Help The Babies

Kent County has gone "Over the Top" in every drive so far; men and women have both done their part well, so now that we are asked to get a census of the children under 6, we will do it just as thoroughly as we have done the rest of the things.

Of course we will find some folks who will not be willing to do this, and will have many reasons why it should not be done. Those of us who have been trying to persuade these slackers to take out Liberty Bonds and to save their money in W. S. S. will have our arguments all ready when the objections come to weighing and measuring the babies.

Whether it is in investing money, making and eat victory bread or getting this census ready for the president. Of course, in some states, the birth records are very complete, but to eliminate the 33 per cent of the babies who die each year would be a very hard thing to do.

Doctors and nurses are being sent abroad to take care of our men and to help the poor folks over there who need care and food. If we have this census, we will be in the position to help the mothers over here, at the right time. Babies die in the summer usually from the first hot day until the last hot week; fully 50 per cent of those that die during the year, die then. A good many of them would be saved, IF THE MOTHERS KNEW WHICH FOOD GIVEN THE BABY WOULD KEEP HIM COOL!

That is what we all want, in the summer, to KEEP COOL! And in the winter, TO KEEP WARM. Food will do it in a better way than ice or coal. But we will have to have the information as to the proper foods.

If Uncle Sam knows how old your baby is, and how much he weighs, he will know whether you need any help or not. If you do, he is in a position to tell you where you can get this help FREE OF CHARGE. So help this matter along by giving Uncle Sam all the assistance you can. And by so doing you will be helping your country, your family and your self. And the last one mentioned will be helped the most.

Lovers of fishing with hook and line here have begun to try for the first of the finny tribe to come to these waters. We have heard of but few being caught, however.

FORD CAR BRINGS A SHOWER BATH EVERY AFTERNOON

Babies Grow Whiter as Doctor and Nurse Serve Daily Baths From Door to Door.

"Good morning. We have come to give the children their bath," this, of course, said in good French. Then from off the motor car slides a portable shower bath, carried into the house by doctor and nurse.

For the next half hour that little cottage boasts of a bathroom in active service, for when the water is heated the blessing of a warm, clean shower pumped by the doctor falls on the head of Young France, while the nurse scrubs religiously and the darkening water bears witness of a whiter, cleaner child.

And as you might well imagine, the kiddies like it, except the last cold dash that the doctor slyly engineers by quickly transferring the supply pipe into a bucket of cold water—for hygienic effect.

And what a blessing it is to those meek, tortured people, who for months have been without all of life's comforts and most of life's necessities, to be ministered to in this fashion.

It is perhaps understandable to them that "les Americans" out of sheer pity might offer them that meager thing that civilization calls "charity." But to be clothed, fed, sheltered and cheered as they have been by our Red Cross is more than they can understand.

For they have seen a great miracle grow out of the darkest pit of human experience. They have seen a bright light out of which has stepped the ministering angel who has taught them to smile again. They are no longer sick. They are no longer cold nor hungry, and now, wonder of wonders, this same good friend has contrived in some magic way—within the sound of the guns—to give them—baths.

Bed, Bath and Board in Junction Canteen Brings Heaven a Little Nearer to an American Sammie.

A mother who is a Red Cross worker in her home town gave to her chapter the following letter she had received from her son in France:

"If you could have seen me yesterday, when I left trenches which the rains have turned into open sewers, even you would never have known me. I was mud from head to foot, so covered with crawling things that the poorest tramp in the world would have run from me, and I fairly ached for rest.

"You see, my first furlough had begun, and I caught a train for Paris. We were packed into a freight car. Travel is so congested we spent most of our time stopping. At last, when night came, we were dumped out at a railway junction with the information that the train for Paris would be along the next day.

Canteen Like New York Hotel. "I tell you I was discouraged. Then suddenly across the tracks from our station I saw an American Red Cross canteen, and all my troubles were at an end.

"Lots of people must have the same idea of these canteens that I used to have—just little shacks where you were handed out a cup of sloppy coffee. We are all wrong. These Red Cross places beat a New York hotel for variety of service, even if they don't have the gilt furniture and tip takers. Here is what happened to me:

"First I had a bath, a real one, with plenty of soap and water. While I was getting clean my clothes, every stitch, were cleaned and sterilized. Then I had a meat of real American cooking, actually sitting down at a table to eat it. After that I went into the canteen barber shop and had a shave and haircut. Then, being a gentleman of leisure, I strolled into the canteen movie theater and saw some good American films. However, I soon turned in for the night into a clean, dry bed that felt like heaven—or home.

"And now this morning, after a fine breakfast, I am sitting in the canteen writing this letter to you and waiting comfortably for my train. You just can't possibly imagine what these Red Cross women are doing for us soldiers and for the French and English too. Each canteen takes care of thousands every day.

"They make us feel like human beings once again and give us the nerve to go on with this game of licking the Kaiser. And when we win you can give a good share of the victory to the American Red Cross."

ENDORSED AT HOME

Such Proof As This Should Convince Any Chestertown Citizen

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Chestertown adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

Thomas S. Clements, retired farmer, S. Mill St., says: "I suffered from backache, and when I had to bend over I had extremely sharp pains in the small of my back. As Doan's Kidney Pills had been used in my home several years, I got some from M. A. Toulson's Drug Store. I haven't been troubled since using them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Clements had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
