A genius is a man who can make his last year's straw hat look like a new one.

If you can't find what you want at home try and see if the home man won't get it for you.

It is a kind provision of nature that the harmless firefly and not the mosquito is equipped with a search light.

The drum makes the most noise, but it is well to remember that the silent baton directs the orchestra.

Poverty is not regarded, fortunately, as a crime. Nevertheless it is punishable by hard labor for life.

BIG CHURCH MERGER MADE

For some time past Chicago has stood before the public as unable to pay many of its current bills due to lack of tax funds. The mayor has stated that he does not know how the city will find its way out of its difficulties.

Without going into the reasons for Chicago's financial troubles, the situation is an object lesson for other municipalities. It proves that too much spending can embarrass an individaul, a city, County, State or Nation.

Chicago has the power of taxation to eventually pull itself out of the hole but even the power to tax can be carried to a point where the people refuse to pay. The disproportionate increase in taxation throughout the nation compared to growth in population and wealth, is a warning to ease up on raids on the public treasury.

Nervous Nell—Dear me, this bedroom is awful high above the street. I do hope you take precautions against fire.

Porter—Oh, yassum, we takes all precosions. De manager's got de plact insured fo' twice what-all it's worth.

Pleasing all the people all the time is like fooling all the people all the time. It can't be done.
