THE AMERICAN PRESS ASSOCIATION

CHESTERTOWN has been honored this week by a large gathering of ministers and delegates of a prominent religious body—the Methodist Protestant Conference. That such gatherings are conducive of much good cannot be successfully denied and any town who is fortunate enough to have such a religious body gather within its borders is, indeed, fortunate. The good which it has done will live long after it adjourns. We welcome the conference to Chestertown and hope its members have been as well pleased with their visit as the town and its citizens have been pleased with having them.

THE Maryland Legislature, during its past session, has passed much constructive legislation and has redeemed the pledges of the Democratic platform. In fact, it has accomplished more than any session in recent years, in our opinion. The reorganization of the State Government and the passage of Fewer Elections bill is legislation tending to greater efficiency and the reduction of taxes. Any move in this direction is certainly a wise one. Women have been recognized as an important element in political life by the passage of the law making women eligible for public office. Along the lines of efficiency are the codification of the state insurance laws and the changes in registration laws in Baltimore city. Legislation local to Kent county has been followed each week by this paper and in our minds has been wise and adequate. The question of bonding the county for $100,000 for improved roads will be put up to the voter for his individual opinion and vote. It is the duty of every voter to say whether he is or is not in favor of this system of improving the roads. Through appropriations made by this Legislature the future of Washington College is assured, according to a recent statement made by officials of the college. This is very gratifying to Kent County and to the Eastern Shore. The Democratic platform has been carried out to the letter and in our minds the Democratic party should feel just pride in this fact.

LEGISLATIVE NOTES

Maryland Legislature Adjourns—Bills Of Unusual Interest Passed

Matching federal appropriations brought a big fight in the Senate when the Vocational Education bill came up on its third reading. It was passed finally, however, 16 to 9. The bill, which then went to the House, provided for an appropriation of $15,000 by Maryland, to be matched by Congress, for establishing in this state a bureau to educate persons whom by injury have been forced out of their usual occupations.

The following bills were passed last week:

Amending charter of Betterton.

Directing the County Commissioners of Kent county to pay the sum of $2000 to the town of Chestertown for road purposes.

Authorizing $100,000 road bond issue for Kent county.

Amending charter of Rock Hall.

Changing law relating to a school-bond issue for Queen Annes county.

Adding new section to the game laws of Kent county.

Relating to catching of raccoons and opposums in Wicomico and Worcester.

Authorizing Kent county to pay the following:

Funds to Betterton for roads.
Same to Rock Hall.
Same to Chestertown.
Same to Galena.
Same to Millington.

Two of the outstanding features of the closing day's work of the 1922 General Assembly were votes for final passage of the Soldier Bonus Bill, carrying a referendum, and of the Tydings measure providing for steps toward purchase of the Havre de Grace-Perryville bridge across the Susquehanna river. With only four votes in the negative, the House of Deelgates passed the Soldier Bonus bill. The measure had been passed by the Senate. There was no debate over the measure, while but few members explained their votes. The bonus bill, which was introduced by Pres. Norris in the Senate, provides for the creating of a state debt to pay the soldiers' bonus, the total amount not to exceed $9,000,000. The funds are to be raised through a direct and collateral inheritance tax. The bill provides that each soldier, sailor or marine who served in the late war shall receive a bonus of $10 a month for each month he was in the service prior to the armistice, with 25 per cent additional for overseas duty. In anticipation of the passage of the bonds bill the Comptroller has already received many applications for forms from ex-soldiers who intend to apply for the bonus. The measure was fought at Annapolis by various business interests which objected to an addition of $9,000,000 to the already burdensome load of taxes.

Without a dissenting vote, the Senate concurred in the House amendment to the bill creating a commission to purchase for the state the Havre de Grace-Perryville bridge over the Susquehanna river. Then, without a vote against it, the bill was passed by the Senate. The House amendment provides that the proposed commission shall consist of the chairman of the State Roads Commission, a member of the Public Service Commission and the Attorney General of the state. This commission is authorized to study in detail the proposed purchase of the bridge and to offer the company now owning the span a sum not exceeding $690,000.

When the amended bill was reached on the calendar of the Senate, Senator Millard E. Tydings, who introduced it, said that the debate in the House had taken such a wide range that he felt he should make an explanation of his position.

When the Legislature adjourned at midnight April 3 66 Senate bills died in the various Senate committees. There was introduced in the Senate during the session 394 bills. Of these 225 were passed. Besides the 66 which died in committee, 103 were killed on the floor. In the House the transcribing has not yet been completed, but the books show there were introduced during the session 657 bills, of which about 400 were passed, 150 killed and 107 died in committee. A total of 426 Senate and House bills failed of passage. In both branches the total number introduced was very much smaller than two years' ago, when nearly 1400 were considered as against 1051 this year, while in 1918 there were more than 1600.

For more than two hours after the Senate adjourned and again the following morning the legal lights in the General Assembly discussed the status of the Child Hygiene bill passed by the Senate after the House had adjourned sine die. With comparatively few exceptions the lawyers incline to the belief that the question of validity will never be raised.

Executor's Sale

—OF—

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

Announcing the Complete Line of Paige and Jewett Cars

We are pleased to announce our appointment as local dealers for the Paige-Detroit Motor Car Company, manufacturers of a complete line of passenger cars, including the Jewett.

This is the most important business venture we have ever made. It is nothing less than a great opportunity—an opportunity for ourselves and for every present and prospective car owner in this community.

The Paige line is an established product with a history of more than 12 years of country-wide popularity. It is made by a company of such great financial strength and extensive manufacturing facilities that the quality and value of the cars have remained unsurpassed.

The popularity of the Paige is well earned. It is a sound product and a sound investment. It is a car that has always made good.

We count ourselves as particularly fortunate in securing the Paige franchise at this time. The 1922 line is the finest the company has ever turned out, with a remarkable record for performance.

At the new reduced prices these cars are a great investment opportunity—just that. They are offered to you on two chassis, the New Series 6-66 and the New Series 6-44.

There may be finer cars on the market than the 6-66, but you can't prove it on the road. The 6-66 has made automobile history on track and hill. It was a 6-66 Daytona model that broke every world's stock chassis speedway record from 5 to 100 miles on the Uniontown Track. It is a car that is unmatched for power, speed and stamina. It is justly called Master of the Highway.

The 6-44 is a smaller brother of the 6-66. There is a difference in power, wheel base and price. But both cars have one thing in common—the spirit and beauty of a Kentucky thoroughbred.

We are also offering the Jewett, the new light six, only recently announced, yet already a sensation in motordom.

The Jewett, designed by Paige engineers and built in Paige shops is the result of long investigation and thorough study. It is a 50-horse-power, six cylinder car of 112-inch wheel base and ample room for five people. It is a car any motorist would be proud to own. Yet the Jewett touring car sells for only $1065 f. o. b. factory.

We are backing this complete line of automobiles with intelligent and competent service. It is and will be our policy to make your interests ours.

We want you to examine these cars at your earliest opportunity. Better still—let us give you a ride. Come in and select a car for a demonstration.

The New 6-66 Prices
131 inch wheel base—70 horse power

6-66 Lakewood, 7-Pass. Touring	$2195
6-66 Larchmont II, Sport Type	2245
