

BROKEN DOWN

—by disease is the natural result if you allow your liver to become inactive, your blood impure, and your system run down.

The germs of Consumption, Grip, or Malaria, wait for this time of weakness—this is their opportunity.

If you rouse the liver to activity, so it will throw off these germs, purify the blood so there will be no weak spots; build up *healthy weight* where there is a falling off, you will rest secure from disease, for you'll be *germ-proof*.

Dr. Pierce's Golden Medical Discovery does this as nothing else can. That's the reason it can be *guaranteed*. In convalescence from pneumonia, fevers, or other wasting diseases, it's an appetizing, restorative tonic to build up needed flesh and strength.

For all diseases of the liver or blood if "Discovery" fails to benefit or cure, you have your money back.

DR. SAGE'S Catarrh Remedy will cure the worst Chronic Catarrh in the Head —perfectly and permanently. Fifty cents, by all dealers.

Horror of Burial Alive.

West Chester, Pa., Sept. 7.

A strange precaution was taken by Richard Ellicott to provide means with which to announce his expected return to life. Failing to arouse from death after three weeks' his body was to stay laid in the grave.

Ellicott was considered a wealthy citizen of this place. He suffered from dropsy and died on August 17. He had always entertained the horror that he might be buried alive. A few days before his death he told his friends of his fear and requested them to carry out the plans which he then made known. His body was placed in a casket, inside of which was located an electric button. The button was placed near where his right hand lay.

TO RING UP THE SEXTON.

A wire was attached to this button and it connected with an electric bell placed in the sexton's house. Elliott said his body should lie in the cemetery vault for three weeks. If he came to life during this period, he would touch the button and ring up the sexton, near at hand. He could then have been speedily removed from the coffin. He said if he had not come out of the internal sleep in three weeks his remains should be removed from the vault and consigned to the grave.

DIDN'T COME TO LIFE.

The three weeks since Elliott's death expired to-day. There had been no signs of returning to life. The electric bell in the sexton's home had not been rung, although a sharp ear was constantly turned toward it. The remote possibility of its being rung had a canny influence in the sexton home, and the bell was looked upon with some superstitious awe.

The friends of the dead man to-day had the remains removed from the vault. The electric wire was cut close to the coffin, and it was buried in the family lot in the cemetery.

THE SMALLEST.—George From, an employe of the Crescent City Railroad Co., of New Orleans, La., is the happy father of perhaps the smallest living baby in the world. The child is a male, perfect in form, and regular features. Its weight is about nine ounces. From the crown of its tiny head to the soles of its feet is about 10 inches. Its arms are not larger than a mrn's thumb, and its legs in proportion. The child is in the best of health, and its mother says can cry as vigorously as other babies. Mr. From is 45 years old, weighing 175 pounds, and hale and hearty. The mother is 44 and weighs 125 pounds. They have had 17 children, two of whom beside the baby are Lilliputians. One is 16 years of age, weighs 40 pounds, and is with the Harris Circus. The other is a youngster of 12, who is with his parents. He weighs a little over 15 pounds.

THREE AT A BIRTH.—Mrs. George L. Watson, of Wilmington, Del., gave birth to triplets, two boys and a girl. The united weight of the babies was but nine pounds. Two of the children have died and the third is not expected to live. The mother is doing well.

A DOG at Arlington, N.J., was discovered recently to be sick. He was very thirsty, and when he could not get water drank beer, which was given him in saloons. A doctor gave him an emetic, and after some squirming a frog jumped out of the dog's mouth. The dog seemed very happy when he saw the frog.

HORSE RUNAWAYS are unknown in Russia. No one drives in that country without having a thin cord with a running noose around the neck of the team. The horse stops as soon as it feels a pressure on its windpipe.
