THE ROAD BILL.

How it Has Worked in Caroline County.

The Kent County Road Bill published in full in the TRANSCRIPT last week, and which is modeled exactly upon the Caroline Road Law has caused untold favorable comment throughout the county this week, and the tax-payers will undoubtedly make an effort to have the bill passed in the present Legislature. The law is giving splendid results in Caroline, which is said to have the best and most economically conducted roads on the Shore. The 14th annual report of the auditors of Caroline county for the year 1907, Messrs. J. Boon Dukes, Clinton B. Jarman, Thomas H. Chambers says:

"The annual report of the County Road Engineer to the commissioners is complete in detail, showing cost of work and material for the fiscal year ending June 30, 1907, to be $11,654.98. The auditors report for 1904 shows the cost of the roads under the old system to be $13,617.48, we think a very creditable showing for the new system, considering the very greatly improved condition of the roads at $2000 *less cost.*"

The following is a letter from Mr. Wm. D. Uhler, Road Engineer for Caroline county:—

Denton, Md., Feb. 7, 1908.

DEAR SIR:—Yours of the 13th inst. addressed to Mr. S. L. Day has been referred to me. Replying thereto would advise that we have no circular letter descriptive of our road system. Presume you must have referred to a copy of a report or statement prepared by me for the Maryland Geological Survey, comparing the old and new systems of working roads in Caroline. Will try and get you a copy of same. In the meantime would advise that you can find a copy of our law in the Acts of 1904, Chap. —, page —. As you will note, this Act places the roads in the hands of a Road Engineer, giving said engineer the appointing and discharging power of all supervisors, and limits the number of surveyors to one for each election district, whereas under the old system we have had as high as 108 in one year, and from what I have heard, one of our neighboring counties exceeded that by far last year. Our total aim has been to place the road system on a strict business basis, requiring daily reports from our supervisors on special post cards furnished for the purpose, showing names and time each man makes together with owner of teams and time made and statement of work done and material used each day, which cards are used in checking up the accounts when presented. Our most radical change has been in buying our own teams. We now own 31 head of fine mules weighing from 1100 to 1300 lbs. each, costing us from $200 to $210 per head. The purchase of same was not done until after we had experimented with the several different methods of working, using traction engines, road rollers and pick-up teams from different farmers. In 1905 we tried one 6-mule outfit which worked so successfully that in 1906 we purchased two 8-mule outfits, and last December we purchased ten head more, which will give us four outfits, one for every two districts. Having only eight supervisors we give them employment at least eight to nine months in the year. Our work is somewhat on the line of a R. R. company's section gang. If there is any further information I can furnish advise, and I shall be pleased to do so. As soon as I can get copy of report will forward if desired.

Very truly,
WM. D. UHLER.

FROM STATE'S ATTORNEY G. ALLAN GOLDSBOROUGH.

The Chestertown Transcript,
Chestertown, Md.,

GENTLEMEN:—I am in receipt of your letter of Feb. 17th in which you request me to give you for publication, my views as to the workings of the Caroline County road law. The law was passed in 1904 in the face of and almost in defiance of the overwhelming sentiment of a majority of the voting population.

It has been in practical operation for about three years and has worked so well that the opposition to it has almost subsided. Our road system is now a practical organization conducted as a well managed private business is conducted, so that the people get practical results, something which they can see, for every dollar expended upon the roads. The roads are being improved systematically with a definite theory of road building and road improving consistently adhered to, while I am informed that during last year $2,000.00 less was expended upon the roads than during the last year under the old system.

Politics cut no figure whatever. I think it is proper for me to add that the law as passed was the result of an exhaustive examination of practically all the successful road systems of the United States, and only fair to say that Mr. Uhler, the road engineer, has exceptional qualifications for the office.

Very truly yours,
T. ALLAN GOLDSBOROUGH.

PRINCIPAL OF HIGH SCHOOL.

Washington College Graduate to the Front in Harford County.

Prof. H. P. Porter, graduate of Washington College, class of 1903, has been chosen principal of the Belair Academy and Graded School, to succeed Prof. William Perry Stedman, who has accepted the chair of history and English in the Polytechnic Institute, Baltimore. Prof. Porter has been principal of the Greensboro High School, in Caroline county since his graduation from Washington College. He is a young man of exceptional ability, and an educator of merit. A singular incident in connection with the Belair School at present is that both the principal, Prof. Porter, and the vice principal, Prof. Walter H. Davis, are Washington College men. At the same time it may prove interesting to state that at present there are three Washington College graduates in the faculty of the Polytechnic Institute, one of Baltimore's largest and best schools. They are Prof. Rowland Watts, Prof. Thos. Garey and Prof. I. L. Twilley. They are all doing a most excellent work in the school, and are upholding the honor of their alma mater, which is one of the best institutions of learning in the State, especially under the present efficient management of President James W. Cain, L. L. D.

ROCK HALL ITEMS.

The oystermen are getting in an hour now and then, but the wet weather and floating ice keeps them moving. The deep watermen are watching the bill offered a few days ago in the Legislature and it has agitated them not a little.

Capt. Ed Sewell is very ill at this writing and but little hope of his recovery is entertained by his family. His daughter, Minnie, of Baltimore, has been called to his bedside. Dr. Beale is daily in attendance.

The sick are doing well generally. Mrs. James Willson of Eastern Neck, has been a great sufferer from an abcess.

Mr. Talley, who resides at Gratitude, has leased a farm in Skinner's Neck and is preparing to move there.

Mrs. Grace Scott, daughter of Mr. Nathan Satterfield, was suddenly called to the bedside of her sister, Bessie, in Baltimore.

Music Hall is the name now applied to the Knight's hall from the fact that several pianos have been placed in the hall by agents who are trying to make a deal with the K. of P's. Many have inspected them, and the diversified opinions of the visitors make it difficult for the committee to decide which to purchase. Miss Nannie Taylor has been appealed to for her decision which will be given on Saturday evening. The wife of one of our prominent citizens called to see it, and while listening to the music was so charmed with the tone that to the astonishment of the others kept time to the music with both feet.

One of the most pleasant and instructive entertainments which I have ever visited, was held by the I. O. O. F. at the hall on Tuesday. The members are going to hold a roll call on Tuesday next, at which time speeches, addresses and refreshments will be a prominent feature. Come all who love the order and is a member.

The R. H. H. S. Lyceum will hold their regular meeting in the principal's room on Friday next, beginning at 2.30 P. M. Dr. Schwatka will deliver an address and exercises of a patriotic character will occupy part of the time. The debate upon; Resolved: "That war is unnecessary," will follow. Misses Camp & Griffin have organized a club among the 6th, 7th, and the 8th, who will challenge the Lyceum to a joint debate.

Mr. Benjamin R. Durding died at the home of his daughter, Mrs. Samuel Burgess. on Wednesday at 6 P. M.

Failure of Insurance Company

The Mutual Reserve Life Association of New York has gone into the hands of receivers with liabilities amounting to over $5,000,000 and assets of a little more than $3,000,000. This is the company with which Mr. George W. Harper, formerly of Still Pond, and Mr. J. A. Hyland, formerly of Chestertown and Still Pond, are connected. We are sure these gentlemen will do everything in their power to reimburse policy holders for their losses. The receivers appointed by the Federal Court discharged all the employes of the Mutual Reserve whose services were not absolutely necessary, including Archbold C. Haynes, former president, and one of the receivers; George W. Harper, former treasurer, and G. D. Eldridge, the actuary. Beneficiaries to whom checks had been drawn, but who had failed to cash them promptly, appeared at the company's offices, but the appointment of receivers makes it impossible for them to cash their checks now. Policyholders in the company for years came to inquire what their beneficiaries might expect when they had crossed the great divide. When they were told the condition of affairs their grief was touching. Employes of the company were paid off and discharged, some of them white-haired men who had been with the company for years.

PROMINENT HOSPITALS SAY
PE-RU-NA IS EFFICIENT
IN RELIEVING ALL CATARRHAL DISEASES.

SISTERS OF THE GOOD SHEPHERD, MONTREAL.

HOSPITALS ALL OVER THE CONTINENT FIND PE-RU-NA VALUABLE IN TREATING ALL CATARRHAL DISEASES

CATARRH of the respiratory organs is a common ailment in Canada for at least two-thirds of the year.

This condition is no doubt caused by the long, severe winters experienced in this part of the continent.

Therefore, when Peruna was discovered by Canadian people to be a reliable remedy for these catarrhal diseases, it at once became a popular medicine, not only among individuals and in families, but in the great hospitals, where it was used as a preventative and relief in hundreds of cases.

These institutions do not hesitate to give their endorsement of the remedy which has been so helpful in the treatment of their poor and sick.

Among these institutions is that of the Sisters of Good Shepherd, who gave the following endorsement:

The Peruna Company,
Columbus, Ohio,

Having used Peruna for the past few months, for our sick and poor, we are happy to say that it has given us great satisfaction.

The Sisters of the Good Shepherd,
August 20, 1903.
Montreal.

After a continued use of the remedy, this institution has found no reason to change its good opinion of the remedy and expresses its satisfaction in the following terms:

Montreal, Nov. 7, 1903.
We found Peruna a relief in several cases.
We can say it is a good tonic and we are very thankful.
Sisters of the Good Shepherd.

When catarrh once fastens itself upon the system it becomes an obstinate disease to eradicate.

A systemic remedy—one that reaches every internal organ of the body—is an absolute necessity.

Peruna is just such a remedy. It searches out the cause of the disease, healing and strengthening the mucous membranes, and thus giving Nature an opportunity to perform her part of the restorative process.

One of the many hospitals which have found Peruna of value in treating old and obstinate cases of catarrh is the Hospital St. John, who write, as follows:

"We are happy to tell you that your Peruna has given us satisfaction. Three patients have tried it, one 68 years old, Renoui Dupuis, afflicted with catarrh, is much relieved, more than he has been for a number of years.

"A young girl, 15 years old, had an obstinate cough, which half a bottle of Peruna caused to disappear.

"As to myself, two bottles have convinced me that Peruna is magnificent as a tonic.

"Before the treatment I could not walk for a quarter of an hour without experiencing much fatigue. Now I can walk a mile easily.

"Through these three cases we desire to make known to the public the efficiency of your remedy."

Hospital St. John, of St. Johns, Province of Quebec.

A later letter received from the same institution reads as follows:

"Three weeks ago I wrote to tell you how satisfactory we found Peruna. We recommend it highly for colds, coughs, catarrh and neuralgia.

"I have used it myself as a tonic with the best results, taken as directed, half a teaspoonful every half hour."

Mrs. Etta Booker, Dundurn, Sask., N. W. T., Canada, writes:

"I suffered with pelvic catarrh until I wrote to Dr. Hartman, and after taking treatment as he advised, I can say I am now cured of this most trying affliction, for which I am truly thankful. I think Peruna the best medicine for catarrh. I never felt better in my life than I do at present."

Peruna not only promptly relieves coughs and colds in their first stages, but is equally prompt and efficient for catarrhal diseases in the chronic stage.

Of course, it is only reasonable to suppose that a great deal less medicine will be necessary to cure a slight attack of catarrh than would be required to relieve the same after it had been allowed to become chronic.
