Buick

The Reliable Buick Transmission is a Feature of the Buick "Four"

The same quietly operating, dependable transmission that has been so pronounced a feature of the Buick Six, is employed in the Buick Four. The design is the same—the quality is the same—only in size is there any difference.

Every part of the remarkable line of Buick four-cylinder cars is as distinctly Buick as if the name were stamped upon it.

And back of every Buick car is the skill and experience of 20 years, combined with unparalleled manufacturing equipment facilities.

SACHS' SERVICE SHOE STORE
5th Anniversary Spring Opening.

Five years ago we opened an "EXCLUSIVE SHOE STORE" in the little store room of the Toulson Bldg. At a small expense, with but one purpose in view, namely, "TO UNDERSELL," public opinion has decreed that we have succeedd from the start.

Five years increased business has enabled us to buy and sell in larger quantities at lower prices, thus giving you extraordinary values. Five years of constant application to one particular line, caerfully fitting all feet, guarding against any misfits, and selling only the very best makes of shoes, have gained for us the good will of all our customers, extending over a radius of fifty miles or more.

Our best advertisement is our customers.

There are no complaints, because we make good any unsatisfac[illegible] purchase.

All foot troubles relieved.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

POCOMOKE CITY SWEPT BY FIRE

Most Disastrous Fire That Ever Occurred On Eastern Shore Said To Have Done Damage To The Extent Of Over A Million Dollars

Pocomoke City was devastated on Monday afternoon and night by the most distastrous fire that ever occurred on the Eastern Shore of Maryland. The loss is estimated at over a million dollars. About ten blocks of the town were wiped out.

The fire started in the stable of Frank M. Wilson, on Maple street, on noon Monday, and, fanned by a high wind, swept everything before it, defying the best efforts of local firemen and citizen volunteers, as well as fire companies summoned from points as far as Seaford, Del. The fire waged for several hours and was not checked until it had laid runs to an area which extended over a tihrd of the town.

The wind caused the flames to leap from building to building, which were only halted by the river.

At one time it appeared that the whole town was doomed. Three of the biggest blocks in the heart of the town were completely wiped out. In this section was located the Pocomoke City National Bank and the Citizens' Banks, the postoffice and many important business places.

As Chestertown, Cambridge and the other towns of the Eastern Shore have arisen from the ruins which devastating fires of the past have wrought and today stand as monuments to the industry, progressiveness and enthusiasm of Marylanders, so a bigger and better Pocomoke City will rise from the ruins of the fire of Monday which destroyed 77 buildings and made 45 families homeless. A sign on the charred remains of what was a most desirable residential section reads: "Keep Smiling, Chiropractor temporarily located at Ford House."

However, while the officials and those who have lost their places of business are keeping up their spirits and planning to rebuild the town, more than 200 persons are mourning the loss of their homes. They are a sorrowful lot, cared for in the homes of relatives and friends, some of them having lost practically all of their earthly possessions. Pocomoke's biggest problem is to aid these people to rebuild, many of whom carried no insurance.

One-third of Pocomoke City is in ruins, while practically the entire business section was wiped out. The town has been under martial law since the evening of the fire.

Mayor Tull has big plans for the rehabilitation of the town. He called a special meeting of the Council on Wednesday and suggested many things to great improve the town. He estimates the damage between $1,000,000 and $2,000,000. These figures are based on reports submitted to the Town Council by investigators.

Every effort is being made to get the town back to normalcy. The C. and P. Telephone Co. has a small army of workers under the direction of Frank Adams and E. R. Wingrove stringing new lines and erecting poles to replace those that fell a prey to the flames. The Electric Light Co. is repairing the damage done to its lines and lights. Architects are discussing building plans with merchants. The street cleaning force is clearing the streets of debris. Adjusters of insurance companies are straightening out claims, and the Western Union Telegraph Co. has opened a temporary office, their office being destroyed. Most of the city's records escaped destruction.

GOOD NEWS FOR LOCAL CO.

Sanitary Detachment, First Infantry, Maryland National Guard, Will Go To Edgewood Arsenal

The announcement made a short time ago by the Adjutant General of the State of Maryland relative to the time and place selected for this summer's encampment has been a subject of considerable favorable discussion among the members of Company "S. D.," First Infantry, Maryland National Guard.

After considering the merits of several cities that would provide the necessary facilities for a large camp of this nature, Edgewood Arsenal was selected because of its desirable location and splendid surroundings.

Edgewood Arsenal is the home of the Chemical Warfare Service, and was constructed and improved at a cost of fifty million dollars. It is a permanent Government Reservation and one of the finest in the United States. It is located about twenty-one miles north of Baltimore, on the main line to Philadelphia, and is most delightfully situated overlooking an inlet to the Chesapeake Bay.

The entire Reservation contains ten thousand acres with fine improved roads and every modern facility. The site selected for the Co. is desirable in every respect, as it is adjoining to the permanent quarters of the garrison, and bordering on the bay, where one will find a splendid bathing beach, from which the water slopes off to a distance of several miles; few places provide better facilities for boating, swimming and water sports of every description.

The men will, of course, live under canvas during their period in camp, and estimates are being prepared to provide wooden floors, electric lights and every convenience for the comfort and pleasure of the men attending this camp.

An additional feature of this camp will be the opportunity to see the interesting experimental work carried on by the Chemical Warfare Service, who are at this place continually carrying on research work in these agencies of modern warfare.

Never before has this state been able to obtain a camp site so desirable and interesting, and it is felt that this summer at camp will always be associated by the soldiers of our state with the memories of pleasant happenings. There is a comradeship developed in camp life of this character that is one of the finest experiences that a red-blooded young American can enjoy. The joy of out-door living under such delightful conditions, with just enough military activities to add an interesting and instructive value to the camp will be fully appreciated by all who have the opportunity to go to the National Guard Camp at Edgewood this summer.

The young men of Chestertown who feel that they would like to attend this camp with Company "S. D." should see Captain Hines, the commanding officer of the local company, before the enlistments are complete and the full number enlisted to take along to camp.
