Attention, Officers.

We have received a communication from a prominent resident of the upper section of the county complaining very bitterly against the driving on the county roads near Locust Grove by a band of colored men whose reckless driving and bad conduct endangers the lives of many who happen to be on the public road. This reckless driving occurs regularly three or four nights in the week, and the farmers' horses are being taken from the pastures and stables and almost driven to death. The citizens of that section of the county are determined to break up this cruel practice and they have invoked the aid of the officers of the law. The officers should look into this matter and arrest any man who practices such cruelty upon dumb animals. Deputy Sheriff James Bolton went to Locust Grove recently and arrested two bad characters, and a third one named Raymond Anderson, who shot a man and broke up a festival Saturday night is still at large. The citizens are willing to give all aid possible to the officers who are urged to break up that rowdyism on our public roads before some serious injury results.

American Fence!

The development of the American Fence, the years of experiment and hundreds of thousands of dollars that have been put into the work of perfecting machinery and producing the grade of special steel that makes AMERICAN FENCE what it is to-day, is a long story. The makers say:
We have succeeded in producing a composition in steel that is perfectly adapted for fencing making. We have been using this special steel long enough to know that it has increased many fold the value of American Fence to the user and firmly believe it to be as near perfection as can be obtained. Wire drawn from this steel, while hard is not brittle. It is stiff and springy, but pliable enough to be easily spliced. There is such a distinction as live steel and dead steel. Every wire in AMERICAN FENCE as now made is alive all the time, always ready for emergencies and absolutely reliable

Galvanizing the Best.

We fully realize the great importance attaching to this part of the work, and we spare neither pains nor expense in an honest effort to have our galvanizing the best both as to quality and method of application.
We know beyond possibility of doubt that our galvanizing to-day is immeasureably better than in years past. We are now able to cover the steel more uniformly, make the galvanized coating more elastic, and on the whole furnish the best article in galvanizing that is possible to produce.

Our Stock of AMERICAN FENCE

is now full and complete and we are prepared to furnish you with any style and quantity. REMEMBER that American Fence has stays six and twelve inches while on some makes of Field Fence the stays are as much as fourteen inches apart, and yet they cost as much money as American.
You can rest assured that when you get American you get the best.
Catalogue mailed on request.

A SHOE OPPORTUNITY!

I HAVE made arrangements with the largest and finest Shoe Factory in the world to handle their line of Shoes as soon as my new store room is completed. This line of Shoes is known and sold not only in almost every city in this country, but also in Europe. In the meantime my whole stock will be closed out at cost, giving everybody a chance to buy Shoes, and Shoes of quality, at wholeslale price for the next 60 days. This is an opportunity that should no be neglected.

RESPECTFULLY,
THOMAS S. BORDLEY,
CHESTERTOWN, MD.

NOW IS THE TIME
To See About Your Painting.

I give my personal attention to every detail of every painting job. A large part of my success is due to the fact that we use only the best material, Lewis white lead, (Dutch Boy painter, trade mark) and absolutely pure Linseed Oil, our other materials are of equially high value. Always ready to show sample cards and quote prices. Let me estimate on your painting.
