Life in Nicaragua is just one rebel after another.

Spanish blood always has had the reputation of being hot, so we suppose it just naturally boiled over.

It looks as if the more parleys they have in Europe the more parlours get.

## EDITING PAPER IS EASY JOB

Editing a paper now is very pleasant business. If it contains too much political matter, people won't have it.

If it contains too little, they won't have it.

If the type is large it don't contain enough reading matter.

If the type is small, people can't read it.

If we publish telegraph reports folks say they are nothing but lies.

If we omit them, they say we have no enterprise, or suppress them for political effect.

If we have in a few jokes, folks say we are nothing but a rattle-head.

If we omit jokes, they say we are an old fossil.

If we publish original matter they damn us for not giving selections.

If we publish selections folks say we are lazy for not writing more and giving them what they have not read in some other paper.

If we give a man complimentary notices we are censured for being partial.

If we do not, all hands say we are a greedy hog.

If we insert an article which pleases the ladies, men become jealous.

If we do not cater to their wishes, the paper is not fit to have in the house.

If we attend church, they say it is only for effect.

If we do not, they denounce us as deceitful and desperately wicked.

If we speak well of any act of the President, folks say we dare not to do otherwise.

If we centure, they call us a tailor.

If we remain in the office and attend to business, folks say we are too proud to mingle with our fellows.

If we go out, they say we never attend to business.

If we do not pay all bills promptly, folks say we are not to be trusted.

If we do pay prompt, they say we stole the money.

If we wear poor clothes they say business is poor.

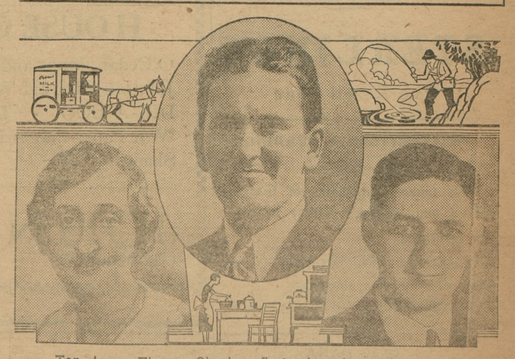

If we wear good ones they say we are a spendthrift.

Now what is a poor fellow to do?

AND now we hear that the most popular prohibition drink in Hollywood is tomato juice. Instructions are as follows—"just strain the canned tomatoes and add salt and pepper and drink it."

**Charity**

True charity is spontaneous and finds its own occasion; it is never the offspring of importunity nor of emulation.—Ballou.

**Critic and Author**

A critic, wrote Landor, is never too severe when he detects the faults of an author. But he is worse than too severe when, in consequence of this detection, he presumes to place himself on a level with genius.

**Early Substitute for Glass**

The Saxons can have had little or no glass. The Normans had none, or only very little, in the castles they built in England. Their way was to fix a thin transparent skin or membrane from an animal to serve for window covering.

**Sources of Vitamins**

Government tests show that vitamin G, which is a food factor promoting growth, is from five to eight times more abundant in beef liver, pork liver and beef kidney than in lean beef, pork or lamb.
