PUBLIC FOOTS THE BILL.

A strike of coal miners involving half a million workmen would be a national calamity that ought to be averted. It would be, moreover, a catastrophe which would fall upon the shoulders of the public. Labor leaders and many honest, although misguided people, imagine that the cost would be borne by the rich corporations that operate the mines.

Such a conclusion is wholly false. The final result of the last big strike in 1902 can be summed up in this way: The miners lost their wages for five months, the public paid a dollar a ton more for anthracite, and the operators by mining more coal at the enhanced price soon recovered virtually every cent which they had temporarily lost.

Higher wages or shorter hours mean a greater price for coal. That fact cannot be escaped. Consequently, when a tremendous strike is threatening the people at large ought to know beforehand who will foot the bill. The wider jury of the public favors reasonable wages, but it must condemn either the powerful corporation or the stubborn miner who refuses to listen to fair arguments.—*Philadelphia Press.*

REV. CORKRAN WON.

Rev. Dr. Wilbur F. Corkran, who last March was expelled for one year from the Wilmington M. E. Conference for stock dabbling, has recently won a legal victory in the Pennsylvania courts. A suit was entered against him in that State for $1,200, the action being brought to recover the amount on a promisory note. Dr. Corkran says he gave the note in payment for stocks in a gold mining project. In accepting the note the promoter of the mine is said to have assured Dr. Corkran that if the project was not a success he would look after and protect the note, but if it was a success the money received from the sale of the shares of stock would be ample to meet the obligation. The promoter is said to have sold the note to another party who brought suit to collect the amount. In his communication to a friend recently Dr. Corkran informed him that the case was dismissed and expunged from the record of the court, upon the application of his attorney.

CAPT. CRANE'S RAILROAD BILL.

Still another blow at the raiload companies was aimed Wednesday in the House of Delegates, when a bill prohibiting any railroad from charging more than 2 cents a mile was offered by Delegate C. E. Crane, of Kent county.

The bill says.

"It shall not be lawful for any railroad company operating its lines of railroad in the State of Maryland to charge more than 2 cents a mile between stations in this State; provided however, that whenever the distance between stations includes a fraction of a mile, the said company may charge the full fare of 2 cents for the fraction; and provided, further, that no such company shall be required to sell any ticket for fare between stations from the point of sale for less than 5 cents."

A fine of $5 for each violation of the provisions of the bill is provided.

AGAINST CANAL CHARGES.

Kent Countian Says They Would Fall On People Who Travel.

Speaking of the proposed toll charges on the Delaware and Chesapeake canal, a prominent resident of Kent county, who has had experience with the Ericsson Steamboat Company and the canal for 40 years, said yesterday:

"The Ericsson Line has three wharves in Kent county—one at Kennard's Point, another at Judge James S. Harris' farm and a third at Betterton. All three have opened up a large territory. The one at Betterton cost $40,000 and has increased the assessable basis of the village from $2,000 to $100,000. Six hotels have been erected and there is a population of about 1,000. The Ericsson Line should be credited with 75 per cent, of this improvement.

"Along the Elk river several wharves have been built to Chesapeake City and through the canal improvements have been made to the Maryland and Delawar line. The company does an immense freight business, on which the canal company charges a toll of 25 cents on the dollar, an enormous percentage. The company's New York boats formerly passed through the canal to the Raritan canal, but the freight charges imposed by the railroad company were so great that the route had to be abandoned and and the boats sent around the Capes to New York.

"Petitions will be circulated at once in Kent and Cecil counties and an effort made to secure 3,000 names to present to the Legislature objecting to the increased tax.

"There is no question but that this tax will fall upon the people, as the fare will be increased should the toll of 50 cents on each passenger be imposed. Our people in the Legislature must remember that Maryland has $80,000 in the canal. No report has been made to the State for years and no directors have been appointed in the company by the State for the past 20 years."

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fall me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating, and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.
