The Four Chassis---
Standard Buick All Through

From tire carrier to radiator, the Buick four chassis is of the same powerful construction as the Buick six.

Buick cars for twenty years have been built for dependability—and the Buick four embodies standard units which have proven themselves through years of service.

Compare the Buick four chassis part by part with any other four cylinder car.

SACHS' SERVICE SHOE STORE
5th Anniversary Spring Opening.

Five years ago we opened an "EXCLUSIVE SHOE STORE" in the little store room of the Toulson Bldg. At a small expense, with but one purpose in view, namely, "TO UNDERSELL," public opinion has decreed that we have succeedd from the start.

Five years increased business has enabled us to buy and sell in larger quantities at lower prices, thus giving you extraordinary values. Five years of constant application to one particular line, caerfully fitting all feet, guarding against any misfits, and selling only the very best makes of shoes, have gained for us the good will of all our customers, extending over a radius of fifty miles or more.

Our best advertisement is our customers.

There are no complaints, because we make good any unsatisfactory purchase.

All foot troubles relieved.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

The Swan's Song
By Grace McCormac French

In April days of sun and rain
The farmer hastes his seed to plant,
But stops his team to gave and hark
To nature's wildest mating chant.
They come, they come, trumpeting swan,
Their migrant instinct they obey
To nest upon the Arctic's shores—
God speed them on their north-bound way.
The band of silvery forms then pass
Before the black cloud's threatening face,
And long the trumpet call is heard,
Though shining forms are lost in space.
The husbandman resumed his toil,
And pondered on the ways of man
Who would destroy for sport and greed
Last members of a mighty clan.
Oh, pray that soon the sense of right
Will stay man's oft destroying hand;
That happy birds may safely roam
Across this boasted freeman's land.

ELECTRIC CURRENT AT EASTON REDUCED

Same To Take Effect July 1—Reduction To Be 25 Per Cent

The electric light current at Easton, Md., will be reduced about 25 per cent, beginning July 1. The Utilities Commission recently asked permission of the Council to make the reduction and advised that the rates would be sent to the Public Service Commission for its approval. The Council, of course, gave its consent, and was very glad to know that the Utilities was in such condition that the reduction could be made. The new rates will be as follows:

Lighting Rates

Twelve cents per K. W. H. for the first 30 hours' use of the maximum demand and 10 cents per K. W. H. for all current consumed exceeding the first 30 hours' use of the maximum demand. A minimum charge of one dollar ($1.00) per month will be made for the installation of each meter for lighting purposes.

Fuel Rates

Five cents per K. W. H. for all current consumed.

A minimum charge of one dollar ($1) per month will be made for the installation of each meter for cooking or heating purposes.

Power Rates

Ten cents per K. W. H. for the first 75 K. W. H. consumed.

Six cents per K. W. H. for the next 225 K. W. H. consumed.

Five cents per K. W. H. for the next 400 K. W. H. consumed.

Four cents per K. W. H. for the next 200 K. W. H. consumed.

Three cents per K. W. H. for all additional K. W. H. consumed.

A minimum charge of one dollar ($1) per month per horsepower installed will be made on each meter connected.

The above is the schedule of rates that was in effect from Oct. 1, 1917, to Nov. 1, 1920, and which schedule was advanced at the last-mentioned date 25 per cent because of the greatly increased operating cost.

TO START MAY 15

Shore Transit Company Will Have Its Fleet Of Busses In Operation By That Date

An enticing picture of travel up and down the Eastern Shore is painted in the announcement of the Shore Transit Co. that by the middle of May 12 automobile coaches will be in operation between Elkton and Salisbury, touching at every town between the two ends of the Shore that can be reached over state roads or stone roads.

Sharptown, Preston, Hurlock, Easton, Centerville, Chestertown, Chesapeake City, Greensboro, Goldsboro, Galena, Church Hill, Denton, and Federalsburg, scattered over the two loops of state road, will be brought into easy contact with each other before the coming of hot weather, according to the company.

The cars to be used on the line are said to be first-class in every particular and a pleasure in which to ride.

Not requiring any street corner stops like city busses, they are geared to high speed, driven by six-cylinder engines and carried on pneumatic tires. The proposed schedule calls for 25 miles an hour, with a number of stops. Teh actual speed required is about 30 miles. The body is painted on the exterior a battleship gray and on the inside is finished in dark green upholstering. There are 20 individual chair seats and one cross seat for five persons. The cars are heated electrically and lighted by dome lights. Under the seats are compartments for handbags, gixing the full floor space for the use of passengers.

Alexander M. Jackson, president of the company, said that the balance of the passenger-carrying fleet will be obtained just as soon as the occasion demands it.

This adventure into traffic is backed by representative people of the different communities which are benefited by the enterprise. The other officers besides Mr. Jackson are: Walter Miles, Baltimore, V. P.; W. J. Ogden, Baltimore, Treas.; R. T. Bonham, Salisbury, general manager. These, with H. T. Messenger, of Caroline County; John H. Clendaniel, Jr., of Chestertown; and John Wallace, of Elkton, constitute the present board of directors.

Resolutions Of Respect Upon The Death of Bro. John A. Jacquette

Whereas, We have learned with profound regret of the death of Brother John A. Jacquette, a member of our church and Sunday School, and for several years a faithful and efficient teacher in our Sunday School.

Whereas, we have had no more faithful and earnest worker in both church and Sunday School than Bro. Jacquette. There has gone from our midst one of those splendid men who built his life in the shadow of the church. It was well built, for it was patterned and constituted after the life of God's own Son, Jesus Christ. Therefore be it

Resolved, by the officers, teachers and scholars of Bond M. E. Sunday School, that we tender to the bereaved family and relatives our heartfelt sympathy in this hour of their sore trial and commend them to Him who alone can comfort and guide them in this time of their greatest need. Also

Resolved, that a copy of these resolutions be placed upon the minutes of the school; a copy sent to the bereaved family and a copy inserted in the papers of the county.

Signed by:

A. C. LOUD, Supt.
REV. J. M. LINDALE.
ELMER M. STARR, Sec'y.
