H. H. BENEMAN

MILLINGTON, MARYLAND.

Owing to the extremely warm weather here of late we have on hand a large stock of heavy weight goods which we are closing out at a very low figure.

Our special price on our entire line of Men's, Youths' and Children's

Clothing and Extra Trousers

Also special reduced prices on all UNDERWEAR, BLANKETS, COMFORTS, Ladies COATS, SKIRTS, WRAPPERS, BOOTS AND SHOES and others too numerous to mention here. A call will convince you of this statement.

We are still giving away with EVERY TWENTY-DOLLAR PURCHASE

Free-A Life Size Picture

of yourself or friend. A great many of our customers got them and are greatly pleased.

Poultry and Eggs Taken in Exchange at Highest Market Price

OUR MOTTO—What we advertise we sell; what we sell it advertises us.

H. H. BENEMAN

MILLINGTON, MARYLAND.

FOR EARLY APPLICATION THIS SPRING

WE OFFER OUR ASPARAGUS FERTILIZER
WE OFFER OUR OAT FERTILIZER.
WE OFFER OUR GRASS FERTILIZER.
WE OFFER OUR POTATO FERTILIZER.
WE OFFER OUR CORN FERTILIZER.
WE OFFER OUR PEACH TREE GUANO FRUIT GROWER.

These are all right

BUT TOMAOTES!

WHY IS IT Peerless outsells all other Tomato goods?
WHY IS IT Peerless sells higher than other brands?
WHY IS IT other fertilizer men say their Tomato Fertilizer is as good as Peerless?

The answer is easy—everybody knows it.

QUALITY

Captain Emory grew on one occasion 17 tons per acre. Mr. Zac T. Gilbert grew 19 tons to the acre. Mr. G. W. Collins has bought as high as 50 tons per year, and his men grew from 12 to 15 tons per acre. We have sold already in Anne Arundel county, the lower counties and New Jersey, hundreds of tons already. Messrs. Baker and Morgan have bought as high as twelve hundred dollars worth: Messrs. Smith, Rouse & Webster have bought in the past as much as several thousand. Captain Dashiel says he would have it if he had to give $50.00 per ton for same. Mr. Joseph Downey says when he was canning that he could actually tell the difference in tomatoes grown with Peerless when brought to his cannery. Mr Numsen says he knows that tomatoes grown with our goods are fine. Mr. Frank Moore who runs Assaw Bains & Co.'s cannery, says the best comatoes brought there are from Peerless. Mr Loose, a customer of his, says a ton of Peerless grew him $96 00 worth more tomatoes than another goods costing $7.00 less per ton. Mr. Money says it is certainly good. We could go on, but with a testimonial will close.

Unsolicited, some time ago Mr. W. S. Elburn & Son came into our office and said: "I believe your Peerless to be the best tomato goods I ever saw. You remember what an advocate I was of it when I lived out at the mill. Well, wherever I have lived since, on the Western Shore or elsewhere, I would have it, and last year I put some of this same goods on some onions grown from the seed, and they were as fine as Bermudas. Many measured 4 inches in diameter, and I grew over 600 bushels per acre, or at the rate of 1162 baskets. I used it on strawberries and picked 8000 quarts per acre.

The above testimony should, therefore, be convincing.

Respectfully,

WILBUR W. HUBBARD,

CHESTERTOWN, MARYLAND

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

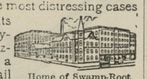

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

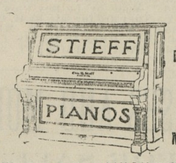

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

THE BACKBONE.

Its History Linked With a Theory of Animal Evolution.

The history of the backbone, like that of most life, is not altogether a majestic upward evolution. It has its tragedies and its setbacks, its hopes and failures. In the waters along our seashore are creatures, some sponge or lichen-like, others with strange bulblike bodies, growing on the end of long stalks. But they hold a secret from the crabs and snails which crawl about, and when the fishes brush against them—if their poor, dull sense only knew it—they might claim a blood brotherhood. When they were young, for a little while a gristly cord was theirs also, but this, with all the hopes that such a beginning brings, of fish, of bird, of man even, soon melted away, and there they nod and sway in the watery currents, never to know of the opportunity which nature has snatched from them—why, who can tell?

In sharks the backbone has become jointed and flexible and a rude kind of skull is present, but still more important is the presence of four fins, which correspond to the four legs of lizards and to the wings and legs of birds. A curious basket-like skeleton protects the delicate gills, and it is probable that this existed long before the limbs appeared. All is still of gristly cartilage.

In the higher fishes bone replaces the cartilage, and when the lowly tadpole, fishlike at first, swimming about by means of the fin around his tail, pushes forth his legs and climbs upon the land our skeleton is well on its way backward. Reptiles of old took to trees. Their backbone grew less flexible so that they might safely sail through the air, feathers replaced scales, two fingers of each hand were lost and one from each foot, teeth disappeared, a beak of horn proved best, intelligence increased and the forehead rose high, and behold—a bird!—Outing Magazine.

BATTLE OF MARATHON.

The Most Decisive Day In the History of the World.

The single day in the world's history which was fraught with the most tremendous consequences to mankind was the day on which the battle of Marathon was fought. The handful of tiny states that inhabited Greece had developed faculties which indicated that man had advanced another stage toward the highest ideals.

Foremost among those little nations was Athens, which state, too, contained the germs of human freedom. It was the forerunner of the democracies of the world. But the very existence of Athens and Greece was threatened by the huge barbaric empire of Persia. Darius had sent out his hordes of warriors to add the Grecian states to his vast dominions. Face to face his forces met the Athenians on the plains of Marathon.

Hitherto invincible in the field, the Persians looked upon the little army opposed to them with contempt. The Greeks themselves hesitated to hazard a battle with the conquerors of the world. Their generals debated the question, and the decision to fight the Persians was caused by the eloquence of the immortal Miltiades. He led his 10,000 Greeks against the Persian host and gained a decisive victory. The glorious day of Marathon beat back the advancing tide of eastern despotism and barbarism and saved the freedom and civilization of the western world. —Pearson's Weekly.

A King's Ruse.

Alfonso, king of Aragon, was one day examining the different articles in his jeweler's shop in company with many ladies of his court. He had scarcely left the house when the jeweler missed a diamond of great value and ran after him, complaining of the theft. The king, not willing publicly to disgrace any of his attendants, commanded a large basin full of sand to be brought him, into which he directed each person to put in the hand clinched and to draw it out flat. By this means the diamond was left in the sand, unknown by whom.

Calcium.

Calcium was first made in minute quantities by Humphry Davy. In the new process chloride of calcium is placed in a receptacle and fused by electrolysis. An iron cathode forms a basis upon which the molten calcium deposits itself, and the once rare metal builds itself up into an irregular rod resembling a cabbage stalk. When the stalk has grown to the right length it is chipped off and dipped in paraffin wax to preserve it from the action of the air.

Three Strange and Remarkable Men.

As Dumas, the grandfather, prided himself more upon his wonderful strength and skill in athletics than his generalship, as Dumas the second prided himself more upon his knowledge of cookery than the authorship of "The Three Musketeers," so Dumas the third prided himself more upon his knowledge of art than upon the writing of "La Dame aux Camelias." They were three strange and remarkable men.

At Their Own Expense.

"Do you joke writers ever make jokes at your own expense?"

"For the first few years all our jokes are made that way. After that, if we're lucky, we get paid for 'em."—Cleveland Leader.

The Bargain.

"You ought to take this horse," said the dealer. "He is a bargain."

"Well, then, I don't want him," said the customer. "I want something to drive, and I never could drive a bargain."

The most manifest sign of wisdom is a continual cheerfulness.—Montaigne.

The Dodging Period

of a woman's life is the name often given to "change of life." Your menses come at long intervals, and grow scantier until they stop. The change lasts three or four years, and causes much pain and suffering, which can, however, be cured, by taking

WINE OF CARDUI

Woman's Refuge in Distress

It quickly relieves the pain, nervousness, irritability, miserableness, fainting, dizziness, hot and cold flashes, weakness, tired feeling, etc. Cardui will bring you safely through this "dodging period," and build up your strength for the rest of your life. Try it.

You can get it at all druggists in $1.00 bottles.

"EVERYTHING BUT DEATH

I suffered," writes Virginia Robson, of Easton, Md., "until I took Cardui, which cured me so quickly it surprised my doctor, who didn't know I was taking it."

WILLIAM W. BECK, Attorney.

Order of Publication.

Samuel W. Cole,
versus
Samuel Mason, Mary Mason, Mary E. Little, Joshua Little, Serena Mason, Emma Smith —— Smith, her husband, John Mason Alda Mason, Clarence Dare, Eugene Dare

In the Circuit Court for Kent County Maryland. No. 1584.

THE OBJECT of this bill is to secure a decree for the sale of the real estate of Jas Henry Mason.

That James Henry Mason was in his life time indebted unto your orator, Samuel W. Cole, in the full and just sum of one hundred and fifteen dollars, with interest thereon from the 16th day of March, 1905, upon a certain promissory note, dated the 16th day of June, 1904, filed herewith, and marked Plaintiff's Exhibit No. 1.

That the said James Henry Mason being so indebted unto divers other persons, and having real estate of some value but no personal estate sufficient to pay his debts, departed this life some time during the year 1905, leaving no widow but the following children and grandchildren surviving him as his heirs at law: Samuel Mason, who married Mary Dorman, and both reside in Kent county, Maryland; Mary E. Mason, who married Joshua Little, and both reside in Kent county, Md.; Serena Mason, who resides in Kent county, Md.; John Mason, who married Alda ——, and are non-residents of the State of Maryland, residing in New Jersey; Emma Mason, who married a man by the name of Smith, the first name of whom is unknown, and a non resident of the State of Maryland; and that the said James Henry Mason had one daughter by the name of Matilda Mason, now deceased, who left two illegitimate children, Clarence Dare and Eugene Dare, and both are minors under the age of twenty-one years and Clarence Dare resides in Kent Co., Md., and Eugene Dare is a non resident and resides in State of N. J.

And your orator is informed and believes that the said James Henry Mason left a small and insufficient personal estate for the payment of his debts, and in order to pay the debts of your orator and others it is necessary for the said real estate to be sold, which real estate consists of a house and lot on the north side of the road leading from Millington to Smyrna, in the First Election District of Kent county, Maryland, adjoining the property of Zion Potts and others, and there is nothing else out of which your orator can secure the payment of his claim. To the end, therefore, that the said real estate of the said James Henry Mason, deceed, be sold for the payment of your orator's debt, and the other debts which may be due from the said James Henry Mason, and that your orator may have such other and further relief as his case may require.

It is, therefore, this 5th day of April, 1906, ordered that the complainant, Samuel W. Cole, by causing a copy of this order to be inserted in some newspaper printed and published in Kent county, Maryland, once in each of four successive weeks before the 14th day of May next, give notice to the said non-resident defendants, John Mason, Alda Mason, Emma Smith and —— Smith, her husband, and Eugene Dare of the object and substance of this bill, and warning them to appear in this court in person or by solicitor on or before the 1st day of June next to show cause, if any they have, why a decree ought not to be passed as prayed.

WILLIAM W. BECK, Attorney.

Order of Publication.

James Clark,
versus
Nicholas Cann, Heneter Desheals, Glany Cann, George Clark, Thomas Clark, Adda Clark, Sarah Clark, John Clark, Alfred Clark.

In the Circuit Court for Kent County, Maryland, in Equity No. 1583.

THE OBJECT of this bill is to procure a decree for the sale of the real estate of Mary Cann, late of Kent county, deceased, and to divide the proceeds among the heirs at law.

The bill states that Mary Cann departed this life about the year 1901, and was in her lifetime seized and possessed of a certain tract of land situated on the west side of the public road leading from Hanesville to Worton Point in the third Election District of Kent county, and containing four acres of land, more or less, which was conveyed to the said Mary Cann by deed from Wilbur Stephens about the year 1884.

And the bill states that the said Mary Cann died intestate, leaving the following children, namely: Nicholas Cann, Heneter Desheals, Glany Cann, and the children of her daughter, Susan Clark, namely: James Clark, Thomas Clark, Adda Clark, Sarah Clark, John Clark and Alfred Clark. Nicholas Cann is single, and Heneter Desheals' husband is dead, and Glany Cann is single.

And that the said Susan Clark intermarried with one James Clark, and they are both dead, and left the following children, namely: Your orator, James Clark, George Clark, Thomas Clark, Adda Clark, Sarah Clark, John Clark and Alfred Clark.

And that the said Heneter Desheals and Glany Cann reside in Baltimore city, and that the said Nicholas Cann, George Clark, Thos. Clark, Adda Clark, Sarah Clark, John Clark and Alfred Clark are non residents of the State of Maryland; and that the said George Clark, Thomas Clark, Adda Clark and Sarah Clark are minors and under the age of twenty one years.

And the bill states that the said real estate is not susceptible of division among the parties entitled without loss and injury, and that some of the heirs being infants, your orator is advised he cannot have a valid sale without the intervention of this honorable court.

It is, therefore, this 5th day of April, 1906, ordered by the Circuit Court for Kent county, in Equity, that the plaintiff, by causing a copy of this order to be inserted in some newspaper published in Kent county once in each of four successive weeks before the 7th day of May, giving notice to Nicholas Cann, George Clark, Thomas Clark, Adda Clark, Sarah Clark, John Clark and Alfred Clark, non resident defendants, of the object and substance of this bill, and warning them to appear in this court in person or by solicitor on or before the 28th day of May next, to show cause, if any they have, why a decree ought not to be passed as prayed.

JAMES T. DIXON, Clerk.

April 7, 1906—4t.

PERMANENT meadows should have an annual dressing of 500 pounds per acre of a fertilizer containing eleven per cent. POTASH and ten per cent. available phosphoric acid.

This will gradually force out sour grasses and mosses from the meadows, and bring good grasses and clovers; thus increasing the quality as well as the quantity of the hay.

Our practical book, "Farmer's Guide," gives valuable facts for every sort of crop-raising. It is one of a number of books on successful fertilization which we send on request, free of any cost or obligation, to any farmer who will write us for them.

Address, GERMAN KALI WORKS,
93 Nassau Street, New York.
