SATURDAY, FEBRUARY 22, 1908.

IT LOOKS LIKE Senator-elect John Walter Smith has been favored in the distribution of Gov. Crothers' appointments.

ABOUT THIRTY more working days remain to the Maryland Legislature. They have many pledges to redeem in that time.

THE interesting letter of Rev. Dr. H. B. Martin, on "Why I am a Christian" and another interesting article on "Just fifty years ago," will be found on pages 3 and 2, respectively.

"I MEAN to be the Governor of all the people,"—Gov. Crothers in his inaugural address. How about those appointments, Joe? "Didn't he hand a lemon to the "Antis," and gave all the peaches to "de gang?" Ask Cecil county if he didn't, Joe."

IT WILL BE the fault of the citizens of Chestertown if something is not done to improve their protection against fire. For this reason every citizen in the town should make sacrifices to be present at the meeting in the court house on Monday evening at 7.30 o'clock, and take part in the meeting. Make it a point to be there.

IT LOOKS very much like President Roosevelt is going to involve this country in a war with Japan by demanding that China be given an "open door" policy. He has sent the fleet to the Pacific to intimidate the Japs, and we believe he has made a mistake of which he may repent ere long. It was a sorry day for the United States when she purchased the Philippine Islands. It has involved the United States in a turmoil with the affairs of the great powers.

IN THE DISTRIBUTION of the big plums, Cecil county, Gov. Crothers home county, gets the following appointments: State Librarian, Miss Shaffer; State Fire Marshall, John M. Tucker; State Veterinarian, Dr. Mackie; Member State Board of Education, Mr. Brattan; Alva H. Tyson, appointed police magistrate for Baltimore city is formerly of Cecil county. Worcester county, Senator-elect John Walter Smith's county, gets—Fish Commissioner, Samuel J. Twilley; State Game Warden, Mr. Harmonson.

A DELEGATION of 1700 strong descended upon the State House at Annapolis on Tuesday in the interest of the passage of the Local Option Bill. Some of the best people in the State were in that delegation, which is considered the largest body that ever appeared at the State House in advocacy of any measure. The temperance people throughout the State wield a mighty influence, and the Legislature has a grave responsibility on its hands in deciding its attitude on this grave question.

WHEN GOV. WARFIELD made his State appointments, and failed to recognize the Organization forces of the party as they thought he should do, they hounded him from one end of the State to the other. Gov. Crothers has made his appointments, and the question now is, will the Organization discount Gov. Crothers, because he gave to the Warfield element of the party what Gov. Warfield gave to the Organization forces? It is a poor rule that fails to work well both ways, especially when the fault is the same. In speaking of his appointments, Gov. Crothers said: "I have made them with the purpose, first to subserve the public good, and secondly, as far as possible, to satisfy the Democratic party, now in control of the affairs of the State."

DR. W. FRANK HINES.

The appointment of Dr. W. Frank Hines, of Chestertown, as Superintendent of the State Bureau of Immigration, by Gov. Crothers, is no doubt very gratifying to his many friends in Kent, and the TRANSCRIPT joins heartily in the congratulations which he has received during the week. Dr. Hines is the son of the late Jesse K. Hines, who in his day was a leader in politics not only in this county but in the state. He has spent the greater part of his life in Chestertown, where for many years he has been engaged in the practice of medicine. He has always been interested in the success of the Democratic party, and for years has been regarded as one of the leaders here, and has been active in its councils. He has frequently been complimented by his party with election as a delegate to State Conventions, and for the past eight years has been a member of the Board of School Commissioners for this county. He was also a member of the State Board of Health and Health Officer for Kent county. We believe Dr. Hines to be fully qualified to discharge the duties of the office to which he has been appointed, and when approached by a representative of the TRANSCRIPT he stated that he would endeavor to perform the duties of his office to the best of his ability, and that for the present he had no other plans than to conduct his office faithfully and well, and we believe he will make Governor Crothers a worthy official.

RICHARD T. TURNER.

Richard T. Turner was one of the most substantial men in Kent county. Long identified with its business and social life, he had made a place in the affairs of the county that is not surpassed by any other man. He was an exemplary citizen in all walks of life, and his death has removed from the town and vicinity of Betterton, as well as from the county, a man whose influence was always for good, and whose public acts were suggestive of progress.

CITIZENS' MEETING.

A meeting of the citizens and taxpayers of Chestertown interested in better fire protection will be held in the court room on Monday evening to hear the report of Water Engineer Quick and also the recommendations of the citizens' committee appointed several weeks ago to consider plans for better protection and equipment. It is especially important that every tax-payer of the town be present at the meeting, as the final disposition of the matter is in their hands. The Water Company has submitted a proposition to the committee which will be submitted to the people at the meeting. Engineer Quick's report is extremely interesting, and the committee's recommendations are worthy of consideration. Let every one in the town interested in better fire protection and better water service attend the meeting on Monday evening at 7.30 o'clock. Mr. Thomas D. France will preside.

PASS THE ROAD BILL.

The TRANRSCRIPT last week published in full the text of the proposed road law for Kent county, and since that time the bill has been generally read, discussed, and most favorably commented upon. There is no question to our minds but that the people of Kent county desire relief from the present expensive and ineffectual method of working the county roads. Every year there is an excessive amount of money spent upon our roads without any adequate return in improvement in their condition and we are forced to the conclusion that either there is something wrong in the supervision of the roads, or the commissioners are by no means receiving a reasonable return for such an enormous outlay of money. Therefore under present conditions it would seem that something should be done to improve conditions. Experience is the best teacher, and from the experience the people of Caroline county have had with the workings of the law, of which the Kent County Road Bill is an exact copy, we are led to believe that the law there has not only given great satisfaction but has produced greatly improved roads at much less expense. Now if the law is applied to Kent county, only a certain per cent. of the taxable basis of the county could be levied for road purposes just as is levied for court and election expenses, and when the amount of that levy is expended no more money could be spent on the road during that year. Then, too, the supervision and care of the road is concentrated in the hands of one man, who has not only the appointing and discharging power, but he is the custodian of all the road paraphernalia, and is required to give periodical statements of how the money is spent and who does the work and how it is done. In other words, the system is so conducted that every tax-payer in Kent county may know at any time how his money is spent.

Under such a system the taxes would be greatly lowered because the commissioners would not levy a greater amount than the Engineer, who is an experienced man, states that it requires to successfully work the roads. The bill states that not less than 20 per cent. of the taxable basis shall be levied by any one year. If such a sum were levied by the commissioners it would mean a reduction of the present high rate of from 15 to 18 cents on the $100, and there is not a tax-payer in Kent county but who believes that our county roads could be kept in far better condition with an expenditure of $17,000 than they are now at $30,000, if the work is done under an experienced and careful engineer such as is the case in Caroline county. The law has only been in force there two years, and yet at $2,000 less cost than formerly, Caroline has the best roads of any county on the Eastern Shore. Why should the law not be applied to Kent. Read Mr. Uhler's letter in another column. He is the Road Engineer for Caroline county. See what he says, see also what the auditors report says. Now then, the matter of the propriety of enacting this law for Kent county was first mentioned by Mr. Slay, who is in the Senate from Kent. He has studied the Caroline law and believes it will be a most excellent thing for Kent. He has stated that he is going to introduce it in the senate. Now let the tax-payers back up Mr. Slay with their letters, urging its passage, and write also to Messrs. Harris and Willis and urge them to pass the bill in the House. It is the thing for Kent county.

Police Notes.

H. W. Vickers, Jr., attorney, brought suit before Justice Calder against Chestertown Commissioners for loss of Richard Barber's horse because of defect in Cross street; Lewin W. Wickes, Esq., represented the town. Justice Calder rendered a verdict of $40 in favor of Barber. The amount claimed was $99.00.

Buddie Ratler, colored, was before Police Justice Hicks on Saturday afternoon charged with stealing $24 worth of brass, rags and old rubber from A. Kaplan, junk dealer. The property was stolen from the stable rented by Mr. Kaplan from Mr. Wm. J. Lurty. Justice Hicks held the accused for the action of the grand jury.

Mr. J. W. Ivens sued Mr. Samuel Loller for the value of a gang plow, which Mr. Loller purchased last spring. The amount of the suit was $67. Mr. Loller claimed that the plow was not satisfactory and stood suit. The trial took place before Justice J. Waters Russell. Lewin W. Wickes, Esq., represented Mr. Ivens and Wm. W. Beck, Esq., represented Mr. Loller.

PEOPLE'S COLUMN.

☞ The columns of the TRANSCRIPT are open to the proper discussion of all topics of public interest or importance. Whether the editors agree with the sentiment expressed or not, the people should and may be heard through the TRANSCRIPT's columns—the paper will be the People's Forum from which they may be heard on all subjects—purely personal matter excepted. The Editors are not responsible in any manner for articles that appear in this column.

DEAR SIRS:—Have the streets in Chestertown ever been in a more shocking condition? They are worse than there is any occasion for them to be. Was it not promised last spring that our Town Commissioners would inaugurate a system of street improvement? Is there any thing worse to be found in the county than the road up College avenue? If there is let us have a photograph of it in your paper. Can not our Town Commissioners, as soon as the weather is warmer, engage a road scraper and scrape the main street and College avenue like they did Queen street? This at least would afford some relief. CITIZEN.

THE RISE IN MILK PRICES.

Chestertown, Md. Feb. 20, 1908.

MESSRS. EDITORS:—It is with regret I note our town has been invaded by a "Milk" trust, and I take this means of calling our dairymen's attention to the combination they have formed. I am not opposed to combinations or trusts so long as they do not discriminate or are not in restraint of trade. In the formation of this "Milk" trust in our midst, I feel a degree of discrimination has been imposed against that class of people less able to bear the burden. Milk is not a luxury; it is a necessity in many homes, especially where there are children, and to have the price raised from 3 cents per pint to 4 cents per pint and not to disturb the gallon prices (which is 20 cents per gallon) is hardly fair to those who are not blessed with an abundance of this world's goods. As our present dairymen are both christian gentlemen, I am confident they have not duly considered this raise in the light of a charitable disposition, and I hope they will reconsider the matter, and if they must raise the price of milk let them make the price 3 cents per pint, whether by the pint, quart or gallon; by this method, the party disposed to be extravagant or is in a position to use milk as a luxury will bear their just burden. I hope this may appeal to our dairymen's christian nature, and may they withdraw their prices on milk and adopt a more liberal price for milk in small quantities. Yours for better prices to the small customer.

A CITIZEN.

MESSRS. EDITORS—Gents: I would like to ask a few questions about the laws of our town. Please answer in your paper so the public might know or learn of them as well as the writer, for I am quite sure many of the citizens are in ignorance. Is there a law for prevention of cruelty to animals, especially the beasts of burden, as our horses seem to be? The drivers often forget. Their example might be followed by those not as highly favored, as not to have a heavy load to climb up the hill on Front street from the wharf, or the small rise at the bridge, as well as the hill at the strawboard mill, when the poor horses are whipped, jerked, snatched and yelled at beyond all humanity. If there is such a law, why not enforced, and to whom are we to look for the protection of all the animals? Surely, we ought to be a humane people, with so many christians around and about us. Then, if there is a law to have the sidewalks cleared off after a snow. Some are done, but a few ignore all law and jeopardize the limbs of people who are on the street. To whom are we to look? If one is notified why not all? Are the walks before the fences to be cleared away, as the pedestrians cross these places. Surely, then, why not enforce the law on those that are able to pay as a beginning of better things in the future. Then why do not law-abiding citizens see to the health and comfort of each other a little more than has been done recently in our midst? Clear all stumbling blocks out of your neighbor's road or way, so all can be equally protected. Where are our town fathers, the law and order league that was once in our town, or even the Town Improvement Society? Are they all defuncted? These are needed facts to be learned, all will agree to I am sure. If such laws exist let all go to work to put this town above reproach. Respectfully,

TAX PAYER.

[There is a law for prevention of cruelty to animals applicable to the whole State. Any one can have the law enforced by complaint to the proper authorities. There is an ordinance requiring the cleaning of all sidewalks within a certain time after a snowfall, as well as one regarding the health of the town. Both are enforceable by the town commissioners, and we understand they are endeavoring to enforce both ordinances.—EDS.]

BETTERTON BRIEFS.

The "Valentine Social," under the auspices of the Ladies Aid Society held last Saturday evening at the Atlantic proved to be a complete success. The dining-room was elaborately trimmed in crimson hearts and potted plants and presented an unusually pretty appearance. An oyster supper was served, and ice cream, ices and cake were sold in abundance. The amount realized was about $35.00 which was put in the treasury of the society.

Large crowds here attend the revival services at Still Pond. They report very good meetings. The services have been going on for the past two weeks with success. Rev. Edward Collins in charge.

The ice off Betterton and as far down the bay as eye can see, continues as heavy and strong as a month ago. A few days of lower temperature and a strong easterly wind would soon clear it out.

Misses Lolla and Hettie Crew visited Philadelphia last week.

Mr. Frank Clark spent Sunday with his family on Ericsson avenue.

Miss Hallie Pinder, of near Worton, is spending sometime with Mrs. John Owens, of the Chesapeake.

Rev. Mr. Cox, of Marydel, occupied the pulpit here on Sunday last and his talk was enjoyed greatly by the large congregation present.

Presiding Elder Koons will preach here Saturday evening at 7 o'clock, after which quarterly meeting will be held. Sunday morning at 10.30 Rev. Koons will preach again. A larger crowd than usual is expected to be out.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

PUBLIC SALE
—OF—
PERSONALTY

THE undersigned having rented the Antone Farm on the road from Lambson Station School House to Millington, will sell at public sale on

Thursday, February 27th, 1908,

commencing at 10.30 A. M., the following personalty:

7 HORSES
AND 2 TWO-YEAR-OLD COLTS,
6 Steers.

Farming Implements:

Three Farm Wagons, 2 Hay Riggings, 1 Binder, 1 Mower, 1 Roller, 1 Grain Drill, 1 Hay Rake, 1 Tomato Planter, 1 Corn Planter, 3 three-horse Plows, 1 two-horse Plow, 1 Grindstone, 2 Wheel Cultivators, 5 Hand Cultivators, 1 Spring Tooth Harrow, 1 Horse Trough, 1 Farm Bell, 1 Hay Fork and Rope, 1 Cross Cut Saw, 1 Straw Knife, 1 Vise, 1 Hog Trough, 3 Sets Wagon Harness, 1 Saddle, Collars, Bridles, Shovels, Wheelbarrow, 1 Kitchen Table, 1 Farmer Girl Cook Stove, Etc.

f15-ts. J. F. M. WOODALL.

When we dissect your watch--

When we get all the tiny little wheels and pinions and things separated—then clean them all up as bright as new, then put them all together again—that watch of yours is going to run as good as ever.

It can't help it. It is practically a new watch once more.

Of course it will need our attention again in about a year—as it is always better to be too soon than too late.

Maybe you knew all this before, but somehow people have a habit of attending to everything else in the world but their watches.

If you think a cleaning would do your watch good, don't wait until it stops. Bring it to our repair department.

We have the finest equipped repair shop in this part of the country and can do all your repairing promptly, and in the best manner possible.

"The Largest Jewelry Store on the Eastern Shore."

JULIUS W. CLAYTON.
Geo. W. Padley, Auctioneer. f8-ts.

SPECIAL NOTICE TO HORSEMEN.

At the above sale I will sell my TROTTING HORSE "STAR." If you are looking for a Speed Prospect here is your chance.

He is an excellent driver and will work in all harness. Last fall I worked him a few times on the track and drove him a mile in 2.37½, last half in 1.17½ and am confident, if handled, he will trot a mile in 2.25. He is a natural, open trotter, is always ready to race, and it takes a good one to pass him on the road. He is a sorrel, 15½ hands high, 6 years old and sound. For breeding and further particulars, address

HARRY W. KIBLER,
Chesapeake City, Md.
GEO. W. PADLEY, Auctioneer.
