One farmer, who overheard him, remarked that he would try a full orchestra if he thought it would do any good, while another remarked that he would prefer the graphophone—it would be cheaper.

"Parentage" At Lyceum.—"Parentage," that wonderful thought film—a heart drama of life, love and home—will be presented at the Lyceum Theatre next Friday and Saturday evenings. Wedding.—The home of Mr. and Mrs. L. H. Rashin, of Berteton, was the scene of a quiet but pretty wedding Monday night when their eldest daughter, Mabel, became the bride of Mr. Oscar Wilmer. The bride was attended in a champagne velvet traveling suit with hat and gloves of the same color and carried pink sweet peas. Immediately after the ceremony the bride and groom left for Atlantic City, where they will spend their honeymoon. Mr. and Mrs. Wilmer will make their future home in Philadelphia where the groom is employed.

ELECTRIC LIGHT is the best light
ELECTRIC POWER is the best power

You can have electricity right in your home. This plant brings you the many labor saving devices the city dweller enjoys. It gives you light—ready for use every hour of the day and night. The snap of a switch floods the house and barn with as much light as you could wish for. Snap another switch and the motor turns the washer and wringer. It's easier to snap a switch than it is to fill and clean oil lamps. It's safer and better light, and it saves a vast amount of work when electricity does the washing and the other distasteful tasks. FOND DU LAC TRACTOR ATTACHMENT

\$198.00
Why Pay More?

At the demonstration held on the farm of Mr. Backus, near Elkton, under the auspices of the County Agent, Mr. Knode, on the 27th and 28th ulto., in two fields a little wet, much of which was on a 12 to 15 per cent grade, the allotted task of this Tractor Attachment was performed in connection with a 1912 Ford car, to the satisfaction of many interested spectators.

Read what the great Berlin, Md. Nurserymen say about the Fond Du Lac Tractor Attachment and Ford cars.

HARRISON'S NURSERY, BERLIN, MD.
March 18, 1918.

Mr. I. C. COCKEY, CLAIBORNE, MD.
DEAR SIR:—We have been using one of your Fond du Lac Tractor Attachments for about one month; have put it through very severe tests, and have found it satisfactory. We have it attached to a 1912 Ford Auto, and have been pulling a 2-bottom plow, also a 32 disc harrow, which ordinarily requires six horses to pull. As a result of these tests, you may enter our order for two more of the attachments and we think within 30 days we will allow you to ship us six more.

Yours very truly,

Our Spring Campaign Is Now On

In spite of times and conditions our courage was never better. Business is NOT as usual, and it will not be as long as we are at war. As good citizens and good business men, it is NOT up to us to grumble, and find fault and lose our nerve. It IS up to us, to you the consumer, and us the retailer, to accept conditions as they are, and to work more closely together than ever before.

THE man who has never thought much about his hats ought to try a Stetson this Spring.

HE ought to buy it here, headquarters for Stetsons, with all the wonderful line of Soft and Stiff Stetsons to choose from.

He needs the service of this Store—if only because we serve the most critical men of this city, and know how to suggest to each man the block and color to emphasize his personality.
