STILL POND, MARYLAND.

TO THE Farmers and Users of Fertilizers

During 1907 we increased our sales and in 1908 we had quite an increase over 1907, and in January, 1909, we incorporated as the PEERLESS FERTILIZER COMPANY, and our spring sales this year show an increase of nearly 300 tons over last spring which not only included our old customers but many new ones. This we state not boastfully, but gladly.

In the new customers that came to us were through the recommendations of those who had used our fertilizers for years, and we also sold largely to those who began buying of us from 10 to 35 years ago when we began business and who are still our satisfied patrons and say they expect to continue to deal with us as long as we manufacture the class of goods we do.

Such conditions involve much more than price, mere reputation or salesmanship. Selling year after year to a man and through that man selling others is decidedly a different story than selling him once or possibly twice. Anyone can do the latter.

WE MAKE EACH TON OF FERTILIZER THE BEST WE KNOW HOW. We know how now better than we knew ten years ago and expect to know still better ten years hence, if careful study and testing bring improvement in the future as in the past, and at the lowest possible cost for such service is the way we expect to secure and hold your orders.

May we show you with the very next bill of fertilizers you buy.
