131 DOCK STREET, PHILADELPHIA.

### Comforting Words.

Many a Chestertown Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Chestertown readers.

Mrs. Andrew Aaron, 216 S. Governor's Ave., Dover, Del., says: "I believe Doan's Kidney Pills to be the best kidney remedy on the market. I have used them in my family for a severe case of kidney trouble and I know of several other people who have taken them with the same good results. The case referred to in my own home was one of long standing, the kidneys being so weak that the secretions passed too frequently. Two boxes of Doan's Kidney Pills affected a cure after doctors and other remedies had failed and during the past two years there has been no return of the trouble."

For sale by all dealers. Price 50 Cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

#### INDIGESTION ENDS.

Misery From Your Disordered Stomach Goes In Five Minutes.

You can eat anything your stomach craves for without fear of a case of indigestion or dyspepsia, or that your food will ferment or sour on your stomach if you occasionally take a little Diapiesin after eating. Your meals will taste good and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which cause Belching, Dizziness, a feeling of fullness after eating, Nausea, indigestion (like a lump of lead in stomach), Bloatingness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms. Headaches from the stomach are abolished whenever this effective remedy is used. Diapiesin really does all the work of a healthy stomach. It digests your meals when your stomach can't do it. Each triangle will digest all the food you can eat and leave nothing to ferment or sour. Get a large 50-cent case of Pape's Diapiesin from your druggist and start taking to-day and by tomorrow you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

TRY IT. 25 CENTS EVERYWHERE.

Office 115 Main street. With Dr. J. T. Twilley.

### THE BEY'S GUEST.

He Was Ready For the Emergency and Conquered the African.

A show of force is often the best kind of diplomacy. A writer in the Paris Temps tells a story of the French Admiral Dupetit-Thouars, who had been entrusted with the mission of extracting reparations from an African bey who had insulted a French consul. As Dupetit-Thouars' demands were supported by the forcible argument of loaded cannon, the bey acknowledged that he had been too hasty and professed profuse apologies. He even invited the admiral to his table and had a sumptuous repast prepared for his guest. The consul warned the admiral to be on his guard. "The bey is inclined to be malicious," said he, "and when he strokes his beard and smiles you may be sure that he is conceiving some mischief."

"We shall see," was Dupetit-Thouars' reply. He reached the bey's palace in good time. Profuse compliments and salutations were exchanged. All at once the admiral's foot met some soft, laced Dupetit-Thouars replied: "The target under the table. He bent down and saw a huge lion showing his formidable teeth. The bey smiled and stroked his beard. Dupetit-Thouars did not wince, but called his dragoman.

"My pistols," was all he said. The servant saluted, retired and brought back a pair of pistols on a silver tray. The admiral took them and placed them on the table before him. But the bey, still smiling, continued to stroke his patriarchal beard. "Tell the commandant," he said to the dragoman, "that if those pistols are for the purpose of blowing out my lion's brains they are quite insufficient and perfectly useless."

Then, like a skilled fencer countering his opponent's thrust, after the bey's ironical advice had been translated, Dupetit-Thouars replied: "Tell his highness that my pistols are not there to kill his lion, but to blow his own brains out at the first movement of this objectionable carpet."

Gravely, but a little pale, the man interpreted. The smile died away on the bey's lips, and he no longer stroked his beard. "My lion," said he, "is too well trained even to scratch one of my guests, but since he is not wanted he shall be sent away."

At a word from the bey the lion slowly and heavily left the room, like an obedient dog.

No More Cradles. "A cradle?" said the salesman. "Oh, no! You don't want a cradle." He smiled. "First kid, ain't it?" "Yes," admitted the young father, frowning.

"I knew you weren't experienced, or you wouldn't ask for a cradle," said the salesman. "You see, they've gone altogether out. We don't sell two a year."

"Why did they go out?" "Because they're unhealthy, bad for the kid. They lower the temperature, hurt the heart and bring on nausea, colic, regular seasickness. It stands to reason that the violent rocking of a cradle can't be good for frail little babies any more than the violent rocking of a ship in a storm is good for the passengers. Moreover, they keep somebody busy rocking the baby to sleep. Now the baby goes to sleep of its own accord."—Philadelphia Bulletin.

Won With Whips. According to Herodotus, while the Scythians were away on a long campaign their wives took the opportunity to rebel and seize all their masters' property. The latter on their return promptly attacked them, but were continually defeated until at last one of them hit on the brilliant idea of attaching the slaves with whips only. That, he said, would remind them of their origin and so cow them that they would never dare to stand. The Scythians followed his counsel, and it fell out as he had predicted. When the slaves beheld their masters riding down upon them flourishing the terrible knotted whips they knew so well they threw down their arms and fled.

Hard to Choose. "Whom would you rather entertain," asks the philosopher of folly, "a perfectly stupid bore or a clever fellow who has just been abroad for the first time?"—Exchange.

The act of this life are the destiny of the next.—Eastern Proverb.

Profitable dairying, that is, increasing the quantity as well as the quality of milk, is now positively assured by giving with the feed Fairfield's Milk Producer. Successful dairymen are fast dropping all experimenting, no matter how promising, and are confining themselves to this remarkable cattle tonic. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

Daily reports from various agricultural stations show that the Fairfield method of banishing "cure-alls" and adapting a formula to meet conditions peculiar to each animal, is the surest way to get results. Fairfield's Milk Producer is making money for every cow owner. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

That a horse sometimes becomes "run down," early after the fashion of a human being, is now recognized as a fact by the best Veterinarians. It is also agreed that the surest remedy is one that makes blood. Nothing is better for the nervous system. Such treatment is best secured in Fairfield's Blood Tonic for horses. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

Two make two dozen eggs grow where one dozen was produced before seems to be no difficult thing for Fairfield's Poultry Tonic. An iron-clad guarantee protects every purchaser. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

Poultry lay and grow fat in proportion as they are cared for properly. Tone them up, give them just a little help with Fairfield's Poultry Tonic. In this way many a losing poultry venture has been made to pay. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

The working capacity of any horse can be practically doubled by giving regularly with its feed Fairfield's Blood Tonic for Horses. Nothing is better for the general health of the horse. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

In its success in preventing cholera and disease, Fairfield's Hog Tonic has accomplished more than any other single agent in saving the farmer from this former great source of loss. Hogs fatten more quickly under this treatment and with this possibility of loss removed, hog raising is now very profitable. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

It has been commonly considered that a fowl which has suffered from Roup never fully recovers. This theory is now up-set by the guarantee that goes with Fairfield's Roup Remedy. Poultry owners agree that results are permanent under this treatment, and that afflicted birds recover completely. There is no record of a refund having been asked for under the guarantee. Davis & Satterfield, Chestertown. Abe Cohen, Sandy Bottom.

### SIZES OF BOOKS.

Meaning of the Terms Folio, Quarto, Octavo and Duodecimo.

The words "folio," "quarto," "octavo," "duodecimo" and the like have almost, if not quite, lost their original meaning. At first they had reference only to the number of leaves into which the sheets used in making the book were folded. Thus if these sheets were folded once the book was called folio; if the sheets were folded twice, so as to form four leaves, the book was called a quarto; if they were folded four times, so as to form eight leaves, the book was called an octavo, and so on.

The duodecimo, or 12mo, is an irregular size. To make it the sheet must be folded so as to form twelve leaves. Fold one-third of the width of a sheet lengthwise on itself. Next fold the paper across its breadth in the center. Next fold the sheet across its length—that is, fold the two leaves on the four. Finally fold it again across and in such shape that it may easily be sewed in with others to form a book.

But though, strictly and historically, quarto, octavo, etc., have reference solely to the manner of folding the sheet, they are, as a matter of common practice, used to specify the sizes of books.

If the sheets on which books are printed were of uniform size a quarto page would be as unvarying an area as a square foot or an acre, and before the invention of machines for making paper there was such uniformity to be found in the sizes of sheets.

But when paper making machines were introduced and the use of molds was abandoned sheets came to be made of all dimensions. As a result of this the terms quarto, octavo, etc., were nevertheless not abandoned, but instead they were first used to indicate a rather wide range of sizes and finally were attached to certain more definite sizes, without reference to the method of folding.

The practice of the publisher nowadays is first to determine what size of page he wants. The sheet he uses will be large or small, according to the capacity of the press at his disposal. On that sheet he may print, say, eight octavo pages, or he may print thirty-two, but he will call the book an octavo, though by its folding it should be called either a quarto or a 16mo.

In other words, the publisher calls his book by the name of the size of the old sizes to which it happens to come nearest.

The confusion resulting from the changes noticed here has not passed away yet, but efforts have been made to give definiteness to the old words.—New York Tribune.
