Improvements to Municipal Building.

Several important improvements have been made in the new municipal building during the past week. Messrs. Lofland & Culp, contractors, have installed a fine hot air furnace which furnishes excellent heat and is up-to-date in every respect. A beautiful curtain has been secured for the stage in the hall by President Thos. D. France, who is untiring in his energy and interest for the welfare of the building and the people of the town, and the Commissioners' office in the building is being made ready for occupancy. Mr. Maxwell Blakeney is lettering the large glass windows in artistic style. A supply of helmets, coats and gum boots has been purchased and were tried for the first time at the big fire on Friday night. It is sincerely hoped that the town Commissioners and the Water Board will use the rooms that have been provided for them. This was the idea of the people in constructing the building, to provide a municipal building where the public offices could be located and where the firemen could have their headquarters. The firemen are using their part of the building, and it is hoped that the Commissioners and Water Board will "move in". The building is an ornament and the firemen are exerting their utmost efforts to have every convenience and comfort for those who should occupy it.
