INTERNATIONAL Harvester manure spreaders have a score of good features in their construction. Each one is the result of careful field experiment.

An I H C spreader is low enough for easy loading, yet it has plenty of clearance underneath. The rear axle is well under the load, rear wheels have wide rims and Z-shaped lugs, insuring good traction under all conditions. Frame, wheels, and all driving parts are of steel. Apron tension is adjusted by a simple device. Winding of the beater is prevented by large diameter, and beater teeth are strong, square and chisel-pointed.

International manure spreaders are built in several styles and sizes, low or high, endless or return apron, for small farms or large. Examination will show sturdiness of construction in every detail. Repairs, if ever needed, may always be had of the local dealer.

Examine International spreaders at the dealer's. We will tell you who sells them, and we will send you interesting catalogues.

Importance of Healthy Kidneys.

Chestertown Readers Should Learn to Keep the Kidneys Well.

The Kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins and is often accompanied by some irregularity of the urine—too frequent passage, sediment or retention.

Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney trouble 50 years. You will make no mistake in following this Chestertown citizen's advice.

Mrs. A. A. Sparks, High St., Chestertown, Md., says: "I have used Doan's Kidney Pills and they have given highly satisfactory results. I strongly recommend this remedy."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Resolutions of Regret.

At a meeting of the State Roads Commission held on March 30, 1914, the following minute, referring to the death of Senator E. E. Goslin, was offered by Dr. Remsen, unanimously adoped, and ordered to be spread upon the minutes:

"Hon E. E. Goslin, a member of the State Roads Commission of Maryland, who had been in ill health for some time, died suddenly on March 20, 1914, at his home in Federalsburg, and the Commission at their first meeting thereafter desire to record an expression of their appreciation of the value of his services and their deep regret at the loss of their honored fellow member.

Mr. Goslin had been actively interested from the beginning of the legislation that resulted in the enactment of the Roads Law of 1908. As a member of the Senate of Maryland he was in a position to render efficient service to the cause of good roads, and, according to the highest, he never failed to say the right word at the right time.

In 1910 he was elected Secretary of the Commission and, being thus brought into closer relations with the work, he became familiar with the practical problems that presented themselves in the administration of the roads law. He was thus able to take a leading part in the Legislature of 1912 in all matters connected with roads legislation. In 1912 he was appointed a member of the Commission and in this capacity he had served for a period of nearly two years at the time of his death.

He took a broad view of his obligations to the State. He was deeply interested in the subject of good roads and he used every effort too see that the intent of the law was carried out. He looked at the problem as a State Problem, not as a local one. The motto "The greatest good to the greatest number" was early adopted as expressing the guiding principle of the Commission, and to this Mr. Goslin was always true.

In the death of Mr. Goslin the Commission has lost an intelligent and efficient member, and the State of Maryland has lost a faithful servant.

And the said Commissioners may contract for said work and material or have said streets or driveways laid and constructed under such terms and agreements as to them may seem most advantageous.
