The Transcript.

SATURDAY, SEPT. 4, 1909.

LOCAL MATTERS.

Principal at Havre de Grace.—The trustees of the Havre de Grace High School have appointed Prof. Milton Shakespeare Harper, of Golden Hill, Dorchester county, principal of the High School, to succeed Prof Tinsley, who goes to North Corolinia. Prof. Harper is a graduate of Washington College and is well-known in Chestertown. The position pays $1200 per year.

County Horses In It.—Wednesday's races at Tolchester a great success for Kent county horses. Mr. W. C. A. Thompson, the vet of Chestertown, was winner of the third race with John B. and second in the first race with Lady Thompson. Lady Thompson was sired by John B., a more racy looking animal you will seldom find on the grand circuit. Barring accident in her race with one of her quarter boots looks like Lady Thompson would have beaten Lucky Dick driving Plucky Prince. Lady Thompson will bear watching. In the third race John B. made his field look like an old-time fip. Critics say the Capt. is saving him for a killing, as they think 2.20 is easy for him to a byke. John B. was sired by Bedworth, Jr., 2.06¼.

SOME DUMB ANIMALS ARE WISE AS HUMAN BEINGS.

Marvelous Elephants, Too, as Well as Educated Horses, Make a Big Hit With Howe's Great London Show Audiences.

Not all of the many sides of interest of a circus pilgrimage is seen upon the bills. Could our readers but follow the magnificent horses all day as they go about the show ground they would be surprised by the revelation of horse sense.

There are to be counted with Howe's Great London Shows almost 200 head of horses, and they are all beauties, "perfectly lovely." Each of these horses can find the car in which it travels at night and can find its proper stall. In the morning when the train is unloaded it knows where to go and where to stand. It knows when its cage or den is ready to be taken to the ground; it sizes up the situation and where its load should be taken. The horse will find its proper place in the big horse tents, and when the parade is ready it knows where it should fall in. These circus horses know as much about the performance as do the people with the show. It has been claimed, and is probably true, that the ring and performing horses know when they will be needed in the ring; that they can tell by the music of the band.

The circus horses know when to pull and when to lay day; they know how to stand up in a moving car, and they know how to hurry in case of a storm. They can do everything but talk.

The entire institution is so complete in its immensity that only a generalization can be mentioned herewith. Don't forget the date, Saturday, Sept. 11.
