THANKS

The General County Committee for the Liberty Loan campaign, just closed, desire to express its appreciations and thanks for the hearty co-operation and assistance given by all local committees, both ladies and gentlemen, by all who assisted with the music; by all the speakers, and for the use of the various halls and churches. To the newspapers for the generous space contributed, and to all other co-workers.

It was only by the united efforts of all and the generous response of our people that the splendid showing of \$347,250 for the county was obtained.

DELCO-LIGHT Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes.

It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances.

It also lightening rural stores, garages, churches, schools, army camps and railway stations.
