BIBLE SCHOOLS POPULAR

The Sudlersville Group of Churches
The Sudlersville Group of Churches has planed the most ambitious program of vacation schools in the history. Nine vacation schools are to be held. The Cecilton school began June 15th with an attendance of 31. This school holds the distinction of being the first three week school in the Group, all other schools running for only two weeks.
Pre-registrations for the Stevens and Felton Schools have geen complete with 32 and 35 respectively enrolling. Both schools will be held in the afternoons beginning on July 29 and will be in charge of the pastors at Millington and Sudlersville.
A proposal to hold a vacation Bible School at Golt has met with the unanimous approval of pastor, church and plans are being made to open the school the last week in July. Two preaching services are held at this church each month, but no Sunday school.
Other schools to be held this summer are at Millington, Templeville, Marydel, Henderson and Bridgetown.
All schools (except one) and most of the remaining churches in the Group will participate in the Porto Rican project of the World Friendship among Children Committee of the Federal Council of Churches. Gifts expressing our friendship for the children of Porto Rico will be sent in a special chest prepared for the occasion. World Friendship songs and stories will be learned. Each school will bring its chest to Millington on August 8th and take part in a send off service to be held in Asbury Church. The public is invited to this service.

THE Claiborne Annapolis Ferry Company, which operates a ferry across Chesapeake Bay, lost lats Saturday in the District of Columbia Supreme Court its attempt to prevent the Chesapeake Beach Railway Company from locating a rival ferry across the bay nearer to Washington.
A specially constituted tribunal, composed of Justices Groner and Adkins and Chief Justice Wheat, refused to annul a certificate of public convenience and necessity which had been granted by the Interstate Commerce Commission to the Chesapeake Beach Railway Company for the proposed ferry.

What is the effect of modern Ultra Violet Rays upon tobacco? Dr. E. E. Free, one of America's well-known scientists, who was retained by us to study Lucky Strike's manufacturing process, addressing the Illuminating Engineering Society, said:
"The essential effect of the Ultra Violet is the production of better tobacco and of cigarettes regarded by virtually all smokers who have tested them as milder and with a lesser tendency to cause throat irritation."
Here in America LUCKY STRIKE is the only cigarette that employs Ultra Violet Rays in connection with its exclusive "TOASTING" Process—the only cigarette that brings you the benefits of the exclusive "TOASTING" Process which expels certain harsh irritants present in all raw tobaccos.
