Don't Buy a Counterfeit!

When you invest in a Player-Piano, look carefully to the tone quality, expression and durability, for you must live with it a lifetime.

Be sure it will give you lasting pleasure and satisfaction all through the years. You will run no risk of a future regret if you get a

LESTER PLAYER-PIANO

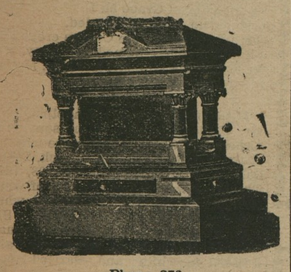

Back of its reliability is the splendid reputation of a third of a century. And yet, with all its admitted superiority of tone and action and finish, it is as easy to own as one of the inferior kinds. We will gladly show you how.

MAY IMPORT ENGLISH IDEA

American Railroads Likely to Adopt the System of Articulated Trains in Use There.

Articulated railroad trains devised to lessen the passenger rolling stock and increase the capacity are those in which the ends of adjoining cars are carried on a single truck. They have been used in England for several years. The cars are "permanently" coupled together. Each train, says the Scientific American, whether of two, or five, or ten cars, forms a unit, the trucks of which are so disposed that the distances between their centers throughout the train are all equal. Trucks are placed under the outer ends of each train, the other trucks being placed under the adjacent ends of the car bodies forming the system. Sets of five bodies on six trucks have been running for many years on the Great Northern; and there is no constructional reason or any other apparent reason why trains consisting of 10 or 15 such cars should not be built, where the traffic calls for the use of larger units.

There are four principal advantages which have been proved in the experience of the company, with these trains. 1, reduced first cost; 2, reduced weight; 3, reduced running cost; 4, improved riding of cars. The last is due to the fact that there is no overhang of the bodies beyond the trucks, and that the adjacent ends of the bodies are carried on a common truck center.

Opera at Labor Wages.

An excerpt from a Dresden paper bewails the exodus of first-rate opera singers in Holland, Sweden, Spain and America, and describes the state of affairs in which the Dresden opera company finds itself.

So hard up is Dresden for talent, the paper says, that guest singers must invariably be asked from Leipzig or Berlin to fill in for others who have left for foreign shores. On one evening alone, four guests sang, and as much as 4,000 marks, and even 7,000 marks have been given out on such occasions as honorariums to guest singers. Dividing by the 200 marks which it takes, these days, to make an American dollar, that makes $20 to $35 for an evening's aggregation of guest singers.

Iron Ore Discovered in Argentina.

Iron has been discovered near Necochea, in the southern part of the province of Buenos Aires, Argentina, in such quantities that government officials say a proper exploitation of the field will free the republic from dependence on other countries for its iron supply.

The iron was found along the coast in the sand dunes that extend from the south of Patagones to Cape San Antonio.

This is the same region in which petroleum indications were found recently and concessions have been asked for the working of both iron and oil fields. — Cleveland News-Leader.

Mousetracks in Snow.

Prince William of Sweden obtained during his African hunting trip a fine zoological collection for the Royal Museum of Stockholm—1,000 mammals, including 12 gorillas, 2,000 birds and more than 6,000 insects. In climbing great volcanoes to an altitude of 13,000 feet he found snow on which were the tracks of mice, although intense cold prevailed there.—Scientific American.

Daughter Succeeds Mother.

Mrs. Ferris, the new mayoress of the town of Devizes, in Wiltshire, England, is filling the same office as her mother did 20 years ago, thereby creating a most unusual record. Also interesting is the fact that Mrs. Ferris' grandmother is still alive and has thus had the unique privilege of seeing both her daughter and her granddaughter occupying the highest civic positions.

Fordson

THE UNIVERSAL TRACTOR

Henry Ford

HENRY FORD was 35 years getting ready for the new price on the Fordson. He started as a farm boy, planning to get rid of the drudgery, long hours and low money return that has always faced the farmer.

He wanted to furnish you with a tractor that would not only do your work better and faster, but at lower costs—and the 170,000 Fordsons now in use have proved that he has accomplished these things.

What you get in the Fordson for $395 f. o. b. Detroit is the greatest farm power unit ever offered.

Let us show you how a Fordson will cut farm costs, increase your bank account and take the drudgery out of farm work. Write, phone or call.

ENTRANCE EXAMINATIONS
Engineering Scholarships

Entrance examinations, under the auspices of the College Entrance Examination Board, will be held June 19-24, 1922, in the Civil Engineering Building, Homwood, beginning at 9 a. m. each day.

Applications for Scholarships in the School of Engineering, established under provisions of the Laws of Maryland, Chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, competitive examinations will be held September 22, 1922, beginning at 9 a. m.

Each Legislative District of Baltimore City and each County of the State, with the exception of Caroline, Cecil, Queen Anne, Talbot and Worcester, will be entitled to one or more engineering scholarships for the year 1922-1923, in addition to those already assigned. In the five counties mentioned, all available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the School of Engineering ar awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tuition be granted them.

The Scholarships entitle the holders to free tuition, free use of text books, and exemption from all regular fees. One of the scholarships in each County and in each Legislative District of the City carries also the sum of $200. The expense of attendance for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. John's College, Washington College, Western Maryland College, University of Maryland (Maryland Agricultural College), Mt. St. Mary's College and Rock Hill College.

Applicants should address The Registrar, The Johns Hopkins University, for blank application forms and for catalogues of information regarding examinations, award of scholarships, and courses of instruction. The next session begins Tuesday, Oct. 3.
