BACK TO THE GARDEN DAYS

In the after the war depression ruined many Western cattlemen and sheepman, John Clay, a canny Scot who has been associated with the cattle and sheep business in this county for about fifty years as rancher, banker, commission man, etc. made a great impression on the county with a speech under the caption, "Back to the Wagon", which expression was full meaning to the Western cattleman and sheepman. He pointed out to them how they had drifted away from conservative ways into easy living - when the crash came such men failed.

May we not adopt a similarly appropriate slogan, "Back to the Garden", in this depression when every effort should be made to produce foods and feeds on the farm and in the village.

Most of us recall the slogan during the war which suggested, "Eat all you can, Can what you can't." This when interpreted meant that every body have a war time garden to produce foods and vegetables and that after meeting the need for fresh vegetables the surplus be saved for winter use by canning.

New York farmers are sending thirty-eight car loads of farm produce, food and clothing, as a donation to needy farm folk in drought areas. "A man can't have any doubts about the heart and spirit of rural America when things like this can take place" says Secretary of Agriculture Hyde.

"Every farm with a good sized-well tilled and freely used garden" should be Kent's ambition-not with the idea of upsetting normal marketing from truck gardens and farms but to insure the health giving vegetables to those who would not otherwise be able to have them fresh or canned.

"Now boys," said the ingenious professor. "if you'll just put a few crazy ansyers in your examinations I can sell them to a magazine for$25.

A Long Island dog catcher made $17,760 last year.

Never before

THE new Case Model "CC," which we are now showing, is not just another general purpose tractor. It is something entirely new—in fact, it is the only standard tread plowing tractor whose rear wheels can be easily and quickly set out to fit any width of rows for planting and cultivating, from an 18 and 22-inch combination up to 48 inches and wider. It can be used either as a 3 or 4 wheel plowing tractor.
If there is a tractor easier to handle and care for, we haven't seen it.
—fast, irreversible steering gear makes steering exceptionally easy.
—independent differential brakes aid in quick handling between the rows and in pivoting on either rear wheel when turning short.
—low center of gravity results in more stability and prevents side slipping.
—power lift eliminates the use of levers at the end of rows.
—handy platform and comfortable seat enable the operator to stand or sit while running the tractor.
You must see this tractor to appreciate how new and unusual it really is. There is nothing like it anywhere. Come in and look it over.
