WASHER SALES INDICATE BUSINESS UPTURN

"An increase in washer sales mean an improvement in employment conditions," declares President E. H. Maytag of The Maytag Company, Newton. "Washers are purchased largely by laboring classes, and I consider our business even a better barometer of conditions than the so-called basic industries. Employment gives the masses money with which to make purchases. It is such purchases that promote high sales levels.

"Our April Sales," continued Mr. Maytag, "exceeded the average of the first five months of 1930, and they were not from isolated sections of the country, but from all sections. This indicates that the business improvement is not local but general.

"The Maytag factory began on a full-time schedule the middle of April, working 13 hours some days and some departments working full 24 hours."

73 of America's leading business concerns have bought 27,605 Chevrolets

CHEVROLET

Prominent among the thousands of concerns using large fleets of Chevrolets are many of the leaders of American industry. In fact, *73 outstanding business firms have purchased a total of 27,605 Chevrolet cars and trucks.* And the list is growing every day.

The reason for this preference lies in the unexcelled economy of Chevrolet cars and trucks, as proved by official cost records. These records show that *20 miles to the galion* is a common occurrence among Chevrolet cars. That oil expense is practically negligible. That Chevrolet cars and trucks require only a minimum of service attention. That they give satisfactory low-cost service over exceptionally long periods of time.

Naturally, an automobile with such a fine record of economy represents an extremely wise investment for *any* buyer! Especially so, when you consider the many advantages that Chevrolet offers above and beyond economy. Come in and learn what these advantages are —what they mean in terms of style, comfort, safety, reliability and value.
