EDITORS.

MR. CURTIS E. CRANE is an applicant for one of the vacancies on the State Roads Commission, and his friends, among whom is Mr. John D. Urie, are working hard to induce Gov. Goldsborough to appoint him.

TALK about the ladies not being the equal of men in intelligence and judgment! Just see how the ladies won the fourth-class postoffice appointments. Mrs. Hadley, first at Galena; Mrs. Charles Brice, first at Betterton; and Miss Ida Hinson, first at Rock Hall. The men "followed after" just as they have been doing for lo! these many years.

THE Board of Town Commissioners never made a better investment than when they purchased their new road scrape. If they would use that scrape constantly, give our roads a coating of oyster shells and gravel, and keep the town ditches in repair, there would be no earthly excuse for a bond issue of $25,000 for street and sewer improvement.

CHESTERTOWN is now facing a bonded indebtedness of $65,000, and what have we to show for it? 1550 YARDS of street that cost over $11,000, and a water system whose location has been condemned by the State Board of Health, and which will demand its removal to a more healthful location at an expense to the tax-payers of another bond issue in the very near future.

ACCORDING to the new tax Reform law passed by the last Legislature, which exempts household goods from taxation, between $400,000 and $500,000 will be deducted from the taxable basis of Kent county. This means an absolute certainty of an increase of four or five cents in the county tax rate of 1916. Say, Mr. Tax-payer, where do you get off, while all these bond issues are whizzing by?

THE war clouds which have been hanging over Mexico for several weeks seem to be lifting. The republics of Argentina, Chile and Brazil, in South America, asked for power to act as mediators in the Mexican difficulties and their request was granted. It may be that the efforts of the South American mediators will result in the restoration of peace with honor, and the more conservative minds of the United States sincerely trust that an ugly situation may be relieved without further bloodshed. Huerta should be expelled from Mexico, and the United States will be justified in demanding this as the price of peace.

THE public local laws passed by the Kent representatives in the last Legislature appear in this issue. Every taxpayer in the county should read these laws, especially the laws relating to the County Commissioners and the school house laws in order to learn how their interests are affected. The law changing the Board of Commissioners from five to three members does not become effective until 1917, and the school house bills provide for a commission to superintend the construction of the school buildings in the towns named in the bills, provided the voters vote in the next general election to bond the county for $54,000 for these school buildings. We shall have something to say about these laws from time to time for we propose to let the tax-payers and people generally know what it is proposed to do with their money.

THE Board of Town Commissioners has assumed a great responsibility by the passage of the bond issue bill. Three thousand dollars of this money is to pay the indebtedness on the road already built, and two thousand is to pay for a sewer to be laid on High street to College avenue, down College avenue and Cannon street. The remainder, $20,000, is to be used for the improvement of High street to College avenue, Cross street from High to the Depot and Queen street from High to Maple avenue. This is the law. The commissioners must therefore use the $20,000 for the improvement of the streets named in the bill. That part of High street which is already improved, 1550 yards—cost $11,000. One of two things is certain. The commissioners must build a less expensive street than the one already laid, or their $20,000 will hardly finish High street. We urge our town board therefore to give this matter their most serious thought and attention, in order that the streets named in the bill may be improved in the same manner and form.

DID COMMISSIONERS STOP TO THINK?

Under the provisions of the new tax reform law which was passed by the last Legislature, there is an exemption on household goods and personal property to the amount of $500. In consequence of this exemption there will be between $60,000 and $80,000 to be deducted from the taxable basis of the town, which will mean an annual reduction of from $3,000 to $4,000 in the yearly revenue. Did the Board of Town Commissioners think of this condition when they figured that the town could incur the additional indebtedness of $25,000 without increasing the tax rate? And did those who are responsible for enforcing this additional indebtedness upon the town think of the almost absolute certainty of an increase in the town tax rate to meet the requirements of this additional indebtedness in 1916, when this provision of the reform tax law becomes effective?

Fourth-Class Postmasters.

The Postoffice Department on Wednesday announced a partial list of fourth-class postmasters for Kent county. The successful applicants are those who received the highest averages in the recent examination held in the Chestertown High School building. The appointments, which do not have to be confirmed by the Senate, are:

Betterton—Katherine E. Brice.
Galena—Minnie B. Hadley.
Golts—Wm. G. Shallcross.
Massey—M. P. Dunn.
Kennedyville—Frank C. Miller.
Rock Hall—Ida M. Hynson.

The other fourth-class offices to be filled in this county are Still Pond, where Mr. Carl Norris, the present incumbent and a Republican, got the highest average; Worton, where Mr. Theodore Jewell, a Republican, and at present rural route carrier. [illegible] highest average and Lo[illegible]

OUR REASON FOR SILENCE.

We have been asked quite frequently since the town election why we did not openly oppose or favor the bond issue for $25,000 for street and sewer improvements. We have a good and sufficient reason. There is a certain class of people in Chestertown as well as in Kent county who are opposed to anything the TRANSCRIPT favors, and who favor anything the TRANSCRIPT opposes, regardless of the merits or demerits of the case. It was largely this class of people in Chestertown combined with the almost solid negro vote in the town which forced upon our tax-payers on Monday an additional indebtedness of $25,000, and it was our determination to let the tax-payers know who are responsible for the passage of these bond issue bills through the Legislature, and their subsequent passage in a town election, without furnishing an excuse to the "combination" that they favored the bond issue because the TRANSCRIPT was opposed to it. As an illustration of what we mean, we state that one voter stated on Monday that he intended to vote for Mr. Carroll for commissioner until he found that Hope Barroll and his friends were for Mr. Carroll, and he then changed his mind. It is interesting to note that not many years ago this same man was a recipient of favors at the hands of Hope Barroll and his friends that enabled him to enjoy a fat stipend for a period of years, and yet, now utterly unmindful of past favors, if he knows that Hope Barroll favors a proposition he opposes it simply because Mr. Barroll favors it, regardless of the weal or woe of his community. Mr. Barroll and his friends get the blame from less deserving people for many things that are done, and we venture to state that if Hope Barroll and his friends had been passengers on the steamer Cambridge and John D. Urie and Wm. W. Beck had been on the Gratitude at the time of the collision of the two vessels two weeks ago, Hope Barroll and his friends would have been to blame for the accident. There have been a number of bond issues passed affecting the town and county in recent past years, but not in a single instance have Mr. Barroll and his friends been responsible for the passage of a single one.

When the late Senator Foxwell was in the Maryland Senate and the late Cecil Atkinson was in the House, not a singe bill was passed affecting the financial welfare of the tax-payers of this county adversely, and in the Legislature of 1912 Messrs. Harris and Miller refused to allow these school bills to become a law unless they were referred to a vote of the people. So just let those who are responsible for these bond issue bills and their passage at elections take the responsibility for them.

New Tax Reform Law.

The new tax reform law passed at the last session of the Legislature becomes operative June 1. The law names Senator Arthur P. Gorman, Lewin W. Wickes and Judge Leser a State Tax Commission, which shall have exclusive supervision of the State tax system. Under this law there is to be a supervisor of assessments for each county appointed by the State Tax Commission from five names recommended by the Board of County Commissioners in each county.

"The supervisor of assessments in each county shall have general supervision over assessment of all property in the county. He shall not be required to make assessments which shall be made by the County Commissioners or other proper authorities as now required by law, but he shall have power and it shall be his duty to appeal to the State Tax Commission from any and all assessments or rulings which he shall consider improper. He shall visit every district at frequent intervals and obtain all necessary data and information, keep posted on sales in the county and conditions attending said sales, and whenever possible shall report the sales and consideration of all tranactions within 20 days to the State Tax Commission and the County Commioners."

In Kent county the salary of the supervisor is to be $800 a year.

Your Own Porch
Better than
a Country Cottage

You need not go into the country during the hot summer months if you have your porch equipped with

AEROLUX
NO-WHIP
PORCH SHADES

These water-proof shades come in a great variety of colors. They admit just the proper amount of good fresh air yet maintain perfect seclusion to those upon the porch.

They transform any porch into a perfect resting place. The NO-WHIP ATTACHMENT with which these shades are equipped prevent flapping of the shade. The shades successfully keep out the hot rays of the sun and while they maintain the porch cool and comfortable, admit just the proper amount of light.

Call and see our display or a telephone call will bring the "Aerolux" man who will show you color samples and then if you wish, take the measurements of your porch.

PAIGE

You never have to make excuses for the Paige car. Place it in any automobile assemblage—

Measure it by the standard of cars of double its price.

The only excuses you will hear will be the attempts of the other fellow to justify himself for paying more.

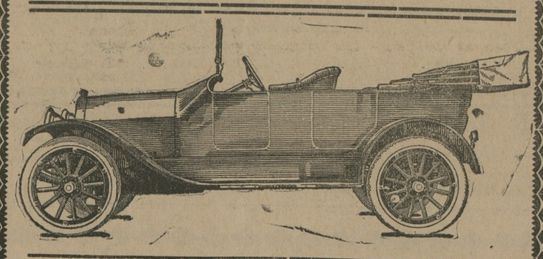

The Paige is the car of super-quality simply because all the money goes into the car itself.

The Paige-Detroit Company has no bonded indebtedness to eat up a large proportion of its income in interest—it has no excessive capitalization on which it must earn dividends—and it has ample resources to enable it to buy at lowest cash prices.

The Paige price represents actual car value.

Every Paige owner knows this already.

Every prospective owner will recognize it immediately when he checks up the Paige point for point with cars costing $2000 or more.

Model Glenwood "36"—Electric Lighting and Starting—$1275.

Model Brunswick "25"—Electric Lighting and Starting—$975. Without Electric Equipment, $900.
