The hen's winter diet is lacking in egg-making material. More of her food must be used in keeping her body warm. Egg production, naturally falls off. Fairfield's Egg Producer supplies the egg-making material, increases egg production and prevents disease.

Fairfield's Blood Tonic for Horses Only neutralizes poisons produced by undigested foods fermenting in the intestines. It strengthens digestion, purifies the blood, perfecting the health and increasing the animal's working ability.

When hay, grain and fodder are "cured," the nutritive and digestive elements in the Saps are lost. Fairfield's Blood Tonic, added to the ration, restores the lost elements, makes food digestible, purifies the blood and perfects the health.

The extra vitality required to digest the Cow's winter foods is drawn from her milk secreting organs, weakening them and cutting down the milk supply. Fairfield's Milk Producer makes winter foods digestible, strengthens all organs and increases milk in quantity and quality.

Make your hens lay their eggs while you can get good prices. Fairfield's Egg-Producer makes the hen keep up her summer average in the winter by supplying egg-making material and stimulating the egg-producing organs.

To rid a horse of worms without putting him out of commission, use Fairfield's Blood Tonic for Horses Only. It acts in Nature's way, perfecting digestion and nutrition, purifying the blood and expelling all poisons and impurities.

Undigested and fermenting foods interfere with the hen's production of eggs, and often cause cholera and other poultry diseases. Fairfield's Egg Producer stops fermentation, strengthens digestion, eliminates waste and increases egg production.

Roup is prevented and cured by the regular use of Fairfield's Roup Remedy in fowls drinking water. It purifies and cleanses the parts affected and destroys the germ. Four oz. bottle, 25 cents.
