When Cook and Peary come together the North Pole fur will fly.

The announcement by the Baltimore Sun that it will support the suffrage amendment has taken the puff out of the Republicans and put enthusiasm into the Democrats.

The Cecil county court begins on Monday. It will probably be one of the most important sessions of court ever held in Elkton, owing to the very large number of murder cases. We understand there are four cases.

There are 60,000 negro voters in the State of Maryland. These voters are the backbone of the Republican party in the State so far as its numerical strength is concerned. Now which would the people of Maryland and Kent county prefer—a State and county governed by a white man's party or to live continually in fear and dread of negro domination which will surely confront us in the event of Republican success this fall?

The Democratic campaign was opened in Baltimore on Thursday night with a rousing mass meeting in the Lyric. Ringing campaign speeches were made by Governor Crothers, Senator Isidor Rayner, and Dr. J. W. Hering, candidate for State Comptroller. As is usually the case the Republicans will come after the Democrats. That will be the case in the election, too. They'll come after the Democrats.

The one great desire of the Republican party is to secure control of the next Legislature in order to change the election laws in such a manner as will give their 60,000 negro voters, few of whom pay any taxes at all, the right to dictate the policies of our State government. This is a most dangerous thing to do, because the negro voter is simply awaiting another Republican victory in order to claim the right to hold office, which by means of their numerical strength, they have a right to demand.

Former Governor Warfield, through the columns of the Sun, on Wednesday declared emphatically in favor of the proposed suffrage amendment. The Governor declares that the present amendment is free from the objections he urged against the Poe Amendment, and that it conforms to his view of a proper disfranchisement amendment. The Governor's stand for the amendment puts another nail in the Republican coffin and is a winning stake for one of the best Governors the State of Maryland ever had.
