THE AMERICAN PRESS ASSOCIATION

ON Monday it will be the duty of every Democratic voter to express his or her choice of candidates to represent Maryland in the House of Representatives and in the United States Senate. In our issue of last week we stated that in our opinion Mr. T. Alan Goldsborough, our present Congressman, is entitled to re-election. Mr. Goldsborough has made a very efficient Congressman and has represented his constituents in a very able manner. He has gained the confidence and respect of his fellow members in the House and has served on some of the most important committees. Mr. Goldsborough has constantly looked after the interests of the people of his district and some of the measures introduced by him in the House have received nation-wide attention. We think that this district will be fortunate in having Mr. Goldsborough as its representative if nominated and elected to the next Congress. Messrs. Alexander M. Jackson and Albert W. Sisk are opposing Mr. Goldsborough and are making active campaigns for the nomination and have many friends in this section.

We have followed the political career of Mr. Wm. Cabell Bruce for many years and believe that Mr. Bruce will be a credit to Maryland in the United States Senate. Mr. Bruce has always stood by his convictions for the best interests of his constituents. He is a man honored and respected by his fellow lawyers of the state and is one of the ablest lawyers in the state. Mr. Bruce is recognized as a man of keen intellect and as one who will be able to see clearly through the many problems which face a United States Senator. In this critical time it is necessary that we have such men as Mr. Bruce in the Senate.

We believe that Mr. Goldsborough and Mr. Bruce, if nominated, will make strong candidates and will add greatly to the strength of the Democratic party in the November election. Remember it is the duty of every Democrat to express his or her choice in the primary and to support the successful nominees in the general election in November.

Mr. Wm. I. Norris and Mr. David J. Lewis are the opposing candidates of Mr. Bruce and each of them have many friends and supporters in this county.

After the nomination it will be the duty of every Democrat, regardless of his choice in the primary, or of his faction, to get actively behind the successful candidate in the general election.

FOR CONGRESS

WHAT MANNER OF MAN DO YOU WANT TO REPRESENT YOU IN CONGRESS?

On September 11th it will be both the duty and privilege of every citizen, man and woman, to express their preference for the kind of man they want to represent them at Washington for the next two years. As free American citizens you will want to vote for a Representative who has the courage to to tell you what he stands for, and as self-governing citizens you will not vote for someone because you are TOLD to do so. Any man who tries to force or coerce another to vote against his convictions, commits a crime against the free institutions of our government, and if this tendency on the part of political leaders is not checked by the great mass of people the very foundations of the American Republic will crumble.

Col. Sisk has always stood for the best interests of the people, and has devoted much of his life to the education and uplift of the youth. He taught school three years, completing this period before he was 21 years old; he served in the Maryland Legislature when 33 years old; he was school commissioner of Caroline County 14 years; trustee of Maryland State College two years; was a member of the State Board of Agriculture four years, and helped to reorganize Maryland of the higher educational institutions of Delaware; in fact, much of his time has been cheerfully given to this kind of work. It was largely because of Col. Sisk's deep interest in the men and women of the future, that he lent himself to the present campaign as a candidate for Congress.

Col. Sisk has been a leader in the councils of the State Democratic Party for twenty-five years. In 1920, when his name was being mentioned as a candidate for Congress, the following resolution of endorsement was passed:

Whereas, At this important period of our national life, with chaotic post-war conditions, and momentous problems to be met and solved, the great need of our country is a Congress that will meet these problems in a spirit of broad statesmanship and apply to their solution up-to-date, constructive, business-like principles; and to the end that the First Congressional District of Maryland may have as its representative a man qualified to meet the demands of the times, be it

Resolved by the people of Caroline County, That they offer for nomination as the Democratic candidate for Congress from the First Congressional District Col. Albert W. Sisk, of Preston.

Col. Sisk is a life-long resident of this district; a man of broad vision, whose successful career has been devoted to the development and upbuilding of the leading industries of the district. Identified as he is with the financial and industrial life of the District, and with his outstanding ability and fondness for altruistic service, we unhestitatingly endorse him as a candidate who, if elected, will serve the people with advantage and benefit to them and with honor and credit to himself.

He has for many years been a large factor in the business activities of the Eastern Shore. He has assisted in the establishment of two national and two state banks in the district and for 16 years the president of the bank in his home town. He has also aided in a large way the development of the canning industry, which has added much to the value of our farms, and put hundreds of thousands of dollars in the farmers' pockets. In fact, all his business activities are closely iedntified with the agricultural interests of the peopole. Himself a large land owner, he knows by experience the painful conditions of the farmer today, and would naturally do everything possible to help the farmer and farm life to a better condition.

A VOTE FOR SISK WILL BE A VOTE FOR A REAL REPRESENTATIVE.

This is to notify the public that I have removed to Chestertown and am prepared to cry lsaes in Kent and Queen Annes counties on reasonable terms.

FOR CONGRESS

T. ALAN GOLDSBOBOUGH

ENDORSEMENTS OF THE GOLDSBOROUGH STABILIZATION BILL BY

Editorial in Wallace's Farmer, a paper published in Des Moines, Iowa, and owned by Honorable Henry C. Wallace, United States Secretary of Agriculture, and his brother:

STABLE MONEY BILL

It must be fully apparent now to every one how teriffic are the evils which follow in the train of alternating periods of inflation and deflation. Fully 90 per cent of the class warfare which is striking so directly at the foundation of our civilization is the result of inflation or deflation.

Our readers will remember that on several occasions we have expressed a favorable opinion concerning the Fisher stabilized dollar as a method of preventing the periods of inflation and deflation which alternately harm the farmer and the laboring man. They will be interested, therefore, in knowing that Congressman Goldsborough of Maryland has introduced a bill providing for the inauguration of the Fisher Stabilized Dollar. While it is too muct to expect that the bill will pass at this session of Congress, it is to be hoped that the hearings will educate many Congressmen as to the fundamental truth that it is the alternating periods of inflation and deflation which cause so many troubles concerning which they legislate so futilely.

While the gold standard is unquestionably the best standard of currency the world has ever had, it must certainly give way eventually to a more scientific method of measuring values. The Fisher stabilized dollar is a step in the right direction, and we trust our readers will write their Congressmen directing their attention to the Goldsborough Bill on Stabilizing the Dollar.

Letter from Roger W. Babson, President of Babson's Statistical Organization, Wellesley Hills, Mass., whose advice and services are subscribed for by individuals and business organizations throughout the United States:

BABSON'S STATISTICAL ORGANIZATION.

REPORTS ON FUNDAMENTAL BUSINESS CONDITIONS FOR MERCHANTS, BANKERS AND INVESTORS.

Wellesley Hills, Mass., August 4, 1922.

HON. T. ALAN GOLDSBOROUGH,
House Office Building, Washington D. C.

My Dear Mr. Goldsborough—I understand from our correspondence that a hearing is to be held on your bill for stabilizing the dollar toward the end of August. I hope to be present and to make a statement in person, but, whether I shall be able or not I want to tell you how glad I am that you have brought forward this proposal. If you can convince Congress of the grave need of this legislation at this time, you will have accomplished one of the greatest tasks ever set before statesmen. If you do not succeed in your first attempt, I hope you will keep everlastingly at it. Depend upon it, some day the dollar will be stabilized.

It is the growing consciousness of the need of stabilization which has led not only to Professor Fisher's plan, which your bill embodies, but to the less worked-out plans of Edison, Ford, Senator Ladd, etc.

Buiness men and bankers have expressed alarm over some of these proposals on the ground that they may produce inflation. Any proposal the effect of which would be inflationistic, ought to be nipped in the bud. What we want is something to prevent both, and that is the object and effect of the bill which you have introduced. The common idea that we must on principle oppose any plan to change our currency system is simply sitting on the safety valve. If something is not done to give us a scientific and stable currency, some unscientific and unstable currency will be enacted. The only way to head off instability is to make greater stability. The conservative man who is afraid of a change ought to support your bill, because our present system changes our monetary standard every year. This constant change in the purchasing power of our dollar is the greatest foe of conservative business. It makes a speculation of everything. For years I have been studying the business cycle and trying to help the business man by foresight to struggle through the cycle. But I have repeatedly said in my speeches and writng on this subject that until we had the Fisher plan or some equivalent for stabilizing the dollar the business man would always be suffering from the business cycle. The trolley companies, which were at one time so prosperous, were literally ruined by the depreciation of our dollar. I have made a special investigation of this. I could give instance after instance of the evils which come from a changing yard-stick in commerce.

As Ex-Vice-President Marshall has said, next to the peace problem the problem of stabilzing the dollar is of the greatest importance.

I have studied Professor Fisher's plan from time to time with great care and the objections which have been alleged against it. As I have often said, only those who do not understand it oppose it.

Let me add that my audiences of business men all over the country, when they have had the idea explained to them, like it immensely.

The Congress which stabilizes the dollar will deserve and receive the everlasting gratitude of the business world.

With the most earnest wishes for your success, I am,

Very Sincerely Yours,

ROGER W. BABSON.
