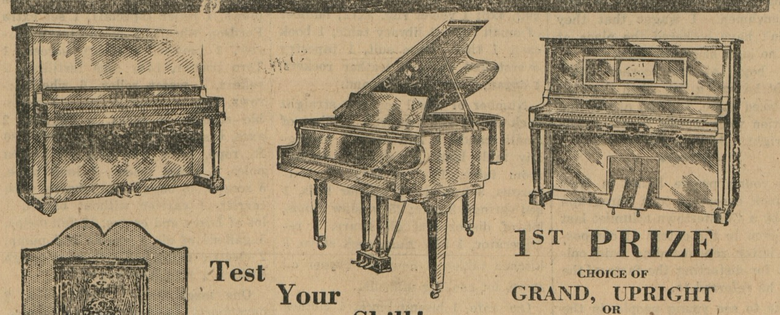

When you get behind the wheel of the Ford and drive it yourself you will know it is a truly remarkable car at a low price. You will like it when you first buy it. You will become more and more enthusiastic the longer you drive it.

After thousands of miles of driving you will say "it's a great car." Its economy will save you many dollars.

CHESTERTOWN HIGH SCHOOL

By RUTH FOX

The Senior girls will not have to make their graduation clothes this year. In fact, neither the Juniors or the Seniors will take any Home Economics this year or in the years to come (we suppose). The same holds true for the boys in Industrial Arts. These two subjects will be given in only the first two years, but will be given three times a week.

Miss Miles, of the P. A. L. will be at the Chestertown High School next Monday to coach two persons each from Galena, Rock Hall and Chestertown to serve as referee for the intra-county field ball games.

DID YOU KNOW THAT:

The fire escape parts have been here for a long time, but have not as yet been put up?

The value of a high school diploma becomes more evident every day. The State of Pennsylvania requires graduation from an accredited High School before an applicant can take the State Board's examination to be an undertaker.

Mr. Blades has such a request for a High School record of a former graduate of this school.

The eligibility list of twenty-five players required by the P. A. L. before the start of the soccer season has been forwarded to Mr. Pitman.

The bowling contest that was held last week at Betterton was a huge success. Parents, teachers and students were all there to share the fun. The highest score was made by Jimmy Owens who touched the top with the score of 147. He received a good looking belt buckle. Evelyn Crew was the winner of the girls. She now has a pretty little compact for her award. Mr. Willis knocked down more tenpins than anyone else on the faculty. His prize was an eversharp pencil.

Miss Gessford is getting the Freshmen together for the Junior League field ball team that will play Rock Hall on October 21. There seems to be some very promising Freshmen for the team.

Mr. Greenwood reports that he still needs a new floor in his room. Mushroms are sprouting between the cracks.

Mr. Blades gave the large desk in the science room to Miss Riches so that she could have a home for the Dragon and The Reflector could have a home.

The boys soccer team will play a return game with Easton Friday.

The tenth grade History Club have been invited by Dr. Dole to join with some educational groups of the community to bring the Yale "Chronicals of America" to Chestertown. The clubs hope that the pictures will be patronized by the entire community, as they are expected to be shown at special matinees at the New Lyceum.

There is going to be another bowling contest at Betterton this Thursday evening. Everbody is invited.

WHAT WILL THE RESULTS BE.

It will be interesting to watch the result of the 1931 Fire Prevention Week just closed.

In other years it has been the general experience that fire loss has fallen during the week and the period immediately following, only to return after that to the usual high level. The type of advice offered by the organizations participating is certainly not at fault. They have shown us that to leave wiring untended, to build below the highest standards, to be careless in the use of tobaccos and inflammables of one kind or another, is to court disaster—and, for a fortnight or so, we have remembered it.

The shortness of our memories is the cause of an annual property waste of about half a billion dollars and a human waste of ten thousand lives. These are the direct results of fire. The indirect results are financially of still greater importance, in waste due to loss of taxes on destroyed property, men thrown out of employment, business activity interrupted. Recently history records the cases of communities whose progress and development has been permanently stopped because of a single great fire.

In the light of all this, it is certainly not too much to say that every citizen should make it his business to learn the lessons of fire prevention and keep them in mind during the entist year.
