MR. W. C. ROLPH, DEAR SIR: The Self-Feeding Huber Separator with Blower, that I bought of you last year gave me perfect satisfaction. It threshes very rapidly and does the work in perfect order. The Huber Self-feeder, I think, is superior to hand feeding at all times. I like the way the Blower Fan is driven better than any I have ever seen. Wishing you success in the business this year, I am

Yours truly,

ALDAY CLEMENTS,
MILLINGTON, MD., Jan. 20, 1902

THE HUBER MFG. CO., HARRISBURG, PA.: GENTLEMEN: The Huber rig we got from you last season is a beauty. The engine the most economical in fuel, powerful, on road and belt, and the easier to operate than any other engine we have ever seen. The thresher will thresh faster, save more grain, than any other, while the self-feeder handled the heavy straw of last season faster and better than hand feeding. We can truthfully and cheerfully say that the Huber is the finest rig ever sold on the Eastern Shore. Yours very truly, NICKERSON & WOOD.

BALTIMORE PUPILS BRIGHT.

Excel New Yorkers in Answering Questions About Canada.

Mr. Anson A. Gard, of New York, who recently made a wager of a dinner with a prominent school teacher of Montreal, Canada, that the American children knew more about Canada than Canadian children do about the United States, was in Baltimore last week, and visited Grammar School No. 19, Park avenue and Dolphin street, where he propounded to the seventh-grade students the 50 test questions, with a very gratifying result. Geography is the field in which the test is made and Mr. Gard said yesterday that the Baltimore children had made a far better showing than those to whom the same questions were put in New York, although not so good as the children of Hackensack, N. J. These latter answered 45 out of the 50, the New York children 36 out of 50, and the Baltimore children 41 out of 50. In spite of this showing Mr. Gard declares he has lost his wager, as the school children of Montreal did even better with their answers than those of Hackensack, answering correctly 48 out of 50.

The Baltimore boys, Mr. Gard said, not only answered more questions than the New Yorkers, but their answers were fuller and more intelligent. Mr. Gard was given permission to ask his questions by Professor Elliott, principal of the school. Mr. Flower teaches the seventh grade.

What is a Farm Worth?

My old friend William H. Plumb, of Bangor, N. Y., wants me to tell him what a farm is worth that gives an annual income of \$600, and what is the value of a cow that gives \$15 net in milk and butter a year. According to the system of farm bookkeeping with which I have long been familiar, this \$600 income means that there is that sum left after deducting the cost of seeds, planting, cultivating, harvesting, and marketing the crops, paying wages of all the help, feeding the hands and all the stock, clothing the family, paying the taxes, new rent, tickets to the circus, buying a new horse or two, repairing the carriages, wagons, and implements, expenditure for chewing tobacco, smoking tobacco, pipes, a few gallons of whiskey now and then, &c., world without end. Such a farm is too valuable to sell at any price. As for the cow—why, she is worth, according to the same system of bookkeeping a good currying and three bran-mashes a day.

THE MAN WHO DID.

All doctors in my town failed to relieve me of rheumatism. I have used about half a bottle of Nelon and feel so much improved, that while I may not need it, I enclose P. O. order for \$1 for one more bottle of the remedy that has been such a God-send to me. I cheerfully recommend Nelon to anyone suffering with rheumatism.

A SEASONABLE WORD to FARMERS.

The OSBORNE needs no word of praise at our hands, its unequalled history is its own recommendation, so the OSBORNE speaks through its own success.

This is the machine that reaps the Grain.

This is the Twine that Binds the grain.

This is the Machine that Mows the Hay.

This is the Tedder that cures the hay.

This is the Machine that rakes the Hay.

We also handle the PARLIN CORN PLANTER, and BUCKEYE CULTIVATOR, both implements which every up-to-date farmer should possess. All of these Machines may be seen,—and an inspection is invited—at our warehouse at Kennedyville.

LEHIGH COAL.

I have just received an invoice of LEHIGH STEAM COAL, which is the best coal for heating and general use in the market. It burns to ashes and does not clinker. It will make more heat than any other Anthracite Coal. It comes from the Mammoth Lehigh Vein, which is considered the best coal in the Pennsylvania Coal Region. It is shipped by Railroad, it is not handled until thrown into the delivery wagon, and is clear of dirt.
