LOCAL MATTERS

To Leave St. Paul's.—Rev. Adelbert McGinniss will preach his last sermons as rector of St. Paul's Parish, this county, to-morrow (Sunday). Mr. McGinniss has resigned to accept the rectership of St. Elizabeth Parish, in Philadelphia, and will leave Kent, much to the regret of the many friends he has made during his short stay in Kent, some time during the coming week.

Dr. Toulson Honored.—Dr. Houston Toulson, son of Mr. and Mrs. M. A. Toulson, of this town has been elected assistant professor of Surgery in the University of Maryland, Baltimore, under Professor Shipley. This is a distinguished honor for our fellowtownsman, and the TRANSCRIPT extends its congratulations. Dr. Toulson will make his mark in the medical world.

Store Robber Caught.—Preston Johnson, colored, who robbed the store of Mr. George W. Covington, at Still Pond, some weeks ago, was located in Wilmington, Del., this week by Constable Thompson, of Still Pond, who notified Sheriff Brown. The sheriff and Mr. Thompson went to Wilmington Thursday and brought Johnson to Chestertown and placed him in jail. Johnson confessed to the robbery and said he got $68 in money and several checks, and that he burned the checks up.

To Provide a Rest Room.—The members of the Rich Neck Farmers' Club and the Federated Club, acting jointly, have entered into negotiations for providing a rest room and library for the people who come from the country to do their shopping, etc. The room will be designed especially for the ladies who are compelled to wait until their husbands have fiuished their business transactions. It is contemplated to rent the old Westcott residence on Queen street, which the owner, Mr. A. M. Culp, will shortly put in thorough repair and install modern improvements. If this can be done, it is hoped that the public library can also be moved to the same building.

Fifteenth Anniversary.—Dr. Henry B. Martin, rector of Emmanuel P. E. Church, Chestertown, will celebrate his fifteenth anniversary as rector of the above church to-morrow by a special sermon. During the rectorship of Dr. Martin many young people have been added to the membership of the church, and the church has been improved by the building of a new parish house, the erection of a bellfry and new bell, the latter a memorial to the late Mrs. Martin, and during the present winter a new steam heating plant has been installed in the church and parish house and a handsome new carpet placed in the church, together with other minor improvements. We wish for the doctor continued usefulness.

The battleship hat is to be the dominant thing in millinery this year. Whether the idea orginated in Paris or Chicago we can't say; but we have the tip straight from Chicago that the light armored cruiser hat, dull gray in color, built close to the head, is to be the sure thing in head gear when the spring openings are on. Another lovely thing in spring bonnets has been christened "the stovepipe." It is to be a tall hat "fashioned after an ordinary domestic stovepipe." Doesn't sound so very romantic, but just wait and see.

The Church Hill commissioners called a special meeting of the property owners and taxpayers of the town last week, for the purpose of conferring together in regard to the matter of what kind of road would be built through town—concrete was decided on. It was agreed not to bond the town at this time to extend the road from curb to curb. It was proposed by the commissioners and approved of by the taxpayers to purchase a fire engine and an up to date fire equipment.

PAIGE

"The Standard of Value and Quality."

THE STORY OF TWO SHOWS

It is a short story—an amazing story.

A MILLION DOLLARS worth of Paige cars were sold at the New York and Chicago Automobile Shows.

At the New York Show 51 cars were sold at retail—alone.

At the Chicago Show one Paige dealer alone sold 263 Paige cars. Of these 93 were retail orders.

To the best of our knowledge that establishes a sales record and an overwhelming popular endorsement unique in the history of the motor car industry.

This Is The Explanation

The discriminating motoring public attended those two Shows—the biggest and most important Shows of the season. They had on opportunity to see all American cars of all makers—"Fours", "and "Eights". Then they did just what we have urged the American public to do—Compared them all with the Paige—and—they did the inevitable thing. They came back and bought the Paige. It was all there before them at New York and Chicago—the whole American motor car market.

They saw "Sixes" of lower price, equal price and higher price than the Paige "Six-46". But they—evidently—saw no "Six" that combined the beauty, roominess, flexibility and power of the Paige "Six", with such features as Cantilever springs, Gray & Davis lighting and starting system, Bosch magneto, Rayfield carburetor, Paige-Continental 3½ x 5½ motor, multiple disc cord insert clutch—unsurpassed quality throughout—and the record-breaking price—$1395.

They saw "Fours" of lower price, equal price and higher price than the Paige Glenwood "Four-36".

But they—evidentally—saw no "Four" that combined the same number of high-grade features, dollar for dollar value—as the Glenwood "Four-36"—at the unprecedented new price—$1075.

That is why a million dollars worth of Paiges were sold at the New York and Chicago Shows.

Is this or is this not overwhelming Proof of Paige Leadership.
