INCURABLES.

To the intelligent, thinking man or woman who reads this paper, I have a word to say:

The large proportion of my patients are those who have been given over by the faculty and their friends as past all cure.

Now I have not come to Baltimore and settled for life here as a new man in my profession. For many years in all parts of the world and in this country I have been curing *ninety-five* per cent. of the same *curables*—upon whom the sentence of ... has been pronounced by their attending medical men, and I have sworn certificates of thousands to these cases.

I have therefore a right and indeed to urge upon all persons friends who are among the "Incurables," to come and investigate my treatment with *medicines* and without the *knife*.

If the sufferers themselves cannot so, they should come and bring their friends themselves, that they CAN be cured. Consultations are always free and all from 9 A. M. to 9 P. M. I have five large consultation parlors, two of which are exclusively for ladies.

Let me call your attention especially to some of the forms of disease that readily yield to the treatment.

Asthma
Nearsightedness
Headache
Catarrh
Paralysis
Locomotor Ataxia
Cataract
Strabismus
Rheumatism
Astigmatism
Neuralgia
Consumption
Brights Disease

If in the above list you do not find particular trouble you remember I have left out because I cannot cure it.

I have one further word of ... and exhortation; a gentlemen in ... Baltimore obtained a set of ... appliances a few weeks ago ... who was in a decline ... eminent specialist who ... she cannot possibly live. ... nent specialist, objected ... having the appliances ... though harmless they were ... patient could only live a ... utmost, and so the ... the appliances, which ... similar cases and is a ... specialist must make ...
