Subscription \$1.00 Per Year

GOVERNOR CROTHERS has vetoed the bill granting Jesse G. Dwyer a pension of \$200 per year.

THE law requiring a new assessment of real and personal property went into effect on Thursday. The County Commissioners should make their appointment for the districts at their next meeting.

OF THE 762 bills passed by the Maryland Legislature, Gov. Crotthers vetoed 124. He lopped off \$300,000 from the general appropriation bill, and yet the State faces a rise in the tax rate of 3 1/2 cents in 1911, 1/4 of which is to be used in paying for roads at the rate of \$10,000 per mile.

IT LOOKS very much like Teddy is being "groomed" by the nations of the Old World to make the race for the American presidency in 1912. The French people, don't you know, say that Teddy is one of the greatest of all living self advertisers, and it begins to look like it is the truth.

THE pardon of Col. Cooper by his close political friend, Governor Patterson, is a dark blot upon the history of Tennessee. Cooper was tried by a jury of his peers for killing Senator Carmack, a noted orator and newspaper man. The jury declared Cooper guilty and the court sentenced him to 20 years in the penitentiary. Now the Governor of the State pardons him because he doesn't believe his guilty.

A FAITHFUL dog protects his master's home and prevents his treasury from being robbed. When robbers approach he arouses the people by the only means at his command—barking. A lazy, good for nothing dog will sit by the way and allow the robbers to plunder all they please, and will not make the slightest sound to arouse the people to their danger, except to growl at the other dog's courage and fidelity. Let the dogs bark if they are minding the people's business. It is the lazy good for nothing dog that never sees anything to bark at.

THE TRANSCRIPT was the first paper in the State to announce that Associate Judge Wm. H. Adkins will be a candidate for the chief judgeship to succeed Chief Judge James Alfred Pearce upon the expiration of his term in 1912. The announcement did not bear the official stamp, however, and was given as a well founded rumor. We are in a position now, however, to state that Judge Adkins would be very glad to receive the nomination for chief justice, and will be glad to have the endorsement of his friends for the high honor. It is generally acknowledged that Judge Adkins is a jurist of marked ability and his popularity throughout the circuit is pronounced. Should Judge Adkins determine to make the race, he will make a most formidable candidate.

MILLINGTON BANK SLIGHTED.

Echoes of the folly of passing the law requiring the treasurer of the county to deposit the county funds in the three banks of Chestertown and discriminating against the Millington bank are coming to Senator Slay and Mr. Willis in no uncertain language. The Millington bank has a larger percentage of reserve fund than some of the other banks which have been designated as depositories by the law, and the directors of the Millington bank have done as much politically, for the forces who put the bill through the Legislature as have the directors of the favored banks. It is a great mistake to neglect to include the Millington Bank in the "hand-out" and it was by no means fair treatment to its directors. It looks very much as if the framers of the law believe the Millington bank is an unsafe institution and not a suitable depository for county funds. The statement of the Millington Bank shows the contrary is true.

THE TRANSCRIPT is being receiving congratulations from all parts of the county during the week upon the fearless stand the paper has taken editorially upon those questions which most vitally concern the interest of the people. Of course it has been censured. But so long as a paper tells the truth and has the courage to defend its principles and policies it is going to be censured where the truth of its statements strikes "home" good and hard, and strange to say, the very people who condemn the paper most severely, are the very ones who can hardly wait for it to leave the press, so anxious are they to read it, and don't you know those same people are not Anti-Organization people either. We have heard too much during the past week for us not to be aware of the influence of the paper's utterances upon those who do not agree with it politically. We are glad to hear of this criticism, because we understand thoroughly the significance of it, and we know precisely from whom it comes. It is not doing the paper or its friends the slightest harm; such slurs and sarcastic remarks serve only to weaken the fellow who makes them, when he knows his cause is a weak one and must needs have some sort of defense. But after all, what is a paper worth to its constituents, if it has not the courage to defend the right and protect its friends. The men that counts for anything nowadays is the man who has the courage of his convictions and dares to do the right as he believes it to be right. The day for the molycolle is past. So take courage, and all you good people who go over to borrow your neighbor's Transcript before reading any other county paper, send us a dollar, and get in line with all the other good people who are taking the paper and reading it. There is not a week that it does not contain something interesting and profitable to the people.

THEY ARE IN A STEW.

The Slay road bill has already got the Organization forces in a stew. The road workers are disgruntled because they fear they are going to take their jobs away, and the tax-payers are disgruntled because they know the law is a farce so far as it relates to their welfare. If they take the roads out of politics, such as they claim they will do, they will lose the support of those whose only reward for political efforts is a small piece of road to work, and if they allow things to continue as they have been doing, they will lose the support of what few tax-payers they have left. It is up to the Organization forces to get out of their present predicament, and they'll have enough of trying to get even with Hope H. Barroll before the next primaries roll around. Then, too, they are up in the air over the appointment of a road engineer. A deal had been fixed up to make a certain man engineer, provided one man would get out of another man's pay for Senator a year hence, and most of the Organization strength has gone to another man. And yet they are going to divorce the roads from politics. If they are playing politics in the appointment of an engineer, what are we to expect when they go to "give out" the roads? It will be the same old thing, and there is going to be trouble anyway they go. So let them crack their whip. The Antis will sit on the fence and throw peanuts at the politicians and their candy will be an all day sourball sucker before long.

CAROLINE VS. KENT.

Caroline county has 706 miles of road, and the road engineer of that county, who is under the supervision and control of the county commissioners, employs on the roads from 25 to 30 men during the road working season, at a cost of \$14,429 per year. Kent county has 427 miles of roads. How many men should the Kent county engineer employ to work our 427 miles of road, if Caroline only employs 25 or 30 to work properly satisfactory 706 miles? If Kent county employs all the men that are necessary to properly work the 427 miles of road she cannot conscientiously employ more than does Caroline to work satisfactorily 706 miles of road, and if that is the case, many of the men in Kent county who have been working the roads in Kent county will be without a job, and if any greater number of men are required to work 427 miles of road than are required to work 706 miles, the tax-payers of the county will know immediately that the roads are being worked for political advantage, just as they have always been, because there is no reason in the world why 40 men should be employed to work 427 miles of road, when only 25 or 30 are required to work properly and satisfactorily 706 miles, and besides, if Caroline county only needed \$12,000 for working 706 miles of road in 1909, and actually spent \$14,429, exclusive of the cost of bridges, why should Kent county be required to spend any more than \$8,000 in working properly 427 miles of road, especially after \$30,000 was squandered on them from June 12, 1909, to Dec. 1, 1909?

The Organization element of the party passed the Slay road law, and they must take the responsibility for it. They will be held responsible by the tax-payers as well as the road workers. Now let them prove to both elements that they mean what they have said, that their reason for passing the Slay road bill instead of the Caroline law, is "to take the roads out of politics." Actions speak louder than words, and "by their works, ye shall know them."

It gives better results than any other harrow and leaves the ground in better condition. In construction the Imperial Double Disc consists of a complete out-throw harrow with a second harrow (in-throw) attached by a flexible frame. The forward harrow cuts the soil and throws it outward; the rear harrow works it again and throws it back, leaving the surface finely divided and perfectly level. The rear gangs follow the front gangs in turning and the dirt is not thrown up in ridges at the corners. Every inch of ground is pulverized and leveled. The rear gangs may be quickly and easily detached and the machine used as a single disc harrow if desired. Write us for particulars and prices.
