

Engines ! Shellers ! Grinders !

Three very necessary things at this season of the year. Most farmers have found out long ago that it does not pay to feed whole grain to stock. Ground feed is worth about 25 per cent more than the whole grain.

We have a complete line of Engines, Shellers and Grinders and we will be pleased to have you come in and talk the matter over with us. A few hours work on a rainy day now and then gives a supply of nutritious stock food that adds many dollars to the farmer's yearly profits. Prices are right.

SHOE—CLOTHING

A few words to wearers of good clothing and footwear! It makes a great difference to every wearer whether his wearing apparel has been made for QUALITY SAKE or just to sell at a non-opposing popular price.

"WOLVERING KIP SHOES"

These shoes are a most wonderful value and are the best shoes made for comfort and hard service. The purchaser will find Wolverine Kip Shoes the best paying shoe investment he can make, if he will figure his footwear by the year, instead of by the cost per pair; and the results will prove so gratifying that shoes of less quality will have no attraction. We have several styles and are priced from $3.00 to $8.50 per pair.

CLOTHING AND GLOVES

Our line of clothing is attracting more attention all the time and our satisfied customers are our best advertisers.

When you are in need of a good suit of clothing for any purpose, consult us. We have them made to fit each man individually. Prices from $24 to $60.

OVERCOATS TOO!

We can make you an overcoat of exceptional value. Prices range from $24 to $55 each.

GLOVES

We offer a dandy line of Gloves suitable for all purposes for men, women and children. Priced from 10c to $5.00.

SWEATERS, UNDERWEAR, CAPS

Our stock is large and we offer some excellent values in these articles of clothing. Let us show you what we have—we can save you money.

FLOOR COVERING OF VALUE

We have just added to our stock some fine values in rugs for this season. All new designs and new stock. Sizes from 18 in. x 36 in. to 9 ft. x 12 ft. and are priced from $1.25 to $49.50.

IT WILL PAY YOU TO VISIT US.

WE PAY HIGHEST PRICES FOR EGGS AT ALL TIMES.

LOCAL ITEMS OF INTEREST

—Radio concerts are given at the Lyceum Theatre every night.

—Kent farmers are shipping guineas to city markets and are reciving fancy prices for them.

—For the first time in many years some of our farmers have not finished seeding corn ground to wheat.

—Mr. Marion Rash has 1500 hampers of apples in cold storage at Baltimore, for which he has been offered $1.50 a hamper.

—Dr. H. P. Copeland is preparing to erect a fine home and office on the site of the law office occupied by the Kent Construction Co.

—The regular business and social meeting of Worton Grange will be held Monday evening, Nov. 13, at 7.30 o'clock. A good attendance is desired

—Chestertown streets are filled with leaves from the many maples here, and the town haulers are being kept busy getting them out of the town.

—The Eastern Shore Churchman, published by the publicity committee of the Diocese of Easton, will be issued somtime during the month.

—Dewey Wheat, a former Rock Hall boy, was given a decision over Kid Brown, of Hagerstown, in an 8-round bout in Baltimore Friday night.

—The property in Kennedyville owned by Mrs. Rachel Hill has been sold to Miss Daisy Ford, of Wilmington. It will be occupied by Mr. and Mrs. Lambert Ford. Price $3800.

—The receipts of the Chestertown Postoffice last month showed considerable increase over the corresponding period of last year, largely because of an increase in parcels post mailings.

—Yesterday was a "hard" day on Kent rabbits and quail. The season opened yesterday and everyone who owned a dog or gun, and could find the time, was after game.

—Roland B. Day, who last year purchased the Bartus Trew farm, in Quaker Neck, has decided to discontinue growing wheat and corn on a large scale and has converted the property into a modern poultry plant.

—Harry B. Wolf, well-known criminal lawyer and former Congressman. was found guilty Monday of conspiracy to obstruct justice in connection with the hold-up and murder of William B. Norris in Baltimore City. Sentence was suspended pending a motion for a new trial.

—A state wide corn show, the first to be held in Maryland for a number of years, is being aranged by officials of the Maryland Agriculture Society and the Maryland Crop Improvement Society and will be staged at Frederick Jan. 10-12.

—We received a copy of the "Worcester Democrat," owned and edited by Dr. E. J. Clarke, formerly of Chestertown, this week. The paper is neat, attractive, well gotten up and newsy. We wish Dr. Clarke great success in his new venture.

—Mr. M. Wilbur Thomas set a dozen turkey eggs during the early summer and got eleven fine young turks from the hatch. These birds grew nicely and were over half grown and Mr. Thomas had not lost a poult. Then dogs got into them and nearly wiped them out.

—The Elementary Teachers' Association held a meeting in Chestertown Friday, Nov. 3, under the direction of the county superintendent, Prof. L. C. Robinson. Miss Simpson, the Associate Director of the Bureau of Educational Measurements, was present. The teachers were guests of the Chestertown Parent-Teachers' Association for lunch.

—Thirty car loads of York Imperial apples passed through Clayton recently. They were shipped from the apple farm at Nassau to New York and from thence to England, where they sold at $10 per barrel. The farm was the property of the late A. L. Burton, of Lewes. Now it is owned by a syndicate.

—A largely attended meeting of the Men's Club of Emmanuel Parish was held in the parish house Thursday evening and the talk of Mr. Leon C. Faulkner, of Lock Raven, on the "Boy of Today, the Man of Tomorrow," was most interesting and instructive. A buffet luncheon was served after the lecture.

—Turkeys, which are raised by a great many Kent countians, are likely to be high again this year. The Agriculture Department announces that despite a steady increase in the price of turkeys, production has steadily decreased. The average price received during the four months, October-January, 1915-1916, was 15 cents a pound. The average price received during a similar period of 1920-21 was 32 cents per pound. In 1900 the census figures showed 6,594,695 turkeys on farms in the United States, while in 1910 there were only 3,688,708 and in 1920 there were 3,627,028.

—Chestertown will have a Piggly Wiggly Store, in the storeroom formerly occupied by Mr. C. E. Kirby, under Lyceum Theatre. This firm now has thirty stores on the Peninsula. While a number of chain stores have been established throughout the country, none are as unique as the Piggly Wiggly store. Having conceived the idea that the organization which can distribute standard groceries cheapest in the most cleanly and attractive manner will develop into the foremost merchandising system, the concern advanced its business along this line. The Piggly Wiggly system was originated by Clarence Saunders, of Memphis, Tenn., while on a train journey. The most unique feature of the system is the absence of any clerks. You go in, wait on yourself, pay the cashier and go out.

—An entertainment, consisting of music, orchestral numbers, solos,quartettes, etc., rendered by home talent, will be given in Lyceum Theatre on next Tuesday evening for the benefit of the Chestertown Volunteer Fire Co., in Lyecum Theatre. Everyone should turn out and help in the good cause.

—Miss Cynthia Clendaniel opened her kindergarten school in Chestertown on Monday morning with seventeen pupils, who took great interest in the many stunts and forms of juvenile education which Miss Clendaniel gave them to learn.

—A Kent County rabbit established a new speed record during the recent visit of the passenger-carrying airplane here. The airplane grounded in a field adjacent to Chestertown. As it neared earth a rabbit jumped from its set, making its getaway with considerable speed.

—Several State Officers from Baltimore City will visit Chestertown Council No. 177 Jr. O. U. A. M. next Wednesday evening. All members of the council are earnestly urged to be present as they will hear something which will be of interest to them. Addresses will be made. Refreshments will be served. All members should be present.

—There will be a county-wide milk meeting held in the Court House on Wednesday, Nov. 15, at 7.30 p. m, at which H. D. Allebach will address the milk producers of Kent County. The meeting is being called by Edgar Pennington, our director of the Inter-State Milk Producers' Association in co-operation with County Agent H. B. Derrick, in the interest of the milk industry of Kent County.

—The movement of organizing a Boy Scout Council on the Eastern Shore is receiving encouragement from all the nine counties, according to reports from the executive board. Troops have already been established in several communities, and with the perfection of the organization for this district and the appointment of a competent field executive, the movement is expected to take on fresh impetus. Mr. W.B. Copper, of Chestertown, has been made chairman of the committee on civic service.

BENEFITS TO BE DERIVED BY KENT SCHOOLS FROM STANDARDIZED TESTS

It is a generally accepted principal, that in any field of human endeavor the best results are obtained when one has a definite aim to work for and instruments for determining from time to time how much has been accomplished. A definite aim makes it possible for the worker to direct his efforts toward the particular things to be accomplished, instead of scattering them over an indefinite field. Instruments for measuring results make it possible for the worker to know what he has accomplished and where he needs to place greater efforts and where less effort. It is also possible for him to learn whether the materials and methods he is using are effective and which material and methods are most effective.

This principal is the foundation of success in the business world. The merchant, manufacturer, or farmer, who does not have a definite aim and who does not measure his accomplishment from time to time is most frequently a failure. Bankers measure the results of their business every day. Merchants take inventories once a year and in many cases more frequently, sometimes a paritla inventory every day. They consider this procedure necessary for success.

The teacher is a manufacturer. His raw material is the child's mind. Texbooks, school buildings, equipment, libraries, and methods and devices of teaching are the instruments which he uses to change the raw material into the finished product of educated boys and girls who are prepared to do their part in the life of the community. Without definite aims the teacher cannot plan his work effectively. He does not know, except in an indefinite or general way, what he is to do. If he has definite aims but no instruments for measuring his results accurately, he cannot learn when he has attained his aims. Thus he is compelled to work in the dark.

With a full realization of the truth of the principle stated above, and looking forward to the betterment of education for the boys and girls in Kent County, Maryland, Miss Mina M. Langvick, Supervisor of Schools, made a survey of the elementary schools in the county through the use of Standardized Tests. Mrs. May Mills Beck, attendance officer, assisted in giving the tests which covered only the two fundamental subjects of reading and arithmetic.

With the results of these tests before them, the teachers are enabled to know their pupils better. The scores attained show whether the pupils are up to the standard, the score of the middle child of all of the hundreds of thousands of children throughout the country to whom the tests were given during the course of their preparation. They show whether the pupils are up to the standard in ability to comprehend or readily understand the thought embodied in what is read and to read rapidly; whether they are up to the standard in rate of work and in accuracy for each of the four operations in arithmetic. With this information at hand, the teachers know where they should place the emphasis in their instruction. Furthermore, the children, with their scores before them, can, with the mere guidance of the teachers and suggestions as to methods of procedure, be encouraged to improve their own record.

The scores of schools throughout the county were lower in reading than in arithmetic. Not for this reason alone, however, will the greater attention be given to reading. Reading is the means by which the world does a large part of its work. The printed page is used for hours daily by millions of people seeking either information or pleasure in reading. The student must read his lesson; it is essential that the banker have some knowledge of the daily industrial reports; the farmer finds it profitable to read the government bulletins on the various crops; the entire family has an interest in the ability of the cook to use the cook book intelligently; people in all walks of life read the daily newspaper, and he who cannot readily comprehend what he reads suffers a serious handicap.

When all of the tests had been given, group meetings were held by the Supervisor in four of the graded schools throughout the county. At these meetings the teachers were afforded the best possible opportunity to know the individual abilities of their children by scoring their papers.

The results were tabulated and graphed for presentation to the teachers at the meeting of the principals and teachers of the Elementary Schools on Friday, Nov. 3. On this occasion Miss I. Jewell Simpson, Assistant Director of the Bureau of Educational Measurements, State Department of Education, was present. She presented in a most interesting and instructive manner the purposes of standard tests and remedial measures for the instruction of those children who are below standard in their work.

For the purpose of illustrating the best method of teaching silent reading and to assist Miss Simpson in her presentation of remedial means to be used for children who are backward in that subject, an excellent demonstration lesson was given by Miss Hannah W Bell, a teacher in the Chestertown Elementary School.

A most unique and helpful message addressed "To The Boys and Girls of Kent," by Miss Langvick, was distributed among the teachers. The purpose of the message is to help the child to compare his rating with the standard score and to arouse in him a strong desire to beat his own record until he has reached the standard. Included in the message are ways and means by which the child can keep his own record and drill himself in the work most needed.

At the close of the program, the meeting was turned over to the teachers to consider the advisability of joining the Maryland State Teachers' Association. The benefits to be derived from membership in the state association were presented by Mr. Owen C. Blades, president of the Kent County Teachers' Association, and the question was acted upon favorably.

A very delightful feature of the meeting was a luncheon served to the teachers by the Parent-Teachers Association of the Chestertown Elementary School. The idea is most commendable and far reaching in its effect on the professional spirit of the teachers. Their gratitude and appreciation is hereby extended to the association.

LOUIS C. ROBINSON,
Superintendent of Schools.

WEDDINGS

Miss Anne Van Sant, daughter of Mr. and Mrs. Laurence Rochester Van Sant, of Galena, and Terry Mitchell, son of Mr. and Mrs. Samuel Mitchell, of Richmond, Va., were married at noon Saturday in the Methodist Episcopal Church at Galena by Rev. Geo. Sterling. The bride was given in marriage by her father and had as maid of honor her sister, Miss Helen Van-Sant. The bridesmaids were Miss Mary Mitchell, of Richmond, Va., sister of the bridegroom, and Miss Katherine Stephens, of Seaford. The best man was Dr. Broadus Mitchell, member of the faculty of Johns Hopkins University, a brother of the groom. The wedding music was played by Miss Mary Hilyard, a cousin of the bride. The bride wore white satin with trimmings of Chantilly lace. Her tulle veil was in cap effect and her head dress of duchess lace. The veil was held in place by orange bolssoms. She carried a shower bouquet of bride roses and lilies of the valley. Miss Helen Van Sant wore orchid georgette crepe and carried yellow chrysanthemums. The bridesmaids wore blue flowered georgette crepe and carried orchid-colored chrysanthemums. The church was decorated with ferns, palms and chrysanthemums. Following the ceremony a wedding breakfast was served at the home of the bride's parents. Two hundred guests attended the wedding. After a short trip Mr. and Mrs. Mitchell will make their home at Waynesboro, Pa. Mr. and Mrs. Mitchell are graduates of the University of Delaware.

Miss Reba M. Ashley, daughter of Mr. and Mrs. Nathaniel Ashley and Mr. Roland Bedwell, of Chesapeake City, were married Wednesday evening, Nov. 1, by the Rev. Frank L. Hicks at his home near Rock Hall. Mr. Bedwell is an engineer on the Ericsson Line. The happy couple will reside with the bride's parents until spring, when they will move to Philadelphia.
