Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant not because it is a palliative but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for a female trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular periods, bloating or flatulency, weakness of organs, displacements, inflammation or ulceration, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound. If advice is needed write to Mrs. Pinkham, at Lynn, Mass. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. No other living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

R. GROOME PARKS,

ATTORNEY-AT-LAW

Will practice in the Kent courts and also Baltimore City. jy10

THE drydock Dewey, on its way from Solomon's Islands, Md., to the Philippine Islands, has successfully passed through the Suez Canal and is now at Suez. It cost nearly $30,000 in tolls for the passage of the dock and her convoy through the canal. The dock has now covered about one-third of its long trip. It has yet 12,000 miles to go before reaching the Philippines, having gone about 6,000 already. The dock has been over four months in going one-third of its journey, and it will probably take until next December to complete the trip.

THE U. S. Senate and House have passed a bill providing for co-operation of the Federal Government with that of Maryland for a survey of the oyster lands of the State. Attorney General Bryan has sent an opinion to Comptroller Atkinson advising that the salaries of the Shell Fish Commission and its employees can be paid, but that the first $25,000 appropriated for oyster culture will not be available until next October. The passage of the bill by the United States Senate, however, will enable the Commission to go ahead with its preliminary work. The Kent Commissioners will name an officer in time to assist.

Do It Now.

"Let us all be friends and live together in peace and harmony." has our active endorsement. To our cotemporary's toast we would add the following creed: Do not keep the alabaster boxes of your love and tenderness sealed up until your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their ears can hear them, and while their hearts can be thrilled and made happier by them; the kind things you mean to say when they are gone, say before they go. The flowers you mean to send for their coffins, send to brighten and sweeten their homes before they leave them. If my friends have alabaster boxes laid away, full of fragrant perfumes of sympathy and affection, which they intend to break over my dead body, I would rather they would bring them out in my weary and troubled hours, and open them, that I may be refreshed and cheered by them while I need them. I would rather have a plain coffin without a flower, a funeral without an eulogy, than a life without the sweetness of love and sympathy. Let us learn to anoint our friends beforehand for their burial or cremation. Post mortem kindness does not cheer the troubled spirit. Flowers on the coffin cast no fragrance backward over life's weary way.

Earle Selected Engineer.—At a meeting of the Board of Shell-fish Commissioners held in Annapolis Thursday, Mr. Swepson Earle, of Queen Anne's county, was unanimously selected to be hydrographic engineer of the commission at $2.500 per year. Mr. Earle is 27 years old. He entered the Coast Survey Service when 18 years of age and for four years he was connected with the hydrographic office at Washington and participated in surveying the Chesapeake Bay and the West India Islands. He was second officer of the United States ship Matchless when that vessel was ordered to Porto Rico to complete the surveys of that territory for the Government. The last three years he has been connected with the Lighthouse Board and has had charge of getting out the weekly notices to the mariners. Mr. Earle is the inventor of the continuous sounding machine, which is now in use in Germany and will probably be used by him in his work in his new position.

Professionals.—When the four colleges entered into an agreement to form a baseball league all players for money (professionals) were to be barred. The management of athletics at Washington College, therefore preferred charges of professionalism against four of the players of the St. John's baseball team. The charges are against Reynolds, pitcher; Carroll, third base; Hoover, second base, and Mackie, shortstop. The men entered St. John's last fall. It is alleged by Washington College that they have received money for playing ball for Betterton, Belair and other teams last summer. It is further alleged that tuition scholarships and other inducements were given them to enter St. John's, The court holds that these men are professionals and therefore are barred.

St. John's made like charges against Wilson, McGinniss, White and Moore, of the Washington College nine. Washington College claims the eligibility of these men because they were students at that institution before they ever received money for playing.

Say It. Say It.

You paint by the square yard.

L. & M. Paint is a full square gallon.

L. & M. Zinc hardens L. & M. White Lead and makes L. & M. Paint wear like iron.

4 gallons L. & M. mixed with 3 gallons Linseed Oil will paint a moderate sized house.
