We are having very good attendance at these services, and we try to make it worth your while to come. We can have a larger and better school if you will lend us your help. Wont you go the second mile to make our school second to none? Preaching at 7.30 P. M. Well, we were just four short of our expected number last Sunday evening. You know we wanted fifty persons to be present and there were forty-six. Find that friend of yours and bring them along with you for the Mother's Day service on the 10th. A service suitable to the occasion will be given.

Salem M. E. Church

The weather is getting to be very good now and the thing to do is to arrange to be at church promptly at ten so that we will be on time for the other services.

M., Miss Louisa Travers will be the leader and is making arrangements for a very interesting service, you will not want to miss this service and the fellowship of your friends who will be present. We wish to thank the folk who were so good as to help last Sunday evening. Prof. Strang, of Rock Hall, gave a splendid talk and it was much enjoyed, as was also the music by the Rock Hall orchestra. There were by actual count seventy-nine persons. The officers of the League are surely doing a great piece of work. Make it 100 on the 10th.

THE Rev. Dr. Harry Emerson Fosdic says that despite the United States' democratic form of government, two per cent of the people decide its questions of public policy.

An alert, organized minority has dominant influence in almost every direction—religious, political and economic—the pastor of the Riverside Church said in a sermon Sunday.

The history of the world, he declared, has been determined by the ideas and power of the minorities. He cited the power of a small group of Christians during the Roman empire, the struggle for Amecican independence. the control of New York City by "Tammany's organized minority" and Gandhi pitting himself against the British empire.
