HEALTHIER COWS, MORE MILK—AT LESS COST!

Proper stock feeding is a matter that deserves the serious attention of every progressive farmer. The right feed results in healthier, happier stock—more milk production—increased earnings. A proper balanced ration is important. Experiments show that seven cows fed GROUND feed produce as much as ten cows fed whole grain.

GRINDING DEMONSTRATION

We will have public demonstrations of this combination grinder at our store, when we will grind hay, fodder, corn, etc. Don't forget the dates below and come in and see this mill in operation.

The body will be taken to Baltimore for interment. Mr. Jones was a gentleman of high qualities and had many warm friends here.

Resolutions of Respect

At a meeting of the Emmanuel Branch of the Woman's Auxiliary, Chestertown Parish, Diocese of Easton, Jan. 7, 1923, the following resolution was passed:

Whereas it has pleased our Heavenly Father to call home to her Eternal Rest and Everlasting Reward our dear friend and fellow worker, Mrs. Mary Emory Hines, and

Whereas we are deeply grieved and filled with a keen sense of our great loss in the "going home" of one who has always been so active and interested in every department of diocesan and parish life, we desire to place on record this testimony of our great esteem, effection and appreciation.

Be it also resolved, that these resolutions be entered on the minutes of the Auxiliary and a copy be sent to the members of Mrs. Hines' family, with the expression of our sincere sympathy and deep regret.

May the God of Peace grant her eternal rest and let perpetual light shine upon her.

H. R. HARRIS,
M. W. COMEGYS,
A. E. PHYSICK,
Committee.

IN THE STORM

By Irene S. Woodstock

I was hast'ning one day, through the snow and the sleet,
When I saw an old horse standing near on the street.
He looked at me sadly, with gentle, brown eye,
And it seemed that he whispered, as I passed him by:

"Kind friend, I am cold. In your great overcoat
And your muffler that's fastened so snug 'round your throat,
You never could guess, since you are so warm,
How chilly I am, standing here in the storm.

The grocer's boy drove me,—and how I did dash
Down the street, up the hill, at the sting of his lash!
While he shouted, and urged me the faster to go
On my poor, weary legs, through the ice and the snow.

"Kind friend, if you watch, I am sure you will see
A great many other old horses like me,
Who, for somebody's pleasure, are urged to a run;
Then left, unprotected, in storm or in sun.

"I am just an old horse, and I can't speak my mind,
But if I could talk, I would say, 'Please be kind.
For though I am only a horse, it is true,
In feelings I'm almost as human as you.'"

I found an old blanket I surely could spare.
I threw it across him, and fastened it there.
And I'm sure I felt better, that day of the storm,
Because I had helped an old horse to keep warm.

ANCIENT HISTORY OF SECTION

Notes Of Long Ago That Will Interest Our Readers

Head of Chester was first known as Millington in 1819.

The first postmaster for Head of Chester was James Bradshaw, who was appointed January 9, 1811.

Joseph Wright was the first postmaster at Millington and was appointed August 8, 1822.

Richard Thomas was the first postmaster at Queenstown and was appointed on July 1, 1803.

John Salter, John Whittington, Solomon Wright and Philemon Hemsley were members of the Maryland Legislature from Queen Anne's county in 1708.

Wind mills were employed for grinding corn, especially on Kent Island, where there was a deficiency of water power. Davis, in the "Day Star," writing about 1855, says, "The seat of the Claiborne settlement was at Kent Point." There was the mill, several of which (that is the wind mills) can still be seen.

Rabbits Released

The State Conservation Commission through Deputy State Game Warden, E. Joseph Watson, has been purchasing from Kent county trappers all rabbits caught before January 1st, at one dollar for release in that section.

By releasing the cotton tails in the section where they were trapped, it is beleived that a method of restocking the county will be established and result in a greater abundance of the game.

The following persons brought rabbits to Mr. Watson and after being checked were released at the various farms: Joseph Trew, 10; W. N. Morris Jr.,3; A. Lucht, 8; W. H. Whitley, 5; W. P. Anderson, 1, Louis Jones, 2; G. W. Orr, 4; Albert Ivens, 5; John Waller, 2; Victor Hendrickson, 1; Harry Jewell, 9; John J. Lockwood, 21; Nelson Lecompt, 4; Total 75.

France Big Fur Producing Nation

Since Russia dropped out of the fur market France has become one of the world's great fur-producing countries. Her annual output exceeds 200,000,000 francs in valuation, of which 130,000,000 is in exports.

French furriers cannot get enough plants to turn out the finished goods; they are also faced with a labor shortage, although good workmen are offered as much as 60 francs a day.
