THE BOND ISSUE

On Monday the taxpayers of Chestertown will have a vital issue placed before them. On that day the taxpayer has the opportunity of voting for the Bond Issue.

During the past week we have heard many arguments on this question. The chief arguments used by the opponents of the Issue is that we cannot afford to increase taxes at this time. According to a statement of the Town Commissioners in this paper the work will be done at a minimum cost. We do not believe that business conditions in Chestertown are more unfavorable than in any other town on the Eastern Shore. Road contractors are bidding on a very close margin at the present time. It certainly reflects against our town that in traveling from Wilmington down the Shore the only piece of dirt road to be passed over is in Chestertown. In order to get new industries to the town it is necessary that we offer favorable conditions and our dirt roads in the winter are almost impassable for automobiles.

We believe that no one regrets the fact that we built our present macadam and concrete streets. If you live on a paved street don't forget that every taxpayer in town helped to pay for the good street which you enjoy and you can certainly do as much for the town as to continue this improvements.

A vote for the Bond Issue is a step forward. We believe that this is by no means a radical step, but one which is justified and which will not be regretted when the improvements are completed.

To Present Great Pageant

On Saturday afternoon, June 10, the opening of the new athletic field at Western Maryland College will be celebrated by the largest pageant ever given in the history of the college or county. "The Sheathing of the Sword," a beautiful festival of peace, will be given by a cast of 1000 composed of the students of Western Maryland and the citizens of Carroll County.

Elaborate scenes, depicting the ancient Olympic Games, Roman Processionals, Mediaeval Tournaments and unique ceremonials of all nations will be among the impressive features of the day.

Because the pageant grounds are located directly along one of the finest highways in the state and because ample parking space can be furnished free to thousands, it is expected that great numbers of visitors from all sections of Maryland and surrounding states will witness "The Sheathing of the Sword."

The following students from Kent County will take part in the presentation of the pageant: Misses Sarah Seney, Mildred Price, Myrtle Faulkner, and Reba VanSant.

WE SELL TO SERVE

Quality in Cars
Quality in Service

Fine quality in any automobile remains a source of satisfaction to the car owner only as long as that factory-built quality is reflected in perfect performance.

Responsibility for this lies strictly with the local dealer. He is in business to see that the ideals of the manufacturer and the expectations of the owner are realized in actual every-day car performance.

Our customers are all satisfied customers.

CHESTERTOWN, MARYLAND

Facts In a Nutshell About the Bond Issue

Chestertown at this time is one of the lowest taxed towns of its size and territory on the Eastern Shore and is also the lowest bonded town on the Shore. The total bondage of Chestertown after July 1st will be $20,000, with an additional $46,000 invested in the Water Board, which is more than self-sustaining and yearly is paying a portion of its bonds as well as the interest on the whole; at the same time keeping its system in excellent repair.

The plan of properly paving the streets of Chestertown, including curbs, gutters and sidewalks, also provides for the laying along these streets of proper water mains; this work to be done by and at the expense of the Water Board, which, as before mentioned, has been and is self-sustaining and can pay for these improvements.

It is also planned to hold, through the co-operation of citizens of the town, a Fireman's Carnival or Bazaar to raise a sufficient sum to provide for the purchase of suitable fire fighting apparatus which will meet with the requirements of the Fire Underwriters and provide for a decrease in the present high fire insurance rate sufficient to more than pay for the increased tax resulting from the Bond Issue. Thus the people of Chestertown will secure excellent fire protection, improved streets and better sanitary conditions which in the end will beautify Chestertown at NO INCREASED COST TO THE PROPERTY OWNER.

The Town Commissioners have unanimously agreed to the appointment of a committee of highly respected citizens to act as an Advisory Board in the working out of the proper plans for the issuing of the bonds and the securing of the improvements needed.

The question has been raised of the practicability of stretching the spending of the Bond money over a period of years. The only advantage to be gained would be the reduction or saving in interest on the bonds which would lessen the tax increase to a very small degree. However, there are so many reasons why this is not the best course that anyone, after carefully weighing the situation, will heartily agree that it is always more practical in street building to give as large a contract for the work as possible in order to get the best construction companies to bid on the work at a minimum cost. We all realize that in quantity comes reduction in prices. It is quite a task for a construction company to bring their equipment, engineers and other accessories to a place to do a very small piece of work when, if given the job in a lump, they could naturally bid a much smaller price, which, in the long run, would more than save the citizens of Chestertown the difference in interest carrying charges. Then, again, we believe the banks of Chestertown are progressive and public-spirited enough to accept the proceeds of the Bond Issue on deposit with the understanding that 4 per cent interest (at which rate the bonds will be issued) will be paid by them during the time the money is there awaiting payment of bills. This idea should offset all counter arguments as to the handling of the Bond Issue.

We ask you to carefully study these facts and to consider the great benefits which our town will derive from the passage of this Bond Issue and we ask you to vote in favor of the Bond Issue at the polls on Monday, May 15th.

To The Citizens and Taxpayers of Chestertown:

Your Commissioners realize the responsibility that you will place on them in the passage of the Bond Issue and following the suggestion that has already been made on the appointing of an Advisory Committee to act with them in the expending of the money, hereby assure the Citizens and Taxpayers that they will, in conjunction with this committee, expend this money according to the wishes of the people as expressed in their public meeting held in Fireman's Hall at the time the idea was first voted favorably upon.

Chestertown, to maintain its position among other towns of the State, must have the passage of this Bond Issue in order that the necessary improvements may be made that will make your town one of the leading towns on the Shore in sanitation, in beauty and progressiveness.

It is not the intention of the Commissioners to hurriedly expend this money, but it is our desire to first take into consideration the conditions effecting cost and constructon and to do that we feel that it will be necessary to extend this construction over a period of approximately three years.

Respectfully yours,
CHAS. N. SATTERFIELD,
W. P. NEWNAM,
C. A. GOODWIN.
