PAIGE

"The Standard of Value and Quality"

"That Paige Is A Great Car"

DO YOU KNOW why people say that—why YOU yourself say it?

Perhaps, you have heard that in actual sales Paige cars led every American-made motor car at all the Automobile Shows this season. Perhaps, you know that the Paige "Six-46," a big seven-passenger "Six" for $1395, has proved easily the most popular "Six"—at any price—on the market this season. Perhaps, you have heard that at the new price, $1075, the Paige "Four-36" has already dominated the "Four" field this season. Perhaps, you know that Paige Sales have increased 61 per cent over the corresponding period of last year; that the huge Paige factory is working 24 hours a day to fill Paige orders. These things are proofs that the Paige car—"Six" or "Four"—IS "a great car," as you say.

BUT WHY?

Let us see. Do you know of any other "Six" that has the beauty and distinction of design, the seven-passenger roominess of the Paige; the power and flexibility of the Paige-Continental motor, the Gray & Davis starting and lighting system, the Bosch magneto, the Rayfield carburetor, the Paige-cantilever spring suspension, the general elegance and yet economy of the Paige "Six"—at a price within $200 of the Paige "Six" price?

That is $1395

The same with the Paige Glenwood "Four-36". Do you know of any other "Four" that has the beauty and five-passenger comfort of the Glenwood, the power and reputation for service, the Gray & Davis lighting and starting system, the Bosch magneto, the silent chain drive, the multiple disc cork-insert clutch, the elegance and excellence of general design of the Glenwood—at a price within $200 of the Paige price?

That is $1075

It is good to know that Paige cars are at the pinnacle now in popularity, sales, national confidence. But we want the world to know WHY.

Come and see and drive these two wonderful Paige cars. We'll leave the verdict to you.
