## AMÉLIE RIVES

Now the Princess Troubetskoy

has written a new novel for Lippincott's Magazine which bids fair to overtop the reputation of her first great work, "The Quick or the Dead." As in her first story, the scene is laid in Virginia, her beloved Southland. The plot is one of the most remarkable and absorbing that has ever appeared between covers. Don't wait to get the October number of Lippincott's in which Amélie Rives' great story appears. The number containing "The Quick or the Dead" was sold out in a flash. There will be an even bigger demand for her new story.

**FREE** Three good numbers—October (containing the new Amélie Rives' story) and the November and December issues with each yearly subscription to begin with the January, 1912 number. Send $2.50 to-day and get fifteen numbers for the price of twelve.

Lippincott's Magazine Philadelphia

Note. After January 1st the yearly subscription price to Lippincott's Magazine will be advanced to $3.00 a year.

## WHY CORN IS KING.

### Feed for Entire Meat Eating World—Also Used in Manufactures and for Bulkheads.

Corn is the king of the grains in the number of bushels produced and in all around usefulness, declares Farm Machinery. It is the foundation for the livestock industry in the United States, especially hog raising.

Corn is used directly for food by thousands of people, in the form of corn bread, hominy and many excellent dishes. Indirectly it is the food for the entire meateating world, but aside from its food uses there are many others that many people have never heard about.

People who like to talk in millions and billions should revel in discussing the corn crop. Corn was the gift of the New World to the Old. It probably originated in Mexico. Now it is grown all over the world and the average annual crop is about four billion bushels. The United States furnishes two thirds of that total.

Every year some new use is found for corn. In the old days there were only two ways to dispose of it—to feed it to cattle and in the shape of cornmeal, to some people. The meal had to be for local consumption, because when made as it then was, from the whole kernel, it soon became rancid.

From the germ, which is separated from the kernel in the milling process, the oil is extracted by chemical and mechanical processes and constitutes a product which is coming into use in the manufacture of paint.

The vulcanized oil is used extensively in surfacing linoleum and oilcloth and is applied to a number of other purposes. After the oil is extracted there is left valuable residuum known as corn oil cake, which is sold here and abroad and is used in the fattening of sheep and other animals. Nearly fifty million pounds of this material are annually shipped to Great Britain and Germany and there used by farmers, who find it cheaper than materials of a similar nature which they can grow at home.

A corn product which is coming into extensive use is glucose, made from starch, water and sulphuric acid. Confectioners use large quantities of glucose, which is a colorless, sweetish syrup useful as food when propely taken. Nearly two hundred million pounds of glucose are sent out of this country each year to all parts of the world.

From cornstarch also comes dextrin of several kinds, used extensively in the making of glue, paste and mucilage. When one licks a postage stamp one gets a taste of dextrin, flavored often with some harmless preservative.

One other use of corn may be mentioned as in all probability having an important bearing on future industrial pursuits. Denatured alcohol is already extensively manufactured from corn, both at home and abroad. Despite the advancing price of the grain it is still one of the most economical sources of a product which under different legal restrictions from those now in existence may become important as a source of heat, light and power in homes, especially farm houses.

Experiments conducted here and abroad demonstrated that bulkheads constructed of cornstalks were nearly impervious to water when a shot passed through them. Some of the largest ships are now protected with a belt of corn with celulose made largely from corn grown in the Ohio Valley. The same material, or modified forms of it, is used in the manufacture of high explosives, such as guncotton and smokeless powder.

Pyroxylin varnish, another material made from celulose, is a very useful product manufactured in connection with the other products just mentioned.

From time to time the attention of the country has been directed toward the vanishing supply of wood for the manufacture of paper or paper pulp. Various attempts have been made to manufacture paper from other materials and a good many years ago samples of fine paper were produced from cornstalks. The processes as followed were, however, not economical, so that the work was abandoned. More recently new light has been thrown on the subject through improved methods and processes.

Like the grain the stalks contain a number of products which can be separated under proper chemical, physical and mechanical processes. It has been demonstrated that a form of low grade molasses can be taken from cornstalks without any way detracting from their value for the manufacture of paper.

In passing it would be well to call attention to another part of the corn plant which is considered a more of less useless thing by the farmers, the cob.

With the increased knowledge which experimental work has developed at the agricultural colleges and stations the usefulness of this material as a stock food when ground in connection with grain has been shown.

Large quantities, therefore, of ground grain and cobs are now used for feeding. The cob is also ground and mixed with various highly concentrated feeds such as cottonseed meal and sold for stock food. Large quantities of cobs furthermore are utilized in certain parts of the Mississippi Valley in the manufacture of corncob pipes.

**Prof. G. F. THEEL, 535 North Sixth St.** Philadelphia, Pa. "Ein Deutscher Arzt." Only German Specialist. The GERMAN TREATMENT the only guaranteed cure for Specific Blood Poison others can't cure. All Private Diseases, Excesses, Abuses, Weaknesses, Nervous Debility, Lost Manhood, Drains, Losses, Varicocele & Stricture, (no cutting) Kidney & Bladder, Small Shrunken Organs. 42 years practical & 6 years hospital experience in Germany. ## Help The Kidneys.

### Chestertown Readers Are Learning the Way.

It's the little kidney ills—
The lame, weak or aching back—
The unnoticed urinary disorders—
That lead to dropsy and Bright's disease.
When the kidneys are sick,
Help them with Doan's Kidney Pills.
A remedy especially for sick kidneys.
Doan's have been curing kidney troubles for 75 years.
Endorsed by 50,000 people—endorsed at home.
Proof in a Chestertown citizen's statement.

S. F. Robinson, N. Calvert St., Chestertown, Md., says: "Besides having trouble from my bladder, I also suffered from backache. The passages of the kidney secretions were irregular and attended with pain. Doan's Kidney Pills were the best kidney medicine I ever used, giving me great relief. I heartily recommend this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## SPECIAL NOTICE TO THE LADIES!

Our large purchases of LADIES' SUITS for this season are now completed and the final lots have arrived, and are ready for selling. These SUITS are just what you are looking for. Our strong argument is that you get them just a "*little cheaper*" than elsewhere. These specials should sell at sight.

### Prettiest Wash Fabrics Here.

We say prettiest, for surely there never were any prettier Wash Fabrics than these we are showing. Organdies, Dimities, Batistes, Lawns, French Ginghams, Voiles crowd each other for room, and when you consider that the prices are so very low the goods become very tempting.

### EMBROIDERIES.

There are All-Overs, Edgings and Insertings—baby widths, medium widths and flounce widths. Patterns from a fraction of an inch to a half a yard, with unusually liberal margins. The designs are beautiful, artistic and diversified. Neat exquisite effects for baby cloths and women's lingerie, dainty styles for trimming waists and showy elaborate combinations for flounces and ruffles.

Subscription to the Transcript $1 per annum.

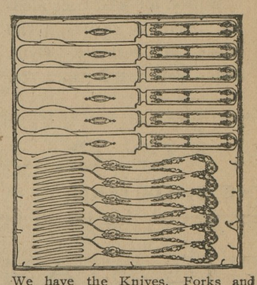

## THE DINING ROOM

is used oftener than almost any other room in the house. That is why it should be made the most comfortable spot, and be pleasingly arranged.

Without cut-glass and silverware a dining room makes little impression and is hardly homelike.

A few pieces of cut-glass and silverware tastily arranged will make a wonderful improvement in the dining room.

If you are looking for a Wedding Present or something for home use, it will pay you to see our line of Cut Glass and Silverware.

We have the Knives, Forks and Spoons as well as many Berry Spoons, Cold Meat Forks, Ladles, etc.
